The Golden Book Magazine , 1929 **The Status of Student Involvement in University Governance in Kenya** M. Mulinge, N. Arasa, 2017-05-05 This book examines the concept of the democratization of governance in universities in Kenya with particular emphasis on students involvement in governance processes and decision making Data were collected from members of the student community utilizing a structured self administered questionnaire and from purposively selected key informants and focus group discussants drawn from Kenyatta University representing the public sector and the United States International University representing the private sector The guiding argument for the study was that shared governance one of the principles of good governance is critical in enabling the universities to deliver their visions and the missions effectively The results revealed that while in principle Kenyan universities have embraced democratic governance in which all stakeholders including students have a role to play in practice they continue to violate the core principles of good governance particularly shared governance Specifically students who are major stakeholders in university education are largely excluded from significant structures of governance thereby limiting their influence and participation Although their representation is mainly provided via student self governance organs unions associations and or councils their effectiveness is undermined considerably by the lack of trust and confidence of the student body and the unending manipulation by top university administrators and external political actors Student active involvement in decision making is mainly confined to lower levels such as the school faculty and departmental programme The authors call for a paradigm shift in the involvement of students in the governance of universities in ways that discourage the current culture of tokenism and political correctness that characterizes public and private universities in Kenya **UGC NET library Science unit 6 book with 400 question**

It is a summary of the research presented at the 6th International Conference on Renewable Energy Sources ICoRES19, which took place in Krynica, Poland, in June 2019. This event is the most recognizable scientific meeting connected to RES in Poland. From the very beginning, this conference has been a unique occasion for gathering Polish and international researchers' perspectives on renewable energy sources and balancing them against governmental policy considerations. Accordingly, the conference has also offered panels to discuss best practices and solutions with local entrepreneurs and federal government bodies. The meeting attracts not only scientists but also industry representatives as well as local and federal government personnel. We are open to new and fresh ideas concerning renewable energy, which is why so many scientists from Central and Eastern Europe visit Krynica to discuss the Green Future of this region. In 2019, the conference was organized by the University of Agriculture in Krakow in cooperation with the AGH University of Science and Technology Krakow, the State Agrarian and Engineering University in Podilya, the University of Ilinia, the International Commission of Agricultural and Biosystems Engineering CIGR, and the Polish Society of Agricultural Engineering. Honorary auspices were made by the Ministry of Science and Higher Education of the Republic of Poland, the rector of the University of Agriculture in Krakow, the rector of the AGH University of Science and Technology, and the rector of the State Agrarian and Engineering University in Podilya.
