Sustainability Y K Cheung, Kwong Wing Chau, 2005-12-06 A collection of papers presented at the Sixth International Conference on Tall Buildings ICTB this volume clearly explains the engineering and socio economic aspects of tall buildings in specific areas of sustainability The papers focus on Asian cities where tall buildings have become a major feature of the built environment A multi disciplinary book it also deals with the increasing complexity of inter related problems that require knowledge integration from different disciplines With interesting contributions from distinguished practitioners academics and policy makers the book addresses the development and application of knowledge in solving problems related to tall buildings *Chicago Skyscrapers, 1934-1986* Thomas Leslie, 2023-06-20 From skyline defining icons to wonders of the world the second period of the Chicago skyscraper transformed the way Chicagoans lived and worked Thomas Leslie s comprehensive look at the modern skyscraper era views the skyscraper idea and the buildings themselves within the broad expanse of city history As construction emerged from the Great Depression structural mechanical and cladding innovations evolved while continuing to influence designs But the truly radical changes concerned the motivations that drove construction While profit remained key in the Loop developers elsewhere in Chicago worked with a Daley political regime that saw tall buildings as tools for a wholesale recasting of the city s appearance demography and economy Focusing on both the wider cityscape and specific buildings Leslie reveals skyscrapers to be the physical results of negotiations between motivating and mechanical causes Illustrated with more than 140 photographs *Chicago Skyscrapers 1934 1986* tells the fascinating stories of the people ideas negotiations decision making compromises and strategies that changed the history of architecture and one of its showcase cities *Space Structures 5* G. A. R. Parke, P. Disney, 2002 These Proceedings are based on the Fifth International Conference on Space Structures organised by the University of Surrey Produced as a 2 volume set they contain original and innovative information on space structures from leading engineers and architects from around the world Engineering Architecture Yasmin Sabina Khan, 2004 The structural engineer responsible for Chicago s John Hancock Center and Sears Tower Fazlur R Khan 1929 1982 pioneered structural systems for high rise design that broadened the palette of building forms and expressions available to design professionals today **Art of the Skyscraper** Mir M. Ali, 2001 This the first published book on the life and work of Fazlur Khan stands as a powerful testament to this revolutionary mind and to the technological advances it engendered Understanding Tall Buildings Kheir Al-Kodmany, 2017-02-17 In recent years the rapid pace of tall building construction has fostered a certain kind of placelessness with many new tall buildings being built out of scale context and place By analyzing hundreds of tall buildings and by providing hundreds of visuals that inspire stimulate and engage *Understanding Tall Buildings* contends that well

designed tall buildings can rejuvenate cities ignite economic activity support social life and boost city pride Although this book does not claim to possess all the solutions it does propose specific tall building design guidelines that may help to promote placemaking Through this work it is the author s hope that ill conceived developments will become less common in the future and that good placemaking will become the norm not the exception This book is a must read for students and practitioners working to create better tall buildings and better urban environments *The Tall Buildings Reference Book* David Parker, Antony Wood, 2013-04-12 As the ever changing skylines of cities all over the world show tall buildings are an increasingly important solution to accommodating growth more sustainably in today s urban areas Whether it is residential a workplace or mixed use the tower is both a statement of intent and the defining image for the new global city The Tall Buildings Reference Book addresses all the issues of building tall from the procurement stage through the design and construction process to new technologies and the building s contribution to the urban habitat A case study section highlights the latest the most innovative the greenest and the most inspirational tall buildings being constructed today A team of over fifty experts in all aspects of building tall have contributed to the making of the Tall Buildings Reference Book creating an unparalleled source of information and inspiration for architects engineers and developers *Distinguished Asian Americans* Chung H. Chuong, Dorothy Cordova, Robert H. Hyung Chan Kim, Steve Fugita, Franklin Ng, Jane Singh, 1999-12-30 Asian Americans have made significant contributions to American society This reference work celebrates the contributions of 166 distinguished Asian Americans Most people profiled are not featured in any other biographical collection of noted Asian Americans The Chinese Americans Japanese Americans Filipino Americans Korean Americans South Asian Americans from India and Pakistan and Southeast Asian Americans from Cambodia Laos and Vietnam profiled in this work represent more than 75 fields of endeavor From historical figures to figure skater Michelle Kwan this work features both prominent and less familiar individuals who have made significant contributions in their fields A number of the contemporary subjects have given exclusive interviews for this work All biographies have been written by experts in their ethnic fields Those profiled range widely from distinguished scientists and Nobel Prize winners to sports stars from actors to activists from politicians to business leaders from artists to literary luminaries All are role models for young men and women and many have overcome difficult odds to succeed These colorfully written substantive biographies detail their subjects goals struggles and commitments to success and to their ethnic communities More than 40 portraits accompany the biographies and each biography concludes with a list of suggested reading for further research Appendices organizing the biographies by ethnic group and profession make searching easy This is the most current biographical dictionary on Asian Americans and is ideal for student research
