[The Griffith Project, Volume 12](#) Paolo Cherchi Usai, 2019-07-25 THE GRIFFITH PROJECT Paolo Cherchi Usai General Editor Volume 12 Essays on D W Griffith Edited by Paolo Cherchi Usai and Cynthia Rowell With contributions by William M Drew Helmut F rber Andr Gaudreault Philippe Gauthier Lea Jacobs Joyce Jesionowski Charlie Keil Richard Koszarski Arthur Lennig Pat Loughney David Mayer Russell Merritt Jan Olsson Paul Spehr Yuri Tsivian Linda Williams In early 1996 an international group of 35 specialists in silent cinema volunteered to write commentaries on more than six hundred films directed written produced and supervised by D W Griffith or featuring him as a performer for the eleven volume series The Griffith Project the largest monograph ever assembled on an individual film director in conjunction with the massive retrospective held at the Pordenone Silent Film Festival from 1996 to 2008 All authors involved in The Griffith Project were bound to strict editorial rules most notably the fact that all titles in the series would be assigned to them in pre determined groups rather than as a result of their own individual preference for this or that specific entry The patience and commitment demonstrated by all scholars in this endeavor requires at least a symbolic recognition We therefore invited the members of the project team to write an essay on a D W Griffith related topic of their own choice The papers included in this volume constitute the response to our carte blanche invitation Our offer was also extended to other experts on D W Griffith who for various reasons were unable to participate in The Griffith Project but consistently supported it with their generous advice and insight This volume

brings The Griffith Project to completion as 2008 sees the last installment of the D W Griffith program at the Pordenone Silent Film Festival with the screening of his films produced between 1925 and 1931 Not surprisingly twelve years of research on D W Griffith have unearthed an impressive wealth of knowledge but also an equally amazing array of new questions certainly enough of them to fill several more volumes Some of them including the increasingly complex issue of D W Griffith s role as production supervisor are only introduced or barely mentioned here but we are confident that what we have called the Griffith Project will continue at the Giornate and elsewhere with more research and newly found or preserved prints PAOLO CHERCHI USAI is Director of the National Film and Sound Archive of Australia He is co founder of the Pordenone Silent Film Festival and of the L Jeffrey Selznick School of Film Preservation at George Eastman House Rochester New York He directed the experimental feature film *Passio* 2007 His latest book is *David Wark Griffith* Editrice Il Castoro 2008 Stagestruck Filmmaker David Mayer, 2009-03 An actor a vaudevillian and a dramatist before he became a filmmaker D W Griffith used the resources of theatre to great purpose and to great ends In pioneering the quintessentially modern medium of film from the 1890s to the 1930s he drew from older more broadly appealing stage forms of melodrama comedy vaudeville and variety In *Stagestruck Filmmaker* David Mayer brings Griffith s process vividly to life offering detailed and valuable insights into the racial ethnic class and gender issues of these transitional decades Combining the raw materials of theatre circus minstrelsy and dance with the newer visual codes of motion pictures Griffith became the first acknowledged artist of American film *Birth of a Nation* in particular demonstrates the degree to which he was influenced by the racist justifications and distorting interpretations of the Civil War and the Reconstruction era Moving through the major phases of Griffith s career in chapters organized around key films or groups of films Mayer provides a mesmerizing account of the American stage and cinema in the final years of the nineteenth century and the first three decades of the twentieth century Griffith s relationship to the theatre was intricate complex and enduring Long recognized as the dominant creative figure of American motion pictures throughout twenty six years of making more than five hundred films he pillaged adapted reshaped revitalized preserved and extolled By historicizing his representations of race ethnicity and otherness Mayer places Griffith within an overall template of American life in the years when film rivaled and then surpassed the theatre in popularity

The Griffith Project, Volume 10 Paolo Cherchi Usai, 2019-07-25 No other silent film director has been so extensively studied as D W Griffith However only a small group of his more than five hundred films had been the subject of a systematic analysis Now for the first time in film studies the complete creative output of Griffith from *Professional Jealousy* 1907 to *The Struggle* 1931 is explored in this multi volume collection of contributions from an international team of leading scholars in the field Created as a companion to the ongoing retrospective held by the Pordenone Silent Film Festival The Griffith Project is now an indispensable guide to his work This is the final volume of the project *American Cinema of the 1910s* Charlie Keil, Ben Singer, 2009-02-04 It was during the teens that filmmaking truly came into its own Notably the migration of studios

to the West Coast established a connection between moviemaking and the exoticism of Hollywood The essays in American Cinema of the 1910s explore the rapid developments of the decade that began with D W Griffith s unrivaled one reelers By mid decade multi reel feature films were profoundly reshaping the industry and deluxe theaters were built to attract the broadest possible audience Stars like Mary Pickford Charlie Chaplin and Douglas Fairbanks became vitally important and companies began writing high profile contracts to secure them With the outbreak of World War I the political economic and industrial groundwork was laid for American cinema s global dominance By the end of the decade filmmaking had become a true industry complete with vertical integration efficient specialization and standardization of practices and self regulatory agencies

The Griffith Project, Volume 8 Paolo Cherchi Usai,2019-07-25 No other silent film director has been as extensively studied as D W Griffith However only a small group of his more than five hundred films has been the subject of a systematic analysis and the vast majority of his other works still await proper examination For the first time in film studies the complete creative output of Griffith from Professional Jealousy 1907 to The Struggle 1931 will be explored in this multivolume collection of contributions from an international team of leading scholars in the field Created as a companion to the ongoing retrospective held by the Pordenone Silent Film Festival the Griffith Project is an indispensable guide to the work of a crucial figure in the arts of the nineteenth century The latest volume assesses Griffith s work in 1914 15 It includes an extensive multi authored evaluation of The Birth of a Nation Cinema's Original Sin Paul McEwan,2022-12-13 For over a century cinephiles and film scholars have had to grapple with an ugly artifact that sits at the beginnings of film history D W Griffith s profoundly racist epic The Birth of a Nation inspired controversy and protest at its 1915 release and was defended as both a true history of Reconstruction although it was based on fiction and a new achievement in cinematic art Paul McEwan examines the long and shifting history of its reception revealing how the film became not just a cinematic landmark but also an influential force in American aesthetics and intellectual life In every decade since 1915 filmmakers museums academics programmers and film fans have had to figure out how to deal with this troublesome object and their choices have profoundly influenced both film culture and the notion that films can be works of art Some critics tried to set aside the film s racism and concentrate on the form while others tried to relegate that racism safely to the past McEwan argues that from the earliest film retrospectives in the 1920s to the rise of remix culture in the present day controversies about this film and its meaning have profoundly shaped our understandings of film race and art The Griffith Project, Volume 9 Paolo Cherchi Usai,2019-07-25 No other silent film director has been so extensively studied as D W Griffith However only a small group of his more than 500 films has been the subject of a systematic analysis and the vast majority of his other works stills await proper examination For the first time in film studies the complete creative output of Griffith from Professional Jealousy 1907 to The Struggle 1931 will be explored in this multi volume collection of contributions from an international team of leading scholars in the field
