Beyond Chinatown Steven P. Erie, Harold David Brackman, 2006 Examines the history of the Metropolitan Water District of Southern California from its obscure 1920s era origins through the Colorado River Aqueduct and State Water Projects to today s daunting mission of drought management water quality environmental stewardship and post 9 11 supply security Simultaneous

How Local Politics Shape Federal Policy Sarah S. Elkind, 2011-08-15 Focusing on five Los Angeles environmental policy debates between 1920 and 1950 Sarah Elkind investigates how practices in American municipal government gave business groups political legitimacy at the local level as well as unanticipated influence over federal politics Los Angeles s struggles with oil drilling air pollution flooding and water and power supplies expose the clout business has had over government Revealing the huge disparities between big business groups and individual community members in power influence and the ability to participate in policy debates Elkind shows that business groups secured their political power by providing Los Angeles authorities with much needed services including studying emerging problems and framing public debates As a result government officials came to view business interests as the public interest When federal agencies looked to local powerbrokers for project ideas and political support local business interests influenced federal policy too Los Angeles with its many environmental problems and its dependence upon the federal government provides a distillation of national urban trends Elkind argues and is thus an ideal jumping off point for understanding environmental politics and the power of business in the middle of the twentieth century

Olympic Legacies: Intended and Unintended J A Mangan, Mark Dyreson, 2013-10-18 For more than a century the Olympics have been the modern world's most significant sporting event Indeed they deserve much credit for globalizing sport beyond the boundaries of the Anglo American universe where it originated into broader global realms By the 1930s the Olympics had become a global mega event that occupied the attention of the media the interest of the public and the energies of nation states Since then projected by television funded by global capital and fattened by the desires of nations to garner international prestige the Olympics have grown to gargantuan dimensions In the course of its epic history the Olympics have left numerous legacies from unforgettable feats to monumental stadiums from shining triumphs to searing tragedies from the dazzling debuts on the world's stage of new cities and nations to notorious campaigns of national propaganda The Olympics represent an essential component of modern global history The Olympic movement itself has since the 1990s recognized and sought to shape its numerous legacies with mixed success as this book makes clear It offers ground breaking analyses of the power of Olympic legacies positive and negative and surveys the subject from Athens in 1896 to Beijing in 2008 and indeed beyond This book was published as a special issue of the *International Journal of the History of Sport*

Land of Smoke and Mirrors Vincent Brook, 2013-01-22 Unlike the more forthrightly mythic origins of other urban centers think Rome via Romulus and Remus or Mexico City via the god Huitzilopochtli Los Angeles emerged from a smoke and mirrors process that is simultaneously literal and figurative real and imagined material and metaphorical physical and textual Through penetrating analysis and personal engagement Vincent Brook uncovers the many portraits of this ever enticing ever ambivalent and increasingly multicultural megalopolis Divided into sections that probe Los Angeles's checkered history and

reflect on Hollywood's own self-reflections the book shows how the city despite considerable remaining challenges is finally blowing away some of the smoke of its not always proud past and rhetorically adjusting its rear view mirrors Part I is a review of the city's history through the early 1900s focusing on the seminal 1884 novel *Ramona* and its immediate effect but also exploring its ongoing impact through interviews with present day Tongva Indians attendance at the 88th annual *Ramona* pageant and analysis of its feature film adaptations Brook deals with Hollywood as geographical site film production center and frame of mind in Part II He charts the events leading up to Hollywood's emergence as the world's movie capital and explores subsequent developments of the film industry from its golden age through the so called New Hollywood citing such self-reflexive films as *Sunset Blvd* *Singin in the Rain* and *The Truman Show* Part III considers LA noir a subset of film noir that emerged alongside the classical noir cycle in the 1940s and 1950s and continues today The city's status as a privileged noir site is analyzed in relation to its history and through discussions of such key LA noir novels and films as *Double Indemnity* *Chinatown* and *Crash* In Part IV Brook examines multicultural Los Angeles Using media texts as signposts he maps the history and contemporary situation of the city's major ethno-racial and other minority groups looking at such films as *Mi Familia* *Latinos* *Boyz n the Hood* *African Americans* *Charlotte* *Sometimes* *Asians* *Falling Down* *Whites* and *The Kids Are All Right* LGBT
