

JAPANESE EXPANSION IN THE LATE 19TH AND 20TH CENTURIES

Sino Japanese Axis

Jessica J Manson

Sino Japanese Axis:

The Sino-Japanese Axis Robert Taylor, 2013-12-17 The book sets out to examine Sino Japanese relations especially since the re establishment of diplomatic ties between China and Japan in 1972 Post war political economic and cultural relations are placed in their historical context and the modernization processes in each country are compared First published in 1985 this title is part of the Bloomsbury Academic Collections series *The Sino-Japanese Axis* Robert Taylor, 1985

Interpreting History in Sino-Japanese Relations Caroline Rose, 2005-08-04 The first book length study to examine the re writing of school textbooks by the Japanese Education Ministry in an attempt to play down atrocities in China during World War II The famous textbook crisis in 1982 was at the centre of a diplomatic storm extending through the 1980s as Sino Japanese relations were beset by a series of political controversies This fascinating account of the period reveals that Chinese and Japanese policy makers were more concerned with changes taking place in international and domestic politics than with adopting a correct view of history

Japan's Relations With China Peng Er Lam, 2006-04-18 The essays in this collection examine Sino Japanese political relations given the phenomenon of a rising China and a stagnating Japan Questioning whether their relationship is one of cooperation or conflict the book reviews China and Japan s bilateral ties to see whether they have deepened and broadened despite differences in outlook national interest and political systems Adding a new perspective to the Sino Japanese political relations discussion the book looks beyond the interactions of central governments to examine the role of NGOs local governments and sub regional linkages The contributors adopt a range of analytical approaches and explore case studies including the Taiwan issue Japanese Official Development Policy towards China and joint fishery management in the East China Sea With perspectives from the US Russia and Malaysia the book yields new insights into this complex and multifaceted relationship and is a welcome addition to the current literature **A Decade of**

Sino-Japanese Relations, 1978-1988 Choan-young Chang, 1990 Northeast Asian Regionalism Christopher M. Dent, David W. F. Huang, 2002 This examination of developments in North East Asian regionalism looks at security international relations international political economy and politics together with historical social and cultural factors

Inside China's Grand Strategy Ye Zicheng, 2011-01-01 China s enormous size vast population abundant natural resources robust economy and modern military demonstrate that the nation has emerged as a great world power Inside China s Grand Strategy The Perspective from the People s Republic analyzes China s economic social political and military development assessing the extent of China s dominance Highly regarded Chinese scholar Ye Zicheng offers a rare insider s perspective on the country s geopolitical ambitions and strategic thinking Inside China s Grand Strategy argues that China s primary obstacle to achieving enduring status as a world power is its domestic state of affairs Ye examines the impact of unemployment corruption massive economic gaps between classes population size strains on natural and labor resources environmental degradation and other issues that impede China s continuing development Some analysts claim that

repressive domestic policies threaten the country's goal of modernization but Ye points to China's recent inclusion in the G 20 as an indicator of future success. Ye contends that China's progress hinges on many factors: peaceful development, extensive governmental reform with a system of checks and balances, social and economic development on the mainland, and strategies for reunification, especially with Taiwan. Ye asserts that military pressure may be required to integrate Taiwanese separatist forces but advises that development should remain China's primary goal because it will eventually lead to unification. Although Ye argues that democracy is the only way to repair the corrupt systems that perpetuate economic inequality, he specifies that a Western style democracy is not what China needs. As the United States' destiny is increasingly bound to China's growth and American policies are being evaluated in the realm of geopolitics, it is important to gauge and understand China's ambitions. An authoritative and up-to-date analysis from within Chinese society, *Inside China's Grand Strategy* is an indispensable resource for Western scholars offering a new window on Chinese development.

Sino-Japanese Relations Niklas Swanström, 2013 Sino-Japanese relations have been on the mend since Shinzo Abe assumed the Japanese Prime Minister's office in September 2006. His visit to China in October 2006 and the reciprocal visits of Chinese Prime Minister Wen Jiabao in April 2007 and President Hu Jintao in May 2008 facilitated the further thawing of bilateral relations under the framework of a mutually beneficial relationship based on common strategic interests. A substantial number of additional events have indicated the continuation of the positive trend in the strengthening of the bilateral relations. However, several issues continue to obstruct the building of long-term confidence between the two Asian giants. Despite the overall improved relations, there is very little structural thinking about how to move the Sino-Japanese relations to the next level and how to institutionalize security dialogues at the regional and international level. This book provides an overview of the current situation and also gives suggestions on what is needed to move beyond the haphazard level of cooperation in Northeast Asia, especially as the six-party talks seem to have broken down. It focuses on Chinese and Japanese perceptions of the bilateral situation and the potential of and need for multilateral structures in managing the future.

Area Bibliography of Japan Ria Koopmans-de Bruijn, 1998 Provides a general overview of literature relating to Japan and covers a broad range of subject matter from art, feminism, and linguistics to corporate culture, history, and medicine. Includes books published since 1980 that are related to the geographical area of Japan and to Japanese culture within that area.

Asia-Pacific Security Dynamics S. Mahmud Ali, 2025-01-22 This book examines the causes and consequences of the dramatic shift in Japanese national security perspectives and mutually exclusive policies toward China and the USA. It sheds new light on the changing trajectories of triadic dynamics shaping U.S.-China-Japan strategic insecurity, their historical roots, their implications for trans-Pacific peace and stability, and their potential influence on emerging regional and systemic security architectures. Against the backdrop of U.S. proclaimed great power competition with China as the defining feature and organizing principle of the U.S.-led coalition's strategic and geopolitical responses to China's national rejuvenation with

primacy's displacement anxiety triggering a systemic transitional fluidity the book examines the origins and outcomes of Sino-Japanese insecurity its polarizing effects on U S China and U S Japan relations and the wider systemic resonances and dissonances as the post Cold War unipolar systemic structure gives way to an uncertain ambiguous and imprecise successor regime Finally historical lessons drawn from primary documents are used to illuminate the prospects for triangular relations in shaping the Asia Pacific security ecology over the medium term

Reviewing **Sino Japanese Axis**: Unlocking the Spellbinding Force of Linguistics
