The Great Fear Of 1789 Rural Panic In Revolutionary France:

The Great Fear of 1789 Georges Lefebvre, 1970 **The Great Fear of 1789** Georges Lefebvre, 1973 **The Great Fear of 1789; Rural Panic in Revolutionary France. Introd. by George Rude. Translated From the French by Joan White** Georges Lefebvre, 1973 **The Great Fear of 1789: rural panic in revolutionary France, introd** Georges Lefebvre, **The Oxford Handbook of the French Revolution** David Andress, 2015

The Oxford Handbook of the French Revolution brings together a sweeping range of expert and innovative contributions to offer engaging and thought provoking insights into the history and historiography of this epochal event. Each chapter presents the foremost summations of academic thinking on key topics along with stimulating and provocative interpretations and suggestions for future research directions. Placing core dimensions of the history of the French Revolution in their transnational and global contexts, the contributors demonstrate that revolutionary times demand close analysis of sometimes tiny groups of key political actors, whether the king and his ministers or the besieged leaders of the Jacobin republic, and attention to the deeply local politics of both rural and urban populations. Identities of class, gender, and ethnicity are interrogated, but so too are conceptions and practices linked to citizenship, community, order, security, and freedom, each in their way just as central to revolutionary experiences and equally amenable to critical analysis and reflection. This Handbook covers the structural and political contexts that build up to give new views on the classic question of the origins of revolution, the different dimensions of personal and social experience that illuminate the political moment of 1789 itself, the goals and dilemmas of the period of constitutional monarchy, the processes of destabilisation and ongoing conflict that ended that experiment, the key issues surrounding the emergence and experience of terror, and the short and long term legacies for both good and ill of the revolutionary trauma for France and for global politics.

Contesting the French Revolution Paul R. Hanson, 2009-02-17

Contesting the French Revolution provides an insightful overview of one of history's most significant events, as well as examining the most significant historiographical debates about this period. Explores the causes, events, and consequences of the French Revolution. Offers a stimulating analysis of the most controversial debates: Were the events of 1789 a social revolution or a political accident? Did they mark the rise of industrial capitalism or the birth of modern democracy? Was Napoleon Bonaparte an heir to the ideals of 1789 or a betrayer of the Revolution? Shows how historical interpretation of the French Revolution has been influenced by the changing political and social currents of the last 200 years, from the Russian Revolution to the fall of the Berlin Wall, and how historical study has shifted from a political focus to social and cultural approaches in more recent years.

The Peasantry in the French Revolution Peter Jones, 1988-10-13

The contention of Georges Lefebvre that the peasantry occupied center stage during the early years of the Revolution is vindicated with the support of fresh evidence culled from archives, unpublished theses, and other sources.

Revolutionary Europe, 1780-1850 Jonathan Sperber, 2014-06-11

Providing a continent-wide history, this major survey covers the key political events

of this turbulent period Jonathan Sperber also looks at lives of ordinary people and considers broad social and economic developments In particular he examines the relationships between the different revolutionary movements showing how the French Revolution of 1789 set patterns which recurred over the following sixty years

The Coming of the French Revolution Georges Lefebvre, 2005 The Coming of the French Revolution remains essential reading for anyone interested in the origins of this great turning point in the formation of the modern world First published in 1939 on the eve of the Second World War and suppressed by the Vichy government this classic work explains what happened in France in 1789 the first year of the French Revolution Georges Lefebvre wrote history from below a Marxist approach Here he places the peasantry at the center of his analysis emphasizing the class struggles in France and the significant role they played in the coming of the revolution Eloquently translated by the historian R R Palmer and featuring an introduction by Timothy Tackett that provides a concise intellectual biography of Lefebvre and a critical appraisal of the book this Princeton Classics edition continues to offer fresh insights into democracy dictatorship and insurrection

Nineteenth-Century Europe Michael Rapport, 2018-08-11 A core introductory textbook that provides students with an overview of the key issues in Europe's long nineteenth century from the French Revolution in 1789 until the outbreak of the First World War in 1914 Telling the story of how Europeans entered politics in the fiery trials of revolution and industrialization the text opens with the French Revolution passes through the crucible of the 1848 Revolutions and ends with the emergence of mass movements socialist revolutionary nationalist and authoritarian which anticipated those of the twentieth century This is an ideal text for modules on Modern European History or Nineteenth Century Europe which may be offered at all levels of an undergraduate History or European Studies degree In addition it is a crucial resource for students who may be studying nineteenth century Europe for the first time as part of a taught postgraduate degree in Modern History or European Studies
