I, Citizen Tony Woodlief, 2021-12-07 This is a story of hope but also of peril It began when our nation s polarized political class started conscripting everyday citizens into its culture war From their commanding heights in political parties media academia and government these partisans have attacked one another for years but increasingly they ve convinced everyday Americans to join the fray Why should we feel such animosity toward our fellow citizens our neighbors even our own kin Because we ve fallen for the false narrative eagerly promoted by pundits on the Left and the Right that citizens who happen to vote Democrat or Republican are enthusiastic supporters of Team Blue or Team Red Aside from a minority of party activists and partisans however most voters are simply trying to choose the lesser of two evils The real threat to our union isn t Red vs Blue America it s the quiet collusion within our nation s political class to take away that most American of freedoms our right to self governance Even as partisans work overtime to divide Americans against one another they ve erected a system under which we ordinary citizens don t have a voice in the decisions that affect our lives From foreign wars to how local libraries are run authority no longer resides with We the People but amongst unaccountable officials The political class has stolen our birthright and set us at one another s throats This is the story of how that happened and what we can do about it America stands at a precipice but there s still time to reclaim authority over our lives and communities
