Sir Albert Richardson The Professor:

The Collection of Professor Sir Albert Richardson, P.R.A. Christie's, 2013 **Sir Albert Richardson** Simon Houfe, 1980 **The Collections of Professor Sir Albert Richardson, P.R.A. Removed from Avenue House, Ampthill, Bedfordshire** Christie, Manson & Woods, 2013 **Good Manners in Architecture** Wye College, 1957 *Monumental Classic Architecture in Great Britain and Ireland* Albert E. Richardson, 2001-01-01 Detailed text and illustrations examine the buildings of the great neoclassical period 1730-1875. The roster of masterpieces pictured and described include The Customs House Dublin, The Bank of England Liverpool, Newgate Prison London, The British Museum London, The National Gallery Edinburgh, The Fitzwilliam Museum Cambridge and many more. 176 black and white illustrations. [The World of UCL](#) Negley Harte, John North, Georgina Brewis, 2018-05-21 From its foundation in 1826, UCL embraced a progressive and pioneering spirit. It was the first university in England to admit students regardless of religion and made higher education affordable and accessible to a much broader section of society. It was also effectively the first university to welcome women on equal terms with men. From the outset, UCL showed a commitment to innovative ideas and new methods of teaching and research. This book charts the history of UCL from 1826 through to the present day, highlighting its many contributions to society in Britain and around the world. It covers the expansion of the university through the growth in student numbers and institutional mergers. It documents shifts in governance throughout the years and the changing social and economic context in which UCL operated, including challenging periods of reconstruction after two World Wars. Today, UCL is one of the powerhouses of research and teaching and a truly global university. It is currently seventh in the QS World University Rankings. This completely revised and updated edition features a new chapter based on interviews with key individuals at UCL. It comes at a time of ambitious development for UCL with the establishment of an entirely new campus in East London. UCL East and Provost Michael Arthur's UCL 2034 strategy, which aims to secure the university's long-term future and commits UCL to delivering global impact. **Where Mortal and Immortal Meet** Andrew G. Ralston, 2021-10-26 Glasgow's thirteenth-century cathedral is the city's oldest building and one of Scotland's top tourist destinations. The cathedral remains an active congregation of the Church of Scotland and serves as the focus for many events of national significance. It is, however, many years since a comprehensive overview of the cathedral's history has been published. The standard work, *The Book of Glasgow Cathedral*, was compiled more than 120 years ago by George Eyre Todd. Since then, the interior of the building has been completely transformed, thanks largely to the efforts of the Society of Friends of Glasgow Cathedral, founded in 1936 by the Rev A. Neville Davidson, with the aims of adorning and beautifying the building and encouraging research into its history. To mark the eighty-fifth anniversary of the society, this new book traces the story of its achievements and presents the fruits of scholarship undertaken during recent decades, combining essays and lectures on the history of Glasgow Cathedral by eminent historians of the past with new and hitherto unpublished research. *Where Mortal and*

Immortal Meet will be an invaluable resource for future generations of historians and for all those who have a love for one of Scotland's most significant architectural treasures Directory of British Architects, 1834-1914 Antonia Brodie, British Architectural Library, Royal Institute of British Architects, 2001-12-20 A comprehensive biographical directory of some 11 000 British architects who worked between 1834 and 1914 Down Cathedral J. Fred Rankin, 1997 Down Cathedral is one of the two oldest ecclesiastical foundations in Ulster still in use Although the present structure dates from the early 13th century it is known that there had been a monastery and place of worship on the Hill of Down for many centuries before then This book describes and illustrates the history of the Hill of Down from those earliest times to the present day The relationship of St Patrick with the Hill is narrated and takes careful account of the latest research some of it controversial on the association of the island's patron saint with the Hill on which he is thought to be buried The intriguing early and middle history of the Cathedral including the building of the Benedictine monastery the bishops and priors who ruled over it and its destruction at the dissolution of the monasteries in the middle of the 16th century is told in clear and absorbing detail Its subsequent restoration to full glory from the 1790s largely due to the influence of the Downshire family marks the beginning of the modern period for this much loved building The story is brought right up to date with the recent appointment of a New Bishop and a new Dean Important new sources in the State Papers and in archiepiscopal registers that have only recently become accessible have been used in the telling of this fascinating study Many of the images in this work are published for the first time and include photographs of irreplaceable artifacts uncovered during the significant archaeological excavations of the last few years The outcome is a comprehensive pioneering and beautifully illustrated account of one of Ireland's most treasured historical locations written with authority and affection by one of the country's most accomplished and respected ecclesiastical historians **Lessons from Disaster** Trevor A. Kletz, 1993 It is by avoiding accidents that the process industries will improve their public image Lessons from Disaster focuses upon the apparent inability of organizations to learn and retain in long term the lessons drawn from accidents Incidents of a similar type continue to occur within companies repeatedly Trevor Kletz illustrates this with detailed cases which form a gold mine of experience and advice for every engineer He offers with his customary vision and imagination his own advice on how to improve the corporate memory
