Patrick Dunn, 2015-08-08 The ancient world of Egypt Greece and Rome was home to a set of magical and spiritual technologies called theurgy that unite the practice of magic with the aims of religion Theurgy or godwork is the art of creating a stronger bond between the theurgist and his or her deities The results of this stronger bond were imminently practical stronger magic more meaningful existence and a better life With the fall of Rome these techniques faded into obscurity and many of them were lost forever This book revives restores and reinvents these practices for a contemporary pagan or magical practitioner A mixture of scholarly research and examination of source texts and daring experimentation and extrapolation leads to a complete and workable system that can inform a variety of practices all presented in a relaxed lighthearted and readable way Whether you practice witchcraft ceremonial magic or chaos magic you can benefit from the practice of theurgy You will learn techniques to create stronger bonds with divine forces call up and communicate with spiritual beings summon a magical assistant create statues imbued with divine spirit and master your own mind The ultimate goal is union with the divine but theurgy is a practical path and every step on that path is designed to improve your life

Dreams and dream stories, ed. by E. Maitland Anna Bonus Kingsford, 1888 **The Biology of Daily Life** John Henry Napper Nevill, 1890 *Magic, White and Black, Or, The Science of Finite and Infinite Life* Franz Hartmann, 1888 *Modern Magic: A Practical Treatise on the Art of Conjuring* Maximilian Schele de Vere, Professor Hoffmann, 2011-01-01 Among the various branches of the conjuror's art none will better repay the labour of the student whether artist or amateur than the magic of cards It has the especial advantage of being in a great measure independent of time and place The materials for half its mysteries are procurable at five minutes notice in every home circle and even in the case of those tricks for which specially prepared cards etc are requisite the necessary appliances cost little and are easily portable two virtues not too common in magical apparatus Further the majority of card tricks are dependent mainly on personal address and dexterity and as such will always be highly esteemed by connoisseurs in the art Before very large audiences indeed the spectators being at a distance from the performer much of the effect of a card trick is lost which is probably the reason that of late years tricks of this class with a few exceptions have been rather neglected by professors and that many feats which in the times of Conus and Comte were numbered among the sensations of the day are now almost entirely forgotten We shall endeavour in the following pages after explaining the principles of sleight of hand applicable to cards and giving instructions for some of the best of the more commonplace feats to revive the recollection and we hope the practice of some of these brilliant performances The Cards The adept in sleight of hand should accustom himself to the use of every description of cards as frequently none but the ordinary full sized playing cards may be available Where however the choice is open to him he should use in the actual performance of tricks cards of a smaller and thinner make The common French cards answer the purpose very well Among cards of English make some of the best for the purpose are the small cards of the French pattern made by De La Rue Co for use in France and those known as the Tankerville cards both imported by Peck Snyder 124 Nassau Street New York City which are thin well made and of small size but of the English pattern In any case it is well to use only the piquet pack of thirty two cards the twos threes fours fives and sixes being removed the complete whist pack being inconveniently bulky for sleight of hand purposes
