[Graduate Research Supervision in the Developing World](#) Erik Blair, Danielle Watson, Shikha Raturi, 2020-01-03 Recognising that graduate supervisory practice is not an abstracted academic pursuit but an activity that is subjectively bounded by content and context impacted by the experiences and beliefs of supervisee and supervisor this text explores the unique dynamics of graduate supervision in the Global South as perceived and experienced by students and academics within those same contexts Bringing together contributions which reflect a rich diversity of perspectives on supervisory practices at regional universities in the Caribbean and South Pacific *Graduate Research Supervision in the Developing World* explores how supervisors navigate unscripted supervisory terrain contextualise supervisory best practices establish roles and relationships and work to understand supervisees needs By highlighting the effect on graduate supervision of complex sociocultural interplay and the relationship

between learning environments and student success contributors look to locate best practices through analyses of stories of success and failure As the contributors demonstrate there is a need to restructure the standardised operation of graduate supervision across diverse faculties This text will be of great interest to graduate supervisors and their supervisees as well as scholars in the fields of continuing professional development and higher education in international and comparative education and Sociology of Education The Journal of Educational Sociology ,1927 **The Supervision of Vocational Education of Less Than College Grade** John Calvin Wright, Charles R. Allen, 1926 Social Work Supervision Ming-sum Tsui, 2004-06-23 Social work supervision has been identified as one of the most important factors in determining the job satisfaction levels of social workers and the quality of service to clients As an indirect but vital factor in the social work process it is surprising that supervision has not received as much attention as other components of social work practice such as social work research or administration A book on social work supervision is desperately needed to bridge the gap between the demands of the field and the absence of literature Social Work Supervision Contexts and Concepts aims to provide readers with basic knowledge of theories research and practice of supervision The book will address the needs of social work supervisors frontline practitioners students and educators The book is ideally suited as a text for graduate courses on social work supervision as it contains a comprehensive literature review of the historical development theories and models and empirical research studies of the subject Equally important this is a book from practice experience in supervision that enhances the competence of supervisory practice It will help social workers supervisors and administrators to realize and revitalize their mission in social work that is to benefit clients Key Features Presents social work supervision as a rational effective and interactive process focusing on the whole person of the social worker Discusses the history the nature and definitions and the theoretical models of social work supervision Explores the major functions of social work supervision administrative educational and supportive Addresses the specific format and structure of supervision sessions **Sociology** Anthony Giddens, Simon Griffiths, 2006 This updated edition provides an ideal teaching text for first year university and college courses **The Reconstruction of Chinese Sociology** Zhou Xiaohong, 2023-01-01 Tracing the evolution of Chinese Sociology from the late 1970s to the present day the book aims to record the path of reconstruction localization change and reform of Chinese Sociology through interviews with 40 Chinese top sociologists such as Su Guoxun Zhou Xiaohong Bian Yanjie Zhao Dingxin Zhou Xueguang et al Divided into three sections this insightful book is the best proof of the rapid development and overall improvement of the discipline since the reform and opening up in China On the occasion of the 40th anniversary of the restoration and reconstruction of Chinese Sociology this book is expected to inspire the younger generation of sociology researchers and deepen public s understanding of sociology **The Chicago School of Sociology** Martin Bulmer, 1986-08-15 From 1915 to 1935 the inventive community of social scientists at the University of Chicago pioneered empirical research and a variety of qualitative and quantitative methods shaping the future of twentieth century

American sociology and related fields as well Martin Bulmer's history of the Chicago school of sociology describes the university's role in creating research based and publication oriented graduate schools of social science This is an important piece of work on the history of sociology but it is more than merely historical Martin Bulmer's undertaking is also to explain why historical events occurred as they did using potentially general theoretical ideas He has studied what he sees as the period from 1915 to 1935 when the Chicago School most flourished and defines the nature of its achievements and what made them possible It is likely to become the indispensable historical source for its topic Jennifer Platt Sociology *The Sociology of Organizations* Oscar Grusky, George Armitage Miller, 1970 In 1952 the Free Press published the Reader in Bureaucracy This important book directed interest to the problems of organizations for over two decades and remains a major contribution to this day Since the present volume is by the same publisher some comparisons of the non invidious kind are in order First unlike its predecessor we sought deliberately to present a uniquely sociological orientation Second we decided against dividing up the work of major theorists by selected substantive areas in favor of reprinting large unified sections of their work in one place Third a broadly based selection of research techniques is provided in the early part of the book so as to emphasize the obviously close relationship between methods and theory From the preface

A Sociology of Knowledge of European Integration Rebecca Adler-Nissen, Kristoffer Kropp, 2017-10-02 This book addresses the important but understudied question of how social scientific knowledge is entangled in the process of European integration More specifically it provides the first systematic introduction to a sociology of knowledge approach to European integration and demonstrates the value of such an approach through empirical illustrations Drawing on new research in the intersection of sociology of knowledge and political sociology the book is the first to analyse the entanglement of social scientific knowledge and the development of the EU The book provides the first systematic mapping of the relations between social scientific knowledge and particular aspects of European integration such as the Euro and monetary governance constitution and treaty negotiation education policy enlargement and external relations The book imports key ideas from the sociology of knowledge sociology of science and political sociology to cast new light on the field of EU studies and its relation to the EU The result is a fresh account of European integration shaped in often surprising ways by relatively small groups of people and their particular ideas about economy law culture and politics This book was published as a special issue of the Journal of European Integration

Jung and Sociological Theory Gavin Walker, 2017-11-10 Carl Jung has always lain at the edge of sociology's consciousness despite the existence of a long established Freudian tradition Yet over the years a small number of sociological writers have considered Jung one or two Jungian writers have considered sociology The range of perspectives is quite wide Durkheim Weber Marx Levi Strauss feminism mass society postmodernism These scattered writings however have had little cumulative impact and inspired little debate The authors seem often not to have known of each other while the sociological mainstream has remained unmoved or unaware This is the situation that this book seeks to change Jung and Sociological Theory brings together a selection of articles and excerpts in a single volume together with some writings from anthropology and seeks to begin the task of critical evaluation Presented in three parts the book covers anthropology sociology and an appraisal of Jung and sociological theory Gavin Walker explores the relationship between Jung and sociology asking what the writers included here wanted from Jung how we should locate Jung on the sociological landscape and how this might link to anthropology In conclusion he suggests that sociology's problem with Jung is less that he is difficult to place than that he compels sociology to face some of its own inconsistencies and evasions Jung and Sociological Theory will be of interest to all academics and students working in the fields of Jungian studies analytical psychology and psychoanalysis sociology anthropology feminism comparative religion and the history of ideas
