Second Supplement 12957-19605**, 1998 The British National Bibliography Arthur James Wells, 1993 Radio and the Politics of Sound in Interwar France, 1921-1939 Rebecca P. Scales, 2016-02-24 In December 1921 France broadcast its first public radio program from a transmitter on the Eiffel Tower In the decade that followed radio evolved into a mass media capable of reaching millions Crowds flocked to loudspeakers on city streets to listen to propaganda children clustered around classroom radios and families tuned in from their living rooms Radio and the Politics of Sound in Interwar France 1921-1939 examines the impact of this auditory culture on French society and politics revealing how broadcasting became a new platform for political engagement transforming the act of listening into an important if highly contested practice of citizenship Rejecting models of broadcasting as the weapon of totalitarian regimes or a tool for forging democracy from above the book offers a more nuanced picture of the politics of radio by uncovering competing interpretations of listening and diverse uses of broadcast sound that flourished between the world wars *The Oxford Companion to British Railway History from 1603 to the 1990s* Jack Simmons, Gordon Biddle, 1997 This is the first encyclopedia to chart the progress of Britain's railway development It begins with primitive 17th century wagonways fully considers the eras of horse steam diesel and electric traction and then charts the change from private to public ownership Finally it describes in detail the privatizations of the late 1990s Over six hundred entries by eighty-eight expert contributors provide a comprehensive and unique reference to all aspects of railways **Who was who Among North American Authors, 1921-1939**, 1976 **The Cumulative Book Index**, 1995 A world list of books in the English language **Trains, Culture, and Mobility** Benjamin Fraser, Steven D. Spalding, 2012-01-01 Trains Culture and Mobility Riding the Rails goes beyond textual representations of rail travel to engage an impressive range of political sociological and urban theory Taken together these essays highlight the complexity of the modern experience of train mobility and its salient relation to a number of cultural discourses Incorporating traditionally marginal areas of cultural production such as graffiti museums architecture or even plunging into the social experience of travel inside the traincar itself each essay constitutes an attempt to work from the act of riding the train toward questions of much larger significance Crisscrossing cultures from the New World and Old from East and West these essays share a common preoccupation with the way in which trains and railway networks have mapped and re-mapped the contours of both cities and states in the modern period Bringing together individual and large scale social practices this volume traces out the cultural implications of Riding the Rails Politics in Independent Poland 1921-1939 Antony Polonsky, 1972
