The Great Ideas Today 197:

The Great Ideas Today, 1973, 1973 A Great Idea at the Time Alex Beam, 2008-11-04 Today the classics of the western canon written by the proverbial dead white men are cannon fodder in the culture wars But in the 1950s and 1960s they were a pop culture phenomenon The Great Books of Western Civilization fifty four volumes chosen by intellectuals at the University of Chicago began as an educational movement and evolved into a successful marketing idea Why did a million American households buy books by Hippocrates and Nicomachus from door to door salesmen And how and why did the great books fall out of fashion In A Great Idea at the Time Alex Beam explores the Great Books mania in an entertaining and strangely poignant portrait of American popular culture on the threshold of the television age Populated with memorable characters A Great Idea at the Time will leave readers asking themselves Have I read Lucretius's *De Rerum Natura* lately If not why not Resisting Postmodern Architecture Stylianos Giamarellos, 2022-01-10 Since its first appearance in 1981 critical regionalism has enjoyed a celebrated worldwide reception The 1990s increased its pertinence as an architectural theory that defends the cultural identity of a place resisting the homogenising onslaught of globalisation Today its main principles such as acknowledging the climate history materials culture and topography of a specific place are integrated in architects education across the globe But at the same time the richer cross cultural history of critical regionalism has been reduced to schematic juxtapositions of the global with the local Retrieving both the globalising branches and the overlooked cross cultural roots of critical regionalism Resisting Postmodern Architecture resituates critical regionalism within the wider framework of debates around postmodern architecture the diverse contexts from which it emerged and the cultural media complex that conditioned its reception In so doing it explores the intersection of three areas of growing historical and theoretical interest postmodernism critical regionalism and globalisation Based on more than 50 interviews and previously unpublished archival material from six countries the book transgresses existing barriers to integrate sources in other languages into anglophone architectural scholarship In so doing it shows how the periphery was not just a passive recipient but also an active generator of architectural theory and practice Stylianos Giamarellos challenges long held central notions of supposedly international discourses of the recent past and outlines critical regionalism as an unfinished project apposite for the 21st century on the fronts of architectural theory history and historiography **Of Men and Manners** Anthony Quinton, Anthony Kenny, 2011-11-17 This is a collection of elegant and learned writings by the late Lord Quinton one of the most prominent men of letters of the late twentieth century The first part ranges over the last 400 years of intellectual history in the second he discusses freedom morality politics language culture and the relation between humans and animals
