The Great Ideas Today 1969 Robert Maynard Hutchins, 1969 **Great Ideas Today** ,1980 **Noam Chomsky**
Carlos Peregrín Otero, 1994 2 volumes **Great Ideas Today** ,1961 The Great Transformation in Higher Education, 1960-1980 Clark Kerr, 1991-01-01 Clark Kerr former President of the University of California and a leader in higher education policymaking offers his views of the turbulent decades when colleges and universities scrambled to provide faculty and facilities for the burgeoning student population only to be faced later with economic depression and subsequent conservatism. From his unique vantage point Kerr offers insights into the role of higher education its performance under pressure its changing climate its efforts to serve the multiplicity of demands made upon it and its success or failure in meeting those demands **Adult Subject Catalog** Orange County Public Library (Calif.), 1971 **How to Think About God** Mortimer J. Adler, 1991-07-16 Dr Adler extends and modernizes the argument for the existence of God developed by Aristotle and Aquinas without relying on faith mysticism or science. Instead he uses a rationalist argument to lead the reader to a point where he or she can see that the existence of God is not necessarily dependent upon a suspension of disbelief. Title *Romances with Schools* John I. Goodlad, 2016-07-18 John I Goodlad has been an unflagging voice for humanistic ideals in education for more than six decades and has helped reframe the modern discourse on the role and function of schools. For Goodlad the goal of public education is to help children become free and full participants in a democratic society by instilling them with a love of learning and a sense of civic responsibility goals that are incompatible with our present system of schooling that teaches to standardized tests. In *Romances with Schools* John Goodlad steps out from behind the public persona of distinguished scholar and advocate for public schooling to offer a moving personal account of a life devoted to educating the young. He deftly interweaves fascinating personal details with reflections on many of the larger issues in education that he has explored throughout his career. John's early encounters with formal schooling began just before the Great Depression in Canada with the humble North Star School. From there we are taken through sixty plus years in education starting with John's first teaching job as the sole instructor of a one room schoolhouse through his years as an education activist dean of the UCLA Graduate School of Education and national voice for educational renewal. Along the way he treats us to vivid characterizations of the men women and above all children who shaped him as a person and inspired his thinking on education. *Romances with Schools* is both a poignant memoir and a persuasive argument for the need to renew public education to fit the demands of a free society. Stephen Goodlad John's son has written a moving Prologue to the book that provides behind the scenes insight into John's life. An Epilogue by Roger Soder a long time colleague places John's work of school renewal in the context of political change **Noam Chomsky** ,1986-01-01 The impetus for producing a bibliography of Noam Chomsky's output so far derives from a strong interest in and commitment to a historical accounting of the contribution to the field of linguistic theory and possibly other subjects such as philosophy and political science by a man

who has dominated linguistics for more than a generation at least in North America This bibliography lists his writings in linguistics and related fields his writings on political issues and other non linguistic subjects and interview and discussions with Noam Chomsky **Rebellion in the University** Seymour Martin Lipset, Political activity and student unrest have been recurring phenomena in American universities even after they reached their apogee in the 1960s In *Rebellion in the University* Seymour Martin Lipset reviews that turbulent period and places it in a larger historical perspective He analyzes the source of student activism the roles played by the faculty the spectrum of campus political opinion and the history of American campus protest Two decades after this book was first written the academic community is once more sharply divided over issues of political correctness The term refers to the efforts by campus advocates of leftist politics to control the content of speech courses and appointments and to impose their views with respect to multiculturalism minority rights and feminism Lipset s new introduction is a major effort to account for this new wave of repressive moralism to explain the issues involved to locate sources of support and opposition and to voice a judgment about the current situation in the American academic community
