George Santayana,1923 *Scepticism and Animal Faith* George Santayana,2017-10-19 Excerpt from Scepticism and Animal Faith Introduction to a System of Philosophy Moreover my system save in the mocking literary sense of the word is not metaphysical It contains much criticism of metaphysics and some refinements in speculation like the doctrine of essence which are not familiar to the public and I do not disclaim being metaphysical because I at all dislike dialectic or disdain immaterial things indeed it is of im material things essence truth and spirit that I speak chie y But logic and mathematics and literary psychology when frankly literary are not meta physical although their subject matter is immaterial and their

application to existing things is often questionable Metaphysics in the proper sense of the word is dialectical physics or an attempt to determine matters of fact by means of logical or moral or rhetorical constructions It arises by a confusion of those Realms of Being which it is my special care to distinguish It is neither physical speculation nor pure logic nor honest literature but as in the treatise of Aristotle first called by that name a hybrid of the three materialising ideally entities turning harmonies into forces and dissolving natural things into terms of discourse Speculations about the natural world such as those of the Ionian philosophers are not metaphysics but simply cosmology or natural philosophy Now in natural philosophy I am a decided materialist apparently the only one living and I am well aware that idealists are fond of calling materialism too metaphysics in rather an angry tone so as to cast discredit upon it by assimilating it to their own systems But my materialism for all that is not metaphysical I do not profess to know what matter is in itself and feel no confidence in the divination of those esprits forts who leading a life of vice thought the universe must be composed of nothing but diceviii scepticism and animal faith About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
