Siwah Oasis:

Siwa Sir Charles Dalrymple Belgrave,1923 **Seawater Intrusion in Coastal Aquifers** ,1997-01-01 **Siwa Oasis**
Ahmed Fakhry,1944 **Enchanted Jewelry Of Egypt : The Traditional Art and Craft** Azza Fahmy,2007 The story of
jewelry in modern Egypt from the end of the nineteenth century to the fusion of modern and traditional **Siwa Oasis**
Ahmed Fakhry,1944 Siwa Margaret M. Vale,2015-01-01 Siwa is a remote oasis deep in the heart of the Egyptian desert
near the border with Libya Until an asphalt road was built to the Mediterranean coast in the 1980s its only links to the
outside world were by arduous camel tracks As a result of this isolation Siwa developed a unique culture manifested in its
crafts of basketry pottery and embroidery and in its styles of costume and silverwork The most visible and celebrated
example of this was the silver jewelery that was worn by women in abundance at weddings and other ceremonies Based on
conversations with women and men in the oasis and with reference to old texts this book describes the jewelery and costume
at this highpoint of Siwan culture against the backdrop of its date gardens and springs social life and dramatic history It
places the women s jewelery costume and embroidery into social perspective and describes how they were used in
ceremonies and everyday life and how they were related to their beliefs and attitudes to the world The book also describes
how in the second half of the twentieth century the arrival of the road and of television brought drastic change and the oasis
was exposed to the styles and fashions of the outside world and how the traditional silver ornaments were gradually replaced
by gold **Groundwater in Egypt's Deserts** Abdelazim Negm,Ahmed Elkhoully,2021-07-23 This book brings together
contributions from groundwater researchers and scientists on underground water resources in Egypt s deserts The aquifers
quantity and quality are evaluated in many regions of the Egyptian deserts using established methods that can be effectively
employed to investigate the potential for sustainable development in Egypt and similarly arid countries The water resources
in Egypt s deserts are subject to deterioration mainly by land salinization and water deficiency This book presents the best
management practices water quantity and quality and optimal and sustainable usage of available groundwater The book
offers a unique guide for all readers interested in groundwater modeling and assessment for sustainable development in
Egypt and countries with similar weather and water conditions *The Vegetation of Egypt* M.A. Zahran,A.J.
Willis,2008-11-23 This book is an attempt to compile and integrate the information documented by many botanists both
Egyptians and others about the vegetation of Egypt The rst treatise on the ora of Egypt by Petrus Forsskal was published in
1775 Records of the Egyptian ora made during the Napoleonic expedition to Egypt 1778 1801 were provided by A R Delile
from 1809 to 1812 Kassas 1981 The early beginning of ecological studies of the vegetation of Egypt extended to the mid
nineteenth century Two traditions may be recognized The rst was general exploration and survey for which one name is
symbolic Georges Auguste Schweinfurth 1836 1925 a German scientist and explorer who lived in Egypt from 1863 to 1914
The second tradition was ecophysiological to explain the plant life in the dry desert The work of G Volken 1887 remains a

classic on xerophism. These two traditions were maintained and expanded in further phases of ecological development associated with the establishment of the Egyptian University in 1925, now the University of Cairo. The first professor of botany was the Swedish Gunnar Tackholm (1925–1929). He died young and his wife Vivi Tackholm devoted her life to studying the flora of Egypt and gave leadership and inspiration to plant taxonomists and plant ecologists in Egypt for some 50 years. She died in 1978. The second professor of botany in Egypt was F. W. Visualizing the Afterlife in the Tombs of Graeco-Roman Egypt Marjorie Susan Venit, 2016. This book explores the visual narratives of a group of decorated tombs from Ptolemaic and Roman Egypt (c. 300 BCE–250 CE). The author contextualizes the tombs within their social, political, and religious context and considers how the multicultural population of Graeco-Roman Egypt chose to negotiate death and the afterlife. **The Mediterranean Medina** AA. VV., 2016-01-03T00:00:00+01:00. This volume collects the proceedings of the International Seminar The Mediterranean Medina that took place in the School of Architecture at Pescara from 17th to 19th of June 2004.
