Techgnosis Myth Magic And Mysticism In The Information Age

Michael Saler

Techgnosis Myth Magic And Mysticism In The Information Age:

Techgnosis Erik Davis, 1998 From the dawn of self conscious humanity our inner life has been the province of religion and mysticism But as Erik Davis reveals as powerful as mythology and spirituality can be in illuminating our deepest selves it has largely been the successively emerging tools of our communications technologies from talking drums and papyrus scrolls to television and cyberspace that have actually reshaped the essence of who we are With keen perception Davis ranges widely from ancient Gnosticism to the worship of UFOs to uncover the myths and impulses that drive our technological culture where boundaries are dissolving between actual and virtual environments and where the edges of our selves are constantly being redrawn In TechGnosis Erik Davis uncovers the religious roots of contemporary infomania and uses his remarkable insights much as the cartographers of old used their provisional maps to probe the darkness ahead now full of cyberspace monsters and digital utopias

Magia Sexualis Hugh B. Urban, 2006-10-04 Sexuality and the occult arts have long been associated in the western imagination but it was not until the nineteenth century that a large and sophisticated body of literature on sexual magic the use of sex as a source of magical power emerged This book the first history of western sexual magic as a modern spiritual tradition places these practices in the context of the larger discourse surrounding sexuality in American and European society over the last 150 years to discover how sexual magic was transformed from a terrifying medieval nightmare of heresy and social subversion into a modern ideal of personal empowerment and social liberation Focusing on a series of key figures including American spiritualist Paschal Beverly Randolph Aleister Crowley Julius Evola Gerald Gardner and Anton LaVey Hugh Urban traces the emergence of sexual magic out of older western esoteric traditions including Gnosticism and Kabbalah which were progressively fused with recently discovered eastern traditions such as Hindu and Buddhist Tantra His study gives remarkable new insight into sexuality in the modern era specifically on issues such as the politics of birth control the classification of sexual deviance debates over homosexuality and feminism and the role of sexuality in our own new world of post modern spirituality consumer capitalism and the Internet

Religion and Cultural Studies Susan L. Mizruchi, 2021-01-12 Americans have never been more religious than they are now at the dawn of the twenty first century By all reports attendance rates at traditional places of worship are high and rising the influx of new immigrant religions has revitalized standard faiths and drawn in those who had strayed from them Popular television shows like The Simpsons feature characters who go to church every Sunday and speak to God special events like the 1998 outdoor mass in Worcester Massachusetts for a comatose girl believed to have miraculous powers attract thousands of people This collection is both part of this ferment and an intellectual reflection upon it Religion and Cultural Studies features essays by major scholars from the fields of anthropology history literary criticism and religion in order to enrich critical discourse about religion and culture Despite the variety of disciplines represented by this group of scholars and the variety of cultures explored in their essays from fifteenth century Flemish asceticism and nineteenth century African American spiritualism to

Russian blood libel trials and Alien Abduction Reports in the twentieth century their common ground is the question of religion's place in current American academic analysis and more broadly in American life today The volume's range of vocabulary and subject matter is aimed at vitalizing scholarly interest in the field of religion and cultural studies and deepening intellectual inquiry in the contemporary academy The contributors are Eytan Bercovitch Karen McCarthy Brown Gillian Feeley Harnik Richard Wightman Fox Jenny Franchot Giles Gunn Geoffrey Galt Harpham Bruce B Lawrence Jack Miles Susan L Mizruchi and Jonathan Z Smith

As If Michael Saler, 2012-01-09 Many people throughout the world inhabit imaginary worlds communally and persistently parsing Harry Potter and exploring online universes These activities might seem irresponsibly escapist but history tells another story Beginning in the late nineteenth century when Sherlock Holmes became the world's first virtual reality character readers began to colonize imaginary worlds debating serious issues and viewing reality in provisional as if terms rather than through essentialist just so perspectives From Lovecraft's Cthulhu Mythos and Tolkien's Middle earth to the World of Warcraft and Second Life *As If* provides a cultural history that reveals how we can remain enchanted but not deluded in an age where fantasy and reality increasingly intertwine **Routledge**

International Handbook of Charisma José Pedro Zúquete, 2020-11-29 The Routledge International Handbook of Charisma provides an unprecedented multidimensional and multidisciplinary comparative analysis of the phenomenon of charisma first defined by Max Weber as the irrational bond between deified leader and submissive follower It includes broad overviews of foundational theories and experiences of charisma and of associated key issues and themes Contributors include 45 influential international scholars who approach the topic from different disciplinary perspectives and utilize examples from an array of historical and cultural settings The Handbook presents up to date concise thought provoking innovative and informative perspectives on charisma as it has been expressed in the past and as it continues to be manifested in the contemporary world by leaders ranging from shamans to presidents It is designed to be essential reading for all students researchers and general readers interested in achieving a comprehensive understanding of the power and potential of charismatic authority in all its varieties subtleties dynamics and current and potential directions *The Nature of Magic*

Susan Greenwood, 2020-06-03 This book examines how and why practitioners of nature religion Western witches druids shamans seek to relate spiritually with nature through magical consciousness Magic and consciousness are concepts that are often fraught with prejudice and ambiguity respectively Greenwood develops a new theory of magical consciousness by arguing that magic ultimately has more to do with the workings of the human mind in terms of an expanded awareness than with socio cultural explanations She combines her own subjective insights gained from magical practice with practitioners in depth accounts and sustained academic theory on the process of magic She also tracks magical consciousness in philosophy myth folklore story telling and the hi tech discourse of postmodernity and asks important questions concerning nature religion's environmental credentials such as whether it is inherently ecological as many of its practitioners claim *The*

Digital Dialectic Peter Lunenfeld, 2000 How our visual and intellectual cultures are changed by the new interaction based media and technologies The Buddha in the Machine R. John Williams, 2014-06-24 The writers and artists described in this book are joined by a desire to embrace Eastern aesthetics as a means of redeeming Western technoculture The assumption they all share is that at the core of modern Western culture there lies an originary and all encompassing philosophical error and that Asian art offers a way out of that awful matrix That desire this book attempts to demonstrate has informed Anglo and even Asian American debates about technology and art since the late nineteenth century and continues to skew our responses to our own technocultural environment The Communications Toolkit P. H. Longstaff, 2002 A toolkit of basic principles to help those in business industry law and other professions deal with a constantly changing communications sector Although telephone cable broadcast print and Internet companies are changing at a fantastic rate the fundamentals of communications networks and competition have remained constant This book provides the tools necessary to build lasting flexible strategies to survive and grow in these times of transition Whether you are a business executive lawmaker policy analyst industrialist stock analyst lawyer or judge these tools will help you to solve real problems right away The toolkit contains six tools essentially ways to view the workings of the communications sector from a larger more inclusive perspective The tools draw on knowledge and concepts from communications engineering biology business and law Tool 1 New Building Blocks presents the big picture of the communications sector Tool 2 Networks develops the fundamental parts and processes found in all networks Tool 3 Competition and Cooperation presents the basic characteristics shared by most processes in which two or more entities compete or cooperate to obtain a scarce resource Tool 4 The Three Visions of Convergence sorts out the many things people mean when they say convergence Tool 5 Convergence Theology shows how people's faith or lack of it in convergence influences their predictions for the future Finally Tool 6 Concentration Diversity focuses on the forces that drive things together and those that pull them apart The book also discusses how the tools can be used to understand and influence public policy issues **The Routledge Companion to Religion and Popular Culture** John C. Lyden, Eric Michael Mazur, 2015-03-27 Religion and popular culture is a fast growing field that spans a variety of disciplines This volume offers the first real survey of the field to date and provides a guide for the work of future scholars It explores key issues of definition and of methodology religious encounters with popular culture across media material culture and space ranging from videogames and social networks to cooking and kitsch architecture and national monuments representations of religious traditions in the media and popular culture including important non Western spheres such as Bollywood This Companion will serve as an enjoyable and informative resource for students and a stimulus to future scholarly work
