bundles have been inherited from eighteenth century Iroquois war parties handed down from generation to generation In this long awaited book William N Fenton describes the remarkable ceremonies of one of the least recorded but most significant medicine societies of the Iroquois Indians Most of the Senecas who were members of the Little Water Society or Society of Shamans have passed away and their knowledge of ceremonial healing and spiritual renewal is fading Fenton has written this book to preserve knowledge of the ceremonies and songs for the Iroquois people and as a contribution to anthropology folklore ethnomusicology and American Indian studies In The Little Water Medicine Society of the Senecas he presents his original 1933 fieldwork along with details from the published and unpublished works of other researchers to describe rituals poetry and songs drawn from his more than six decades of research among the Six Nations

Re-Membering History in Student and Teacher Learning Joyce E. King, Ellen E. Swartz, 2014-03-05 What kind of social studies knowledge can stimulate a critical and ethical dialog with the past and present Re Membering History in Student and Teacher Learning answers this question by explaining and illustrating a process of historical recovery that merges Afrocentric theory and principles of culturally informed curricular practice to reconnect multiple knowledge bases and experiences In the case studies presented K 12 practitioners teacher educators preservice teachers and parents use this praxis to produce and then study the use of democratized student texts they step outside of reproducing standard school experiences to engage in conscious inquiry about their shared present as a continuance of a shared past This volume exemplifies not only why instructional materials including most so called multicultural materials obstruct democratized knowledge but also takes the next step to construct and then study how re membered student texts can be used Case study

findings reveal improved student outcomes enhanced relationships between teachers and families and teachers and students and a closer connection for children and adults to their heritage

In Praise of the Ancestors Susan Elizabeth Ramirez, 2022-06

Apart from collective memories of lived experiences much of the modern world's historical sense comes from written sources stored in the archives of the world and some scholars in the not so distant past have described unlettered civilizations as peoples without history

In Praise of the Ancestors is a revisionist interpretation of early colonial accounts that reveal incongruities in accepted knowledge about three Native groups

Susan Elizabeth Ramirez reevaluates three case studies of oral traditions using positional inheritance a system in which names and titles are inherited from one generation by another and thereby contribute to the formation of collective memories and a group identity

Ramirez begins by examining positional inheritance and perpetual kinship among the Kazembes in central Africa from the eighteenth to the mid twentieth centuries

Next her analysis moves to the Native groups of the Iroquois Confederation and their practice of using names to memorialize remarkable leaders in the seventeenth and eighteenth centuries

Finally Ramirez surveys naming practices of the Andeans based on sixteenth century manuscript sources and later testimonies found in Spanish and Andean archives

questioning colonial narratives by documenting the use of this alternative system of memory perpetuation which was initially unrecognized by the Spaniards

In the process of reexamining the histories of Native peoples on three continents Ramirez broaches a wider issue namely understanding of the nature of knowledge as fundamental to understanding and evaluating the knowledge itself
