Fostering Children's Mathematical Power Arthur Baroody, Arthur J. Baroody, Jesse L.M. Wilkins, Ronald T.

Coslick, 1998-09-01 Teachers have the responsibility of helping all of their students construct the disposition and knowledge needed to live successfully in a complex and rapidly changing world To meet the challenges of the 21st century students will especially need mathematical power a positive disposition toward mathematics curiosity and self confidence facility with the processes of mathematical inquiry problem solving reasoning and communicating and well connected mathematical knowledge an understanding of mathematical concepts procedures and formulas This guide seeks to help teachers achieve the capability to foster children's mathematical power the ability to excite them about mathematics help them see that it makes sense and enable them to harness its might for solving everyday and extraordinary problems The investigative approach attempts to foster mathematical power by making mathematics instruction process based understandable or relevant to the everyday life of students Past efforts to reform mathematics instruction have focused on only one or two of these aims whereas the investigative approach accomplishes all three By teaching content in a purposeful context an inquiry based fashion and a meaningful manner this approach promotes children's mathematical learning in an interesting thought provoking and comprehensible way This teaching guide is designed to help teachers appreciate the need for the investigative approach and to provide practical advice on how to make this approach happen in the classroom It not only dispenses information but also serves as a catalyst for exploring conjecturing about discussing and contemplating the teaching and learning of mathematics

Math through Children's Literature Kathryn Braddon, Nancy Hall, Dale Taylor, 1993-02-15 Use children's literature as a springboard to successful mathematical literacy This book contains summaries of books each related to the NCTM Standards that will help children gain familiarity with and an understanding of mathematical concepts Each chapter has classroom tested activities and a bibliography of additional books to further expand student learning

Teaching Mathematics through Story Caroline McGrath, 2014-06-27 How do you make mathematics relevant and exciting to young children How can mathematics and literacy be combined in a meaningful way How can stories inspire the teaching and learning of mathematics This book explores the exciting ways in which story can be used as a flexible resource to facilitate children's mathematical thinking It looks at the potential relationship between story and mathematics and practically demonstrates how they can be combined to help children connect understand and express mathematical ideas using story language Written for all early years practitioners and students the book offers a playful pedagogical approach to facilitating children's mathematical thinking which brings a creative satisfaction and confidence to teaching mathematics

Encouraging a creative approach to teaching mathematics that draws on picture books and oral mathematical stories the book shows you how to Move from reading to telling stories with mathematical themes Encourage children to pose and solve problems by playing with the plot of stories Enable children to translate abstract mathematical ideas to concrete representations with supporting story props and puppets Create original oral mathematical stories alongside children Capture children s mathematical thinking in an observational framework supported with audio or video recordings which can be shared with parents and colleagues There are free audio recordings of children and adults telling oral mathematical stories which feature in the book These can be downloaded from www.routledge.com/9780415688154 This book draws on practical work with children educators parents professional storytellers and trainee practitioners who bring theoretical ideas to life and offer insight into their mathematical story experiences It is a must have for all those who want to make mathematics relevant accessible and imaginative for young children
