The Goslings: A Study of the American Schools Upton Sinclair, 2021-11-05 In *The Goslings A Study of the American Schools* Upton Sinclair employs a blend of satire and earnest critique to explore the American educational system at the dawn of the 20th century Through vivid descriptions and engaging narrative techniques Sinclair dissects the structure methodologies and prevailing attitudes within schools illustrating how they serve both as bastions of knowledge and institutions rife with bureaucratic inefficiency His work reflects the literary context of the Progressive Era drawing attention to social reform while highlighting the absurdities of the educational paradigm and the impacts on youthful minds essentially crafting a tongue in cheek reflection on progressive ideals and their failures in practice Upton Sinclair an accomplished author and reformer profoundly understood the systemic issues in American society often drawing from his personal experiences With a background in journalism and a mission to expose social injustices Sinclair's own educational encounters shaped his critique of schools as both a product of their time and a hindrance to genuine learning His deep sympathy for the plight of the underprivileged informs his work creating a poignant and thought provoking commentary on education and its societal implications For readers interested in educational theories social reform or American literature *The Goslings* offers a captivating glimpse into the historical context of schooling in America Sinclair's incisive observations and sharp wit encourage a critical examination of modern educational practices making this book a relevant and reflective exploration that resonates with contemporary challenges in learning environments

Excerpt Life has given you one of its precious treasures a child a body to nurture a character to train a mind with endless possibilities of growth a soul with hidden stores of tenderness and beauty all these are Nature's gifts Modern science has shown that within the child's soul lies magically locked up all the past of our race also it is evident that within it lies all the future of our race What our children are now being made is what America will be You send these little ones to school Twenty three millions of them troop off every week day morning with their shining faces newly washed their clothing cleaned and mended You bear them you rear them with infinite pains and devotion you prepare them and feed them into the gigantic educational machine You do not know much about this machine You have turned it over to others to run Every year you pay to maintain it a billion dollars of wealth which you have produced by real and earnest toil You take it for granted that this billion dollars is competently used that those who run the machine are giving your twenty three million children the best education that forty three dollars and forty seven cents per child will buy The purpose of this book is to show you how the invisible government of Big Business which controls the rest of America has taken over the charge of your children In the course of a public debate with the writer in the Civic Club in New York City May 1922 Dr Tildsley district superintendent of the public school system of that city made the statement I do not know any school system in the United States which is run

for the benefit of the children They are all run for the benefit of the gang This statement made upon high authority is the thesis of *The Goslings* Come with me and let me show you what is this gang which runs the school system of the United States how they got their power what use they make of it and what this means to the bodies and minds of your twenty three million little ones

Upton Sinclair and the Other American Century Kevin Mattson, 2008-05-02 Praise for UPTON SINCLAIR and the other American Century I look forward to all of Kevin Mattson's works of history and I've not been disappointed yet Upton Sinclair is a thoughtful well researched and extremely eloquently told excavation of the history of the American left and indeed the American nation as well as a testament to the power of one man to influence his times Well done Eric Alterman author of *When Presidents Lie: A History of Official Deception and Its Consequences* A splendid read It reminds you that real heroes once dwelt among us Mattson not only captures Sinclair's character but the world he inhabited with deft strokes whose energy and passion easily match his subject's Richard Parker author of *John Kenneth Galbraith: His Life His Politics His Economics* From the meat packing houses of Chicago to the automobile factories of Detroit to the voting booths of California Upton Sinclair cut a wide swath as a muckraking writer who exposed the injustices rendered by American industrial capitalism Now Kevin Mattson presents a much needed exploration of

this complex crusader This is a thoughtful provocative and gripping account of an important figure who appeared equal parts intellectual propagandist and political combatant as he struggled to illuminate the other American century inhabited by the poor and powerless Steven Watts author of *The People's Tycoon: Henry Ford and the American Century* **Becoming American in Creole New Orleans, 1896-1949** Darryl Barthé, Jr., 2021-07-14 Extensive scholarship has emerged within the last twenty five years on the role of Louisiana Creoles in the eighteenth and early nineteenth centuries yet academic work on the history of Creoles in New Orleans after the Civil War and into the twentieth century remains sparse Darryl Barth Jr's *Becoming American in Creole New Orleans* moves the history of New Orleans Creole community forward documenting the process of becoming American through Creoles encounters with Anglo American modernism Barth tracks this ethnic transformation through an interrogation of New Orleans's voluntary associations and social sodalities as well as its public and parochial schools where Creole linguistic distinctiveness faded over the twentieth century because of English only education and the establishment of Anglo American economic hegemony Barth argues that despite the existence of ethnic repression the transition from Creole to American identity was largely voluntary as Creoles embraced the economic opportunities afforded to them through learning English *Becoming American* entailed the adoption of a distinctly American language and a distinctly American racialized caste system Navigating that caste system was always tricky for Creoles who had existed in between French and Spanish color lines that recognized them as a group separate from Europeans Africans and Amerindians even though they often shared kinship ties with all of these groups Creoles responded to the pressures associated with the demands of the American caste system by passing as white people completely or situationally or more often redefining themselves as Blacks *Becoming American in Creole New Orleans* offers a critical comparative analysis of Creolization and Americanization social processes that often worked in opposition to each another during the nineteenth century and that would continue to frame the limits of Creole identity and cultural expression in New Orleans until the mid twentieth century As such it offers intersectional engagement with subjects that have historically fallen under the purview of sociology anthropology and critical theory including discourses on whiteness m tissage m tisaj and critical mixed race theory
