The Grand Design E. Douglas Clark, 1992 Religious Myths and Visions of America Christopher Buck, 2009-04-30 At the heart of American studies is the idea of America itself Here Buck looks at the religious significance of America by examining those religions that have attached some kind of spiritual meaning to America The author explores how American Protestantism and nine minority faiths have projected America into the mainstream of world history by defining and by redefining America s world role Surveying the religious myths and visions of America of ten religions Buck shows how minority faiths have redefined America s sense of national purpose This book invites serious reflection on what it means to be an American particularly from a religious perspective Religious myths of America are thought orienting narratives that serve as vehicles of spiritual and social truths about the United States itself Religious visions of America are action oriented agendas that articulate the goals to which America should aspire and the role it should play in the community of nations Buck examines the distinctive perspectives held by ten religious traditions that inform and expand on the notion of America and its place in the world He covers Native American Protestant Catholic Jewish Mormon Christian Identity Black Muslim Islamic Buddhist and Baha i beliefs and invites serious reflection on what it means to be an American particularly from a religious perspective

PALESTINE The Promised Land of Canaan Fred Kohler Holbrook, 2015-02-09 Few modern political dilemmas have been more difficult to control and less comprehensible than dominance over Palestine Overtime various solutions have been proposed based on demographics economics nationalism prejudice and an unquenchable thirst for vengeance Fred Kohler Holbrook s Palestine Whose Homeland approaches this problem from a perspective founded remarkably not in zealotry or greed but in what he calls e information seeking e And like a logical man he begins at the beginning in Biblical times unraveling the intertwined stories of Abraham Sarah Hagar Ishmael Isaac Jacob Mohammed and Moses and their involvement in Palestine Mr Holbrook weaves his religious and historical study with dozens of citations from the Old and New Testament the Qu ran Jewish texts and various books of commentary If nothing else the reader will gain a heightened appreciation of the complex interweaving of the Jewish Muslim and Christian cultures to the vanished civilizations of the Babylonians and Egyptians Greeks and Romans and modern contenders notably the British imperialists the Zionists and the Islamics which have fought over and occupied the Holy Land for most of recorded Western history The author invokes more little known sources than the Church of Jesus Christ of Latter Day Saints and the Qu ran including Abrahamist volumes and the scriptures of the Church of which he is a member The result is an erudite well balanced and intriguing investigation of the endless strife that hangs over Palestine

Cultus Americanus Brent Gilchrist, 2006-01-01 Cultus Americanus applies a philosophical model of political culture as ideology religion and myth to a re consideration of America s liberal consensus to explain cultural diversity in America Author Brent Gilchrist engagingly depicts a political culture that is more complex and more cohesive than has been previously maintained that will be of great interest to scholars and students of American
