Sixteenth Century Nationalism Eva Dorothea Marcu, 1976 *The Making of English National Identity* Krishan Kumar, 2003-03-13 Why is English national identity so enigmatic and so elusive Why unlike the Scots Welsh Irish and most of continental Europe do the English find it so difficult to say who they are *The Making of English National Identity* first published in 2003 is a fascinating exploration of Englishness and what it means to be English Drawing on historical sociological and literary theory Krishan Kumar examines the rise of English nationalism and issues of race and ethnicity from earliest times to the present day He argues that the long history of the English as an imperial people has as with other imperial people like the Russians and the Austrians developed a sense of missionary nationalism which in the interests of unity and empire has necessitated the repression of ordinary expressions of nationalism Professor Kumar's lively and provocative approach challenges readers to reconsider their pre conceptions about national identity and who the English really are *The Gutenberg Galaxy* Marshall McLuhan, 2017-06-22 *The Gutenberg Galaxy* catapulted Marshall McLuhan to fame as a media theorist and in time a new media prognosticator Fifty years after its initial publication this landmark text is more significant than ever before Readers will be amazed by McLuhan's prescience unmatched by anyone since predicting as he did the dramatic technological innovations that have fundamentally changed how we communicate *The Gutenberg Galaxy* foresaw the networked compressed global village that would emerge in the late twentieth and twenty first centuries despite having been written when black and white television was ubiquitous This new edition of *The Gutenberg Galaxy* celebrates both the centennial of McLuhan's birth and the fifty year anniversary of the book's publication A new interior design updates *The Gutenberg Galaxy* for twenty first century readers while honouring the innovative avant garde spirit of the original This edition also includes new introductory essays that illuminate McLuhan's lasting effect on a variety of scholarly fields and popular culture A must read for those who inhabit today's global village *The Gutenberg Galaxy* is an indispensable road map for our evolving communication landscape **Mapping the Nation** Gopal Balakrishnan, 2012-11-13 In nearly two decades since Samuel P Huntington proposed his influential and troubling clash of civilizations thesis nationalism has only continued to puzzle and frustrate commentators policy analysts and political theorists No consensus exists concerning its identity genesis or future Are we reverting to the petty nationalisms of the nineteenth century or evolving into a globalized supranational world Has the nation state outlived its usefulness and exhausted its progressive and emancipatory role Opening with powerful statements by Lord Acton and Otto Bauer the classic liberal and socialist positions respectively *Mapping the Nation* presents a wealth of thought on this issue the debate between Ernest Gellner and Miroslav Hroch Gopal Balakrishnan's critique of Benedict Anderson's seminal *Imagined Communities* Partha Chatterjee on the limitations of the Enlightenment approach to nationhood and contributions from Michael Mann Eric Hobsbawm Tom Nairn and Jürgen Habermas **The Origins of Catalan Nationalism, 1770-1898** A. Smith, 2014-03-26 This book looks at the reasons

behind the emergence of a Catalan nationalist movement from the late 1880s one of the most important developments that took place in nineteenth century Spain with the Catalan question thereafter never far from the centre of the Spanish political stage *Renaissance Architecture* David Thomson,1993 The author uses a range of published and unpublished sources and covers Italy France Britain Spain Germany and The Netherlands to explore the ethics aesthetics and vanities of ambitious building *Handbook of Social Theory* George Ritzer,Barry Smart,2003-07-26 The Handbook of Social Theory presents an authoritative and panoramic critical survey of the development achievement and prospects of social theory **War in Human Civilization** Azar Gat,2008 Why do people go to war Is it rooted in human nature or is it a late cultural invention And what of war today is it a declining phenomenon or simply changing its shape This book sets out to find definitive answers to these questions in an attempt to unravel the riddle of war throughout human history *Power and Identity* Denis Sindic,Manuela Barreto,Rui Costa-Lopes,2014-12-05 The concepts of power and identity are vital to many areas of social research In this edited collection a prominent set of contributors explore the double relationship between power and group identity focusing on two complementary lines of enquiry In what ways can the powerful dictate the identities of the powerless How can the powerless redefine their identity to challenge the powerful Each chapter is written by leading authorities in the field and investigates a particular aspect of the interplay of identity and power via a range of empirical contexts such as colonialism nationalism collective action and electoral politics The case studies include early modern Goa under Portuguese rule the tribes of modern day Jordan the use of sexual stereotyping and objectification by female activists seeking to transform social systems and a revisiting of the classic Stanford Prison Experiment The chapters include contributions from a variety of social disciplines and research methodologies and together provide a comprehensive overview of a subject at the cutting edge of social and political psychology Power and Identity will be of great interest to researchers graduates and upper level undergraduate students from across the social sciences **Contemporary France** Anne Sa'adah,2003 Annotation Describing actors beliefs institutions and policies this introduction interprets contemporary democratic politics in France and explores why and with what political consequences so many people in France experience globalization as a harbinger of national decline Special attention is paid to the impact of historical legacies WWII and France s role in Europe The author teaches law and political science at Dartmouth College Annotation c 2003 Book News Inc Portland OR booknews com
