The Indy Car Wars Sigur E. Whitaker, 2015-10-22 The world of Champ Car auto racing was changing in the 1970s As cars became more sophisticated the cost of supporting a team had skyrocketed making things difficult for team owners In an effort to increase purses paid by racing promoters and win lucrative television contracts a group of owners formed Championship Auto Racing Teams CART in 1978 Soon after CART split from its sanctioning body the United States Auto Club USAC Though Champ Cars ran on numerous tracks the Indianapolis 500 was the payday that supported most teams through the season From the beginning CART had most of the successful teams and popular drivers and they focused on driving a wedge between the track owners and the USAC Over the next 30 years the tension between CART and USAC ebbed and flowed until all parties realized that reunification was needed for the sake of the sport This book details the fight over control of Champ Car racing before reunification in 2008

Development of Southern French and Catalan Society, 718-1050 Archibald R. Lewis, 2014-05-12 Early in the eighth century the current of the Muslim movement that inundated northern Spain crept over the Pyrenees to spread across a portion of the French Midi From the north the tide of Carolingian

conquest forced the Muslims back and took in these same southern French and northern Spanish provinces During the same era the Vikings raided intermittently and with varying degrees of intensity along the seacoasts and up the inland waterways sometimes controlling considerable areas for extended periods These raids and conquests inevitably affected the way of life of the people of southern France and Catalonia Contemporary travelers and later scholars have noted that the feudal traditions and obligations that were so strong in the north seemed very weak or nonexistent in the south They found that the land seemed to be held largely as allods not as feudal fiefs they saw that women held positions of surprising power that throughout the area there was great emphasis on money and that the traditions of Roman and Visigothic law still survived Although scholars have noted these differences no one has made a comprehensive study of southern French and Catalan society as a whole It is to fill this void that Archibald Lewis provides this volume In a detailed and scholarly study based largely upon original records and chronicles he examines the familial social economic governmental military and religious life of the area from 718 to 1050 A D Lewis gives as comprehensive a picture as the records will permit of the society that existed in the early eighth century describes and discusses the major changes which took place during the next three centuries and analyzes their causes and effects This study which includes careful and detailed notes and an extensive bibliography provides a reliable and long needed reference tool
