The Good Doctors

Kenneth Brigham, Michael M. E. Johns

The Good Doctors:

The Good Doctors John Dittmer, 2017-01-31 In the summer of 1964 medical professionals mostly white and northern organized the Medical Committee for Human Rights MCHR to provide care and support for civil rights activists organizing black voters in Mississippi They left their lives and lucrative private practices to march beside and tend the wounds of demonstrators from Freedom Summer the March on Selma and the Chicago Democratic Convention of 1968 Galvanized and sometimes radicalized by their firsthand view of disenfranchised communities the MCHR soon expanded its mission to encompass a range of causes from poverty to the war in Vietnam They later took on the whole of the United States healthcare system MCHR doctors soon realized fighting segregation would mean not just caring for white volunteers but also exposing and correcting shocking inequalities in segregated health care They pioneered community health plans and brought medical care to underserved or unserved areas Though education was the most famous battleground for integration the appalling injustice of segregated health care levelled equally devastating consequences Award winning historian John Dittmer author of the classic civil rights history *Local People The Struggle for Civil Rights in Mississippi* has written an insightful and moving account of a group of idealists who put their careers in the service of the motto Health Care Is a Human Right

The Good Doctor Ron Paterson, 2013-11-01 Drawing upon real accounts of negligence incompetence and distrust this book seeks to identify the key competencies of a good doctor the ways in which medical care fails and the roadblocks to ensuring that every licensed doctor is capable Arguing that it is possible to improve patient care by lifting the veils of secrecy and better informing patients by establishing more effective ways of checking doctors competence and by ensuring that medical watchdogs protect the public this discussion offers an expert's perspective on health care

Ethics and the Good Doctor Sabena Jameel, Andrew Peterson, James Arthur, 2021-09-12 *Ethics and the Good Doctor* brings together existing literature and an analysis of empirical research conducted by the Jubilee Centre for Character and Virtues to examine the ethical nature of medical practice and explore medicine as a virtuous profession The book is based on the idea that medical practice is an inherently moral profession in which notions of trust care and meaningful relationships form the foundations of being a good doctor By taking into account the ethical dimensions of medical practice that have come under greater scrutiny and pressure over recent years this book explores how personal and professional character is understood enacted and experienced by medical practitioners at various stages of their career *Ethics and the Good Doctor* situates and presents the empirical data in a way that is accessible to practicing doctors medical students and medical educators Clear implications for policy practice and research are offered ensuring this book will be of great interest to a range of

stakeholders involved in medical practice including those working in medical policy

The Good Doctor Kenneth Brigham, Michael M. E. Johns, 2020-07-07 What makes a good doctor It's not what you think A doctor willing to face their own uncertainty in the face of illness and treatment might just be the best medicine Too often we choose the wrong doctor for the

wrong reasons It doesn't have to be that way In *The Good Doctor* Ken Brigham MD and Michael M E Johns MD argue that we need to change the way we think about health care if we want to be the healthiest we can be Counterintuitive as it may seem uncertainty is integral to medicine and you want a doctor who knows that someone who sees you as the unique case you are someone who knows that data isn't everything someone who is able to change her mind as the information changes For too long we've clung to the myth of the infallible doctor one who assuredly tells us this is what's wrong and here is how I will cure you and our health has suffered for it Brigham and Johns propose a new model of medicine one that is comfortable with ambiguity and that centers on an equal partnership between patient and doctor Uncertainty properly embraced opens a new universe of possibilities

The Good Doctor Wensley Clarkson, 2002-05-19 The shocking true story of how one doctor denied the oath he had taken and began a killing spree that would change forever the stereotype of the benevolent country doctor No one knows how many people Fred Shipman killed during his 30 year practice in England but estimates range into the hundreds of photos May **The Good Doctor Guillotin** Marc Estrin, 2009-09-01 *The Good Doctor* Guillotin follows five characters to a common destination the scaffold at the first guillotining of the French Revolution Dr Guillotin of course a physician and member of the National Assembly involved in many important events including the Tennis Court Oath Nicolas Pelletier the first victim or patient as they were sometimes called since the new beheading machine was seen as a humanitarian medical intervention in the state's technique of dealing death Father Pierre the cur who accompanies Pelletier in his last days a man torn between his religious commitment and an equally strong commitment to the poor and their revolution Sanson the famous executioner of Paris who 9 months later would execute the king and retire from remorse Tobias Schmidt builder of the new machine a German piano maker working in Paris a freethinker predicting the Terror that will follow but allowing himself to initiate it The revolution after all had reduced the sale of pianos Various other interesting figures briefly appear Damiens Mozart Mesmer Louis XVI the Marquis de Sade Marat Robespierre Demoulins among them The eighteenth century narrative is divided into several sections each introduced by an essay in the author's voice the first on five ness and Pentagons a second on hope and Utopia a third on revolutionary violence and a fourth on capital punishment This is no historical novel It is rather a fictive meditation on a contemporary conundrum using an eighteenth century drum

The Good Doctor Damon Galgut, 2003 When Laurence Waters arrives at his post in a rural hospital in new South Africa and convinces Dr Ruth Ngema head of the hospital to set up clinics in the villages the crime and corruption that follow put everyone involved in danger **Chironian**, 1894 **The Urologic and Cutaneous Review**, 1924 *The Chicago Medical Times*, 1871
