The Great Debates Kennedy Vs Nixon 1960:

The Great Debates Sidney Kraus, 1977 Lasswell's introduction which sets the stage by surveying the challenges which face the student of communications and political behavior as a result of the debates the articles explore the background circumstances and effects of the debates in great detail *The Great Debates* Sidney Kraus, 1962 The Great Debates Sidney Kraus, *TV Shapes Presidential Politics in the Kennedy-Nixon Debates* Michael Burgan, 2018-08 On point historical photographs combined with strong narration bring the story of the Nixon Kennedy presidential debates to life discussing how much effect seeing the debates had on the results of the election and how they changed presidential campaigning forevermore Readers will understand the significance behind this event through text and clips of the event itself via the Capstone 4D augmented reality app **Presidential Debate Negotiation from 1960 to 1988** John W. Self, 2016-12-20 Since their inception the presidential debates Americans have watched on television were carefully negotiated This book closely examines a previously unexamined type of political communication presidential debate negotiation While it has been widely known that all general election presidential debates since 1960 have been negotiated by the participating candidates no one has ever completed a systematic study of them In particular the 1960 1976 1980 1984 and 1988 negotiations were examined in detail For each of these election cycles a comprehensive narrative of what occurred during the pre debate negotiations was constructed based on primary source materials media accounts and other secondary sources Comparisons across election cycles were made in order to draw some conclusions about presidential debate negotiation Presidential debate negotiations are not just negotiations but rather also a form of political rhetoric for several different players The research concluded that there are five contexts in which presidential debate rhetoric occurs and the rhetoric is aimed at two audiences Within each context the functions and strategies of the rhetoric were discussed and explained from the perspective of the sponsor of the debate the candidates and their representatives as well as the media *Getting It Wrong* W. Joseph Campbell, 2017 Many of American journalism's best known and most cherished stories are exaggerated dubious or apocryphal They are media driven myths and they attribute to the news media and their practitioners far more power and influence than they truly exert In *Getting It Wrong* writer and scholar W Joseph Campbell confronts and dismantles prominent media driven myths describing how they can feed stereotypes distort understanding about the news media and deflect blame from policymakers Campbell debunks the notions that the Washington Post's Watergate reporting brought down Richard M Nixon's corrupt presidency that Walter Cronkite's characterization of the Vietnam War in 1968 shifted public opinion against the conflict and that William Randolph Hearst vowed to furnish the war against Spain in 1898 This expanded second edition includes a new preface and new chapters about the first Kennedy Nixon debate in 1960 the haunting Napalm Girl photograph of the Vietnam War and bogus quotations driven by the Internet and social media **The Great Debates** Sidney Kraus, 1979 By conservative estimate 55 per cent of the adult population watched or listened to all the

Kennedy Nixon television debates of 1960 80 per cent saw or heard at least one In this volume thirty experts in communications political analysis and opinion research address themselves to the questions raised by this unprecedented event Following Harold D Lasswell's introduction which sets the stage by surveying the challenges which face the student of communications and political behavior as a result of the debates the articles explore the background circumstances and effects of the debates in great detail

Nonverbal Communication in Political Debates John S. Seiter, Harry Weger Jr., 2020-09-30 Nonverbal Communication in Political Debates presents a framework for understanding and analyzing the multiple ways that nonverbal behavior functions in political debates In addition to addressing the ways in which politicians are presented and present themselves in debate broadcasts the framework considers a wide array of strategic objectives and unintended consequences of candidates nonverbal behaviors Along the way the book examines theory and research from both humanistic and social scientific approaches as well as an immense range of factors that influence how nonverbal behavior is enacted and portrayed Scholars of communication political science psychology and public relations will find this book particularly useful

Televised Presidential Debates and Public Policy Sidney Kraus, 2013-10-11 With this second edition Kraus continues his examination of formal presidential debates considering the experience of television in presidential elections reviewing what has been learned about televised debates and evaluating that knowledge in the context of the election process specifically and the political process generally He also examines the media and the role they occupy in presidential elections Because critics often refer to the Lincoln Douglas debates when reproaching presidential debates comparisons of the two are discussed throughout the book Much of the data and information for this accounting of televised presidential debates comes from the author's first hand experience as one who was involved with these debates as a participant observer on site at nearly all of the debates discussed Throughout these discussions emphasis is placed on the implications for public policy To suggest policy that will be accepted and adopted by politicians and the public is at best difficult Proposals for changes in public policy based on experience even when scientific data support those changes must be subjected to an assessment of the values and predispositions of the proponent These values and predispositions however may not necessarily inhibit the proponent's objectivity As such this review of television use in the presidential election process provides the context for examining televised debates

Televised Presidential Debates in a Changing Media Environment Edward A. Hinck, 2018-11-26 This two volume set examines recent presidential and vice presidential debates addresses how citizens make sense of these events in new media and considers whether the evolution of these forms of consumption is healthy for future presidential campaigns and for democracy The presidential debates of 2016 underscored how television highlights candidates and campaigns messages which provide fodder for citizens widespread use of new media to talk back to campaigns and other citizens Social media will continue to affect the way that campaign events like presidential debates are consumed by audiences and how they shape campaign outcomes This two volume study is one of the

first to examine the relationship between debates as televised events and events consumed by citizens through social media. It also assesses the town hall debate format from 1992 to 2016, uses the lens of civil dialogue to consider how citizens watch the debates, and considers the growing impact of new media commentary on candidate images that emerge in presidential and vice presidential debates. *Televised Presidential Debates in a Changing Media Environment* features contributions from leading political communication scholars that illuminate how presidential debates are transforming from events that are privately contemplated by citizens to events that are increasingly viewed and discussed by citizens through social media. The first volume focuses on traditional studies of debates as televised campaign events, and the second volume examines the changing audiences for debates as they become consumed and discussed by viewers outside the traditional channels of newspapers, cable news channels, and campaign messaging. Readers will contemplate questions of new forms, problems, and possibilities of political engagement that are resulting from citizens producing and consuming political messages in new media.
