Teaching The Cult Of Literature In The French Third Republic:

Teaching the Cult of Literature in the French Third Republic M. Guiney, 2004 *Teaching the Cult of Literature in the French Third Republic* M. Guiney, 2004-09-17 This book explores literature in its role as a sacred text within the confines of 19th century French primary and secondary education helping the school to take over the role of spiritual authority from the Catholic Church

Culture Wars and Literature in the French Third Republic Gilbert D. Chaitin, 2009-03-26 The articles assembled in *Culture Wars and Literature in the French Third Republic* describe and analyze the ever widening attempts in the early years of the Third Republic 1870 1914 to mobilize literary phenomena for the purposes of political and social warfare Literature became the preferred site in which the human implications of the fiercest and most widespread of these culture wars the battles over national identity waged between proponents of secular and religious education were articulated dramatized and appraised In studies of Erckmann Chatrian and Vall s Rachilde and Colette the Goncourt brothers and Marcelle Tinayre La Fontaine and Corneille the song writer Jules Jouy and the theater critic Francisque Sarcey among others some of these essays open up new perspectives on well known issues such as education the definition of national classics Boulangism and women s liberation while others bring to light hitherto unsuspected connections between apparently disparate problems like decadence anarchism and feminism the mystery of literariness and the ban on Muslim headscarves or the posthumous publication of private letters and the State s interest in cultural and literary heroes The final piece crystallizes the fundamental conflict of democratization the tension between the republican desire for popular participation and the fear of the consequences of that participation by an uncultured public

The Style of the State in French Theater, 1630-1660 Katherine Ibbett, 2016-12-05 Engaging with recent thinking about performance political theory and canon formation this study addresses the significance of the formal changes in seventeenth century French theater Each chapter takes up a particularity of seventeenth century theatrical style and staging for example the clearing of violence from the stage and shows how the conceptualization of these French stylistic shifts appropriates a rich body of Italian political writing on questions of action temporality and law The theater s appropriation of political concerns and vocabularies the author argues proffers an astute reflection on the practices of government that draws attention to questions obscured in reason of state such as the instrumentalization of women s bodies In a new reading of tragedies about government the author shows how the canonical figure of Pierre Corneille is formally engaged with the political strategizing he often appears to repudiate and in so doing challenges a literary history that has read neoclassicism largely as a display of pure French style

The Pedagogical Imagination Leon Sachs, 2014-05-01 Study of French education and republicanism as represented in twenty first century French literature and film

The Decadent Republic of Letters Matthew Potolsky, 2012-10-15 While scholars have long associated the group of nineteenth century French and English writers and artists known as the decadents with alienation escapism and withdrawal from the social and political world Matthew Potolsky offers an alternative

reading of the movement In *The Decadent Republic of Letters* he treats the decadents as fundamentally international defined by a radically cosmopolitan ideal of literary sociability rather than an inward turn toward private aesthetics and exotic sensation *The Decadent Republic of Letters* looks at the way Charles Baudelaire Thophile Gautier and Algernon Charles Swinburne used the language of classical republican political theory to define beauty as a form of civic virtue The libertines an international underground united by subversive erudition gave decadents a model of countercultural affiliation and a vocabulary for criticizing national canon formation and the increasing state control of education Decadent figures such as Joris Karl Huysmans Walter Pater Vernon Lee Aubrey Beardsley and Oscar Wilde envisioned communities formed through the circulation of art Decadents lavishly praised their counterparts from other traditions translated and imitated their works and imagined the possibility of new associations forged through shared tastes and texts Defined by artistic values rather than language geography or ethnic identity these groups anticipated forms of attachment that are now familiar in youth countercultures and on social networking sites Bold and sophisticated *The Decadent Republic of Letters* unearths a pervasive decadent critique of nineteenth century notions of political community and reveals the collective effort by the major figures of the movement to find alternatives to liberalism and nationalism

The Written World Jeffrey N. Peters, 2018-05-15 In *The Written World* Space Literature and the Chorological Imagination in Early Modern France Jeffrey N Peters argues that geographic space may be understood as a foundational originating principle of literary creation By way of an innovative reading of chora a concept developed by Plato in the *Timaeus* and often construed by philosophical tradition as space Peters shows that canonical literary works of the French seventeenth century are guided by what he calls a chorological approach to artistic invention The chorological imagination describes the poetic as a cosmological event that gives location to or more accurately in Plato's terms receives the world as an object of thought In analyses of well known authors such as Corneille Moliere Racine and Madame de Lafayette Peters demonstrates that the apparent absence of physical space in seventeenth century literary depiction indicates a subtle engagement with rather than a rejection of evolving principles of cosmological understanding Space is not absent in these works so much as transformed in keeping with contemporaneous developments in early modern natural philosophy *The Written World* will appeal to philosophers of literature and literary theorists as well as scholars of early modern Europe and historians of science and geography

Our Civilizing Mission Nicholas Harrison, 2019 *Our Civilizing Mission* is both an exploration of colonial education and a response to current anxieties about the foundations of the humanities Focusing on the example of Algeria it asks what can be learned by treating colonial education not just as an example of colonialism but as a provocative uncomfortable example of education

Colette's Republic Patricia A. Tilburg, 2009 In France's Third Republic secularism was for its adherents a new faith a civic religion founded on a rabid belief in progress and the Enlightenment conviction that men and women could remake their world And yet with all of its pragmatic smoothing over of the supernatural edges of Catholicism the Third Republic engendered its own

fantastical ways of seeing by embracing observation corporeal dynamism and imaginative introspection How these republican ideals and the new national education system of the 1870s and 80s the structure meant to impart these ideals shaped belle poque popular culture is the focus of this book The author reassesses the meaning of secularization and offers a cultural history of this period by way of an interrogation of several fraught episodes which although seemingly disconnected shared an attachment to the potent moral and aesthetic directives of French republicanism a village s battle to secularize its schools a scandalous novel a vaudeville hit featuring a nude celebrity and a craze for female boxing Beginning with the writer and performer Colette 1873 1954 as a point of entry this re evaluation of belle poque popular culture probes the startling connections between republican values of labor and physical health on the one hand and the cultural innovations of the decades preceding World War I on the other *Henri Bergson's Creative Evolution 100 Years Later* Michael Kolkman, Michael Vaughan, 2010-09-01 This special issue of SubStance 2007 celebrates the centennial of Henri Bergson s *Creative Evolution* published in 1907 Since evolution is a living process and not a completed history any understanding of it must necessarily be open ended If no one can have the last word Bergson writes the project of understanding evolution will only be built up by the collective and progressive effort of many thinkers of many observers also completing correcting and improving one another Included in the issue are articles from Bergson scholars from the United States Japan France and Great Britain Topics in the issue range from Bergson s encounters with Darwin Nietzsche Derrida and Deleuze and from the analytical to the metaphysical
