Excerpt: Towns and villages have sprung up along the line of railroad and even those sections but remotely connected with the road have felt its wonderful influence. A spirit of enterprise has grown up in neighboring districts roads and turn pikes have been opened and vast stretches of country that might have remained primeval forests but for this great work of internal improvement have become productive and the inhabitants cultivated and refined. The extension of the road from Oentretion on the Lake Erie Division to Chicago gives the Baltimore and Ohio one continuous line of rail road from Baltimore to the Lake City of the West the granary where is received the exhaustless products of the fertile plains which stretch out through the northwest. Thus Baltimore is enabled to compete with the great cities of the East for a share of this immense trade. The extension of the road from Pittsburg to Centreton a mere question of time will give another direct route from Chicago to Baltimore. The scenery along the line of the Baltimore and Ohio Eailway is picturesque and beautiful but portions of the road merit special notice. Italy's Primacy in Musical History Guy Graybill, 2019-01-08 This remarkable revelatory reference work written in a conversational style that is witty and fast paced argues that the Italian people did more for the development and propagation of music than any other people in the world. The book is filled with supporting data that prove this claim showing that the first written music was an Italian creation and that the vocabulary of music is primarily Italian. It also notes that the primary instruments were either devised or thoroughly improved by the Italians the great musical forms including the opera ballet operetta and symphony and that the great body of musical geniuses who were the early composers musicians conductors and vocalists were Italian. The book eventually closes with a telling of the great musical story to come out of the Italian American communities.
