Weeks, 2002-08-15 On June 22 1941 just less than two years after signing the Nazi Soviet Agreements Adolf Hitler's German army invaded the Soviet Union The attack hardly came as a surprise to Josef Stalin in fact history has long held that Stalin spent the two intervening years building up his defenses against a Nazi attack With the gradual declassifying of former Soviet documents though historians are learning more and more about Stalin's grand plan during the years 1939 1941 Longtime Soviet expert Albert L Weeks has studied the newly released information and come to a different conclusion about the Soviet Union's pre war buildup it was not precaution against German invasion at all In fact Weeks argues the evidence now suggests Soviet mobilization was aimed at an eventual invasion of Nazi Germany The Soviets were quietly biding their time between 1939 and 1941 allowing the capitalist powers to destroy one another all the while preparing for their own Westward march Stalin Weeks shows wasn't waiting for a Nazi attack Hitler simply beat him to the

punch **The Grand Strategy that Won the Cold War** Douglas E. Streusand, Norman A. Bailey, Francis H. Marlo, 2017-07-15 This book demonstrates that under the leadership of President Ronald Reagan and through the mechanism of his National Security Council staff the United States developed and executed a comprehensive grand strategy involving the coordinated use of the diplomatic informational military and economic instruments of national power and that grand strategy led to the collapse of the Soviet Union In doing so it refutes three orthodoxies that Reagan and his administration deserve little credit for the end of the Cold War with most of credit going to Mikhail Gorbachev that Reagan s management of the National Security Council staff was singularly inept and that the United States is incapable of generating and implementing a grand strategy that employs all the instruments of national power and coordinates the work of all executive agencies The Reagan years were hardly a time of interagency concord but the National Security Council staff managed the successful implementation of its program nonetheless *Grand Strategies in War and Peace* Paul M. Kennedy, 1991-01-01 Examines how the US the Soviet Union and various European powers have developed their grand Strategies how they have integrated their political economic and military goals in order to preserve their long term interests in times of war and peace
