Teaming Up For Excellence:

Teaming Up for Excellence Ronald V. Armstrong, 1997-01-01 *The Aqua Group Guide to Procurement, Tendering and Contract Administration* Mark Hackett, Gary Statham, 2017-05-02 This key text for the building team is an authoritative guide and gives a detailed account of the team's roles and responsibilities with best industry practice required to ensure that building projects meet clients' expectations on time, cost and quality. The second edition of *The Aqua Group Guide to Procurement, Tendering and Contract Administration* has been edited, enlarged and updated by a high profile author team with unparalleled experience of both private and public sectors as well as of teaching on QS courses. It covers the entire building process from inception to final account and throughout the emphasis is on current best practice. This edition has new material on the CDM regulations, JCT contracts, the RIBA Plan of Work, the RICS New Rules of Measurement, BIM and Sustainability as well as a general update for industry changes especially on procurement, internationalisation and PFI. With clear and thorough explanations you are taken through self-contained chapters covering the detail of the briefing stage, procurement methods, tendering procedures and contract administration. The period from starting a college course to successful completion of professional examinations represents a long and steep learning curve. The range of skills and the knowledge required to perform work efficiently and effectively might at first seem rather daunting. Although designed as an introductory textbook for undergraduates in construction, architecture and quantity surveying, *The Aqua Group Guide* offers an excellent overview of contract administration and will provide you with sufficient understanding to hold you in good stead for your early years in professional practice.

Project Partnering for the Design and Construction Industry Ralph J. Stephenson, 1996-01-12 It is no secret that problems in the construction industry can quickly escalate into full fledged conflicts, adversarial positions taken by the various parties involved in a project routinely lead to disrupted schedules and costly litigation. It doesn't have to be that way. *Project Partnering for the Design and Construction Industry* provides powerful tools for improving working relationships among contractors, designers, clients and suppliers. Speaking directly to the construction professional, author Ralph J. Stephenson demonstrates numerous ways to avoid conflict and ensure successful on time project deliveries by promoting teamwork, establishing non-contract ground rules for ethical and responsible behavior and employing a variety of conflict resolution techniques. This thoroughly practical handbook describes all the steps, procedures and guidelines you need to make project partnering work for you. You'll discover how to identify possible sources of conflict before the work begins and learn to plan and write a project partnering charter. You'll develop the ability to identify commonly encountered problem types and avoid miscommunications and disputes that may arise from incompatible personalities and management styles. Using real world case studies, examples and his own personal observations, the author examines construction projects of all sizes and types from inception and design through completion and beyond. He offers a historical overview of the construction industry, comments on its nature as a business, analyzes its various components and

offers helpful tips on management methods for specific projects and organizational structures This comprehensive and enthusiastic book demonstrates how effective project partnering fosters competent high quality work throughout the entire life cycle of a project It also enables construction professionals to make each project more profitable and less stressful while finding renewed job satisfaction in a revitalized working environment How to manage construction projects on time within budget and without major conflicts To many contractors architects design engineers and suppliers a conflict free construction project may seem like an impossible dream Not so Project Partnering for the Design and Construction Industry provides step by step instructions on how to conduct a high quality on time profitable construction project while avoiding strife adversarial behavior or debilitating legal action Written in plain English and spiced with humor this enormously useful guide Examines all practical methods and procedures needed to create successful partnering systems for a wide range of projects Shows how project partnering dispute resolution techniques can defuse problems and disagreements quickly and inexpensively before they get out of hand Describes a variety of preventative measures to help contain liability and reduce time spent on nonconstruction activities Helps establish productive relationships among all participants in a construction project including designers contractors clients and suppliers Provides numerous case studies where project partnering has been applied successfully as well as real world examples charts illustrations and actual partnering charters Offers alternative dispute resolution techniques for situations where project partnering is inappropriate Discusses background history and the general organizational structure of the construction industry For contractors engineers architects subcontractors suppliers and owners and anyone involved in the decision making process on construction projects this book provides the key to undertaking projects with confidence and building a solid reputation in the marketplace **Total Quality Management** United States.
