variables within the strategist's plan but victory is a concept that has no meaning there. To the tactical and operational planner wars are indeed won and lost and the difference is plain. Success is measurable, failure is obvious. In contrast, the pure strategist understands that war is but one aspect of social and political competition, an ongoing interaction that has no finality. Strategy therefore connects the conduct of war with the intent of politics. It shapes and guides military means in anticipation of a panoply of possible coming events. In the process, strategy changes the context within which events will happen. In this new book, we see clearly that the goal of strategy is not to culminate events to establish finality in the discourse between states but to continue them to influence state discourse in such a way that it will go forward on favorable terms. For continue it will. This book will provoke debate and stimulate new thinking across the field and strategic studies.

War Over Kosovo Andrew J. Bacevich, Eliot A. Cohen, 2002-01-02. More than any other episode since the end of the Cold War, the conflict in Kosovo revealed the distinctive attributes of a new American way of war. In so doing, Kosovo also brought into sharp focus the military, political, and moral dilemmas confronting a liberal democracy intent on wielding preeminent power on a global scale. What are the moral implications posed by waging high-tech warfare for humanitarian purposes? Does the precedent set by intervention of this type point toward peace and stability or toward more war? How well suited are the United States military and American society as a whole to the security challenges of the age of globalization? According to Bacevich and Cohen, gauging the success achieved in Kosovo yields important answers to these and related questions. The volume includes a well-crafted historical overview of the war and six essays that place it in a broader context. The contributors explore the conflict's relationship to U.S. grand strategy, the Revolution in Military Affairs, and American civil-military relations among other topics. Contributors: William A. Arkin, Andrew J. Bacevich, Eliot A. Cohen, Alberto R. Coll, James Kurth, Anatol Lieven, Michael Vickers. **Modernisation of the PLA** Jiti S. Bajwa, 2002. The author has not only traced the history of the People's Liberation Army (PLA) but also that of the People's Republic of China (PRC) during its formative years. More interestingly, the author probes the ethos and psyche of the Chinese leadership past and present. He explains how deeply the philosophy of war and statecraft as propounded by Sun Tzu is ingrained and embedded even in modern China. *Illinois Education*, 1923.
