The Great Transition American Soviet Relations And The End Of The Cold War:

The Great Transition Raymond L. Garthoff, 1994 Raymond L. Garthoff examines the fateful final decade of U S Soviet relations from the start of the Reagan administration in 1981 through the end of the Soviet era the collapse of the communist bloc the end of Gorbachev's failed perestroika and the demise of the Soviet Union itself at the end of 1991 While standing on its own the book is a sequel to the author's earlier acclaimed *Détente and Confrontation American Soviet Relations from Nixon to Reagan* which covers the period 1969-1980 This volume features a detailed examination of the perspectives and actions of both the United States and the Soviet Union and their interaction including the interrelationships of domestic factors with foreign and security policies in both countries and the involvement of both powers with other countries around the world which infringed on their direct relationship Besides analyzing the turn from confrontation to détente over the years of the Reagan and Bush administrations and Brezhnev through the Gorbachev administration it reflects on the significance of the great transition from the cold war to a new era It thus illuminates the very relevant recent history that underlines and informs American Russian relations and the new situation of a post Soviet post cold war world Garthoff has obtained access to many formerly secret Soviet documents on this period in the Russian archives as well as to a number of official American documents that have only recently been declassified In addition he has been able to interview and discuss the issues with many active or former Soviet and American officials The author concludes that the key development was the advent of a Soviet leader Mikhail Gorbachev who recognized the need to cast off a failed world view and to end the cold war and who successfully moved with the United States under the Reagan and Bush administrations and others to achieve that goal notwithstanding his failure in the parallel attempt to revitalize and transform the Soviet Union Selected by Choice as an Outstanding Book of 1994

US Foreign Policy and the End of the Cold War in Africa Flavia Gasbarri, 2020-05-07 This book investigates the end of the Cold War in Africa and its impact on post Cold War US foreign policy in the continent The fall of the Berlin Wall is widely considered the end of the Cold War however it documents just one of the many ends since the Cold War was a global conflict This book looks at one of the most neglected extra European battlegrounds the African continent and explores how American foreign policy developed in this region between the late 1980s and the early 1990s Drawing on a wide range of recently disclosed documents the book shows that the Cold War in Africa ended in 1988 preceding the fall of the Berlin Wall It also reveals how since then some of the most controversial and inconsistent episodes of post Cold War US foreign policy in Africa have been deeply rooted in the unique process whereby American rivalry with the USSR found its end in the continent The book challenges the traditional narrative by presenting an original perspective on the study of the end of the Cold War and provides new insights into the

shaping of US foreign policy during the so called unipolar moment This book will be of much interest to students of Cold War history US foreign policy African politics and international relations *Visions of the End of the Cold War in Europe, 1945-1990* Frédéric Bozo, Marie-Pierre Rey, N. Piers Ludlow, Bernd Rother, 2012-03-01 Exploring the visions of the end of the Cold War that have been put forth since its inception until its actual ending this volume brings to the fore the reflections programmes and strategies that were intended to call into question the bipolar system and replace it with alternative approaches or concepts These visions were associated not only with prominent individuals organized groups and civil societies but were also connected to specific historical processes or events They ranged from actual thoroughly conceived programmes to more blurred utopian aspirations or simply the belief that the Cold War had already in effect come to an end Such visions reveal much about the contexts in which they were developed and shed light on crucial moments and phases of the Cold War *The Cold War* David Painter, 2002-03-11 The Cold War dominated international relations for forty five years It shaped the foreign policies of the United States and the Soviet Union and deeply affected their societies domestic situations and their government institutions Hardly any part of the world escaped its influence David Painter provides a compact and analytical study that examines the origins course and end of the Cold War His overview is global in perspective with an emphasis on the Third World as well as the contested regions of Asia and Central America and a strong consideration of economic issues He includes discussion of the global distribution of power the arms race the world economy The Cold War gives a concise original and interdisciplinary introduction to this international state of affairs covering the years between 1945 and 1990 **Soviet Leaders and Intelligence** Raymond L. Garthoff, 2015-08-15 During the Cold War the political leadership of the Soviet Union avidly sought intelligence about its main adversary the United States Although effective on an operational level Soviet leaders and their intelligence chiefs fell short when it came to analyzing intelligence Soviet leaders were often not receptive to intelligence that conflicted with their existing beliefs and analysts were reluctant to put forward assessments that challenged ideological orthodoxy There were however important changes over time Ultimately the views of an enlightened Soviet leader Gorbachev trumped the ideological blinders of his predecessors and the intelligence service s dedication to an endless duel with their ideologically spawned main adversary making it possible to end the Cold War Raymond Garthoff draws on over five decades of personal contact with Soviet diplomats intelligence officers military leaders and scholars during his remarkable career as an analyst senior diplomat and historian He also builds on previous scholarship and examines documents from Soviet and Western archives *Soviet Leaders and Intelligence* offers an informed and highly readable assessment of how the Soviets understood and misunderstood the intentions and objectives of their Cold War adversary *The End of the Cold War* , 2001 Featuring new evidence on the end of the Cold War 1989 the fall of the Wall Sino Soviet relations 1958 59 Soviet missile deployments 1959 the Iran Crisis 1944 46 Tito and Khrushchev 1954

Rethinking Theory and History in the Cold War Richard Saull, 2001 Rethinking Theory and History in the Cold War

focuses on what we mean by politics and international relations and how such assumptions have come to determine our understanding of the Cold War Using an historical materialist method the author criticizes conventional conceptions of international politics that tend to focus on the agency of and relations among states and offers an alternative historical sociology of the Cold War through an analysis of the relationship between formal political authority and socio economic production Seen from this perspective the state the modern conceptions of politics can be seen as products of a capitalist modernity in which politics is based on the separation of the spheres of politics in the state and economics in civil society

BOOK JACKET How the Cold War Ended John Prados, 2011 Examines the debates surrounding the end of the Cold War

The Cold War Ronald E. Powaski, 1997-09-25 For half of the twentieth century the Cold War gripped the world International relations everywhere and domestic policy in scores of nations pivoted around this central point the American Soviet rivalry Even today much of the world's diplomacy grapples with chaos created by the Cold War's sudden disappearance Here indeed is a subject that defies easy understanding Now comes a definitive account a startlingly fresh clear eyed comprehensive history of our century's longest struggle In *The Cold War* Ronald E Powaski offers a new perspective on the great rivalry even as he provides a coherent concise narrative He wastes no time in challenging the reader to think of the Cold War in new ways arguing that the roots of the conflict are centuries old going back to Czarist Russia and to the very infancy of the American nation He shows that both Russia and America were expansionist nations with messianic complexes and the people of both nations believed they possessed a unique mission in history Except for a brief interval in 1917 Americans perceived the Russian government whether Czarist or Bolshevik as despotic Russians saw the United States as conspiring to prevent it from reaching its place in the sun U S military intervention in Russia's civil war with the aim of overthrowing Lenin's upstart regime entrenched Moscow's fears Soviet American relations difficult before World War II when both nations were relatively weak militarily and isolated from world affairs escalated dramatically after both nations emerged as the world's major military powers Powaski paints a portrait of the spiraling tensions with stark clarity as each new development added to the rivalry the Marshall Plan the communist coup in Czechoslovakia the Berlin blockade the formation of NATO the first Soviet nuclear test In this atmosphere Truman found it easy to believe that the Communist victory in China and the Korean War were products of Soviet expansionism He and his successors extended their own web of mutual defense treaties covert actions and military interventions across the globe from the Caribbean to the Middle East and finally to Southeast Asia where containment famously foundered in the bog of Vietnam Powaski skillfully highlights the domestic politics diplomatic maneuvers and even psychological factors as he untangles the knot that bound the two superpowers together in conflict From the nuclear arms race to the impact of U S recognition of China on detente to Brezhnev's inflexible persistence in competing with America everywhere he casts new light on familiar topics Always judicious in his assessments Powaski gives due credit to Reagan and especially Bush in facilitating the Soviet collapse but

also notes that internal economic failure not outside pressure proved decisive in the Communist failure Perhaps most important he offers a clear eyed assessment of the lasting distortions the struggle wrought upon American institutions raising questions about whether anyone really won the Cold War With clarity fairness and insight he offers the definitive account of our century s longest international rivalry
