*Discerning Critical Hope in Educational Practices* Vivienne Bozalek, Brenda Leibowitz, Ronelle Carolissen, Megan Boler, 2013-12-04 How can discerning critical hope enable us to develop innovative forms of teaching learning and social practices that begin to address issues of marginalization privilege and access across different contexts At this millennial point in history questions of cynicism despair and hope arise at every turn especially within areas of research into social justice and the struggle for transformation in education While a sense of fatalism and despair is easily recognizable establishing compelling bases for hope is more difficult This book addresses the absence of sustained analyses of hope that simultaneously recognize the hard edges of why we despair The volume posits the notion of critical hope not only as conceptual and theoretical but also as an action oriented response to despair Our notion of critical hope is used in two ways it is used firstly as a unitary concept which cannot be disaggregated into either hopefulness or criticality and secondly as an analytical concept where critical hope is engaged and diversely theorized in ways that recognize aspects of individual and collective directions of critical hope The book is divided into four sub sections Critical Hope in Education Critical Hope and a Critique of Neoliberalism Critical Race Theory Postcolonial Perspectives on Critical Hope Philosophical Overviews of Critical Hope Education can be a purveyor of critical hope but it also requires critical hope so that it as a sector itself can be transformative With contributions from international experts in the field the book will be of value to all academics and practitioners working in the field of education

**Between insecurity and hope** Maria Pisani, Tanya Basarab, Barbara Giovanna Bello, Sofia Laine, 2018-12-15 Youth work can offer a space for young refugees to express themselves and participate in society This Youth Knowledge book presents theoretical references and reflections on the experiences of young refugees and the way they reconcile personal hope with the tensions within their host societies It also explores learning from practices and their theoretical underpinnings concerning the role of youth work in a cross sectoral approach This book aims to be a reference for policy makers practitioners and researchers in the youth field and stakeholders from other sectors working on inclusion access to rights and the participation of young refugees All the contributors propose a very critical engagement with the reality of young refugees in today s Europe where tolerance levels for negative phenomena such as human rights violations hate speech and discrimination are on the rise However there is also an underlying message of hope for those willing to engage in a human rights based youth work practice that ensures safe

spaces for being young no matter who no matter where Practices and reflections deal with democracy activism participation formal and non formal education and learning employment trauma waitinghood and negotiating identities We hope this book as a whole and each individual contribution will inspire youth policy makers and practitioners to take on board the complex realities of unfinished transitions and borderland experiences and create a positive environment for an enriched and transformed youth work for the inclusion of young refugees in their host communities     *Democracy, Social Justice, and the American Community College* Patrick Sullivan, 2021-07-17 This book provides scholars educators and legislators with a personal classroom level tour of daily life at a community college Readers will accompany the author into the classroom as he goes about his work as an English teacher meeting with classes and corresponding with students on Blackboard and e mail Answering the call for student centered scholarship this book blends traditional academic writing with chapters that feature a rich variety of student work including essays journal entries poems art and responses to creative assignments In this volume Sullivan theorizes the modern community college as a social justice institution By mission and mandate the modern community college has democratized America s system of higher education and distributed hope equity and opportunity more broadly across the nation
