Professional Autonomy and the Public Interest Barry Cahill,2019-11-07 Formed in 1825 the Nova Scotia Barristers Society is the second oldest law society in common law Canada after the Law Society of Ontario Yet despite its founders ambitions it did not become the regulator of the legal profession in Nova Scotia for nearly seventy five years In this institutional history of the Nova Scotia Barristers Society from its inception to the Legal Profession Act of 2005 Barry Cahill provides a chronological exploration of the profession s regulation in Nova Scotia and the critical role of the society Based on extensive research conducted on internal documents legislative records and legal and general interest periodicals and newspapers Professional Autonomy and the Public Interest demonstrates that the inauguration of the Nova Scotia Barristers Society was the first giant step on the long road to self regulation Highlighting the inherent tensions between protection of professional self interest and protection of the larger public interest Cahill explains that while this radical innovation was opposed by both lawyers and judges it was ultimately imposed by the Liberal government in 1899 In light of emerging models of regulation in the twenty first century Professional Autonomy and the Public Interest is a timely look back at the origins of professional regulatory bodies and the evolution of law affecting the legal profession in Atlantic Canada **The Canada Statute Citor** ,1989 The Canadian Law List ,2005 *Litigation Communication* Thomas Beke,2013-11-04 The book is a brief journey through centuries and jurisdictions and expands on examples of enactment practices of states that support challenge or even reject communication during pending litigations England as the main representative of a jurisdiction suggests communication solutions potentially different than the practice in the United States where litigation communication first time occurred Accordingly the author offers a comprehensive analysis and detailed historical narrative of the positions of various jurisdictions in relation to communication in the legal process As a kind of applied legal history the book provides an exploration of historical events that were significant in a legal communication context and addresses their implications for

modern enactments The account looks at the history of regulations to allow a better understanding of the strict rules that have often been cited over the years support or restrict communication in the legal process The author provides the reader with proper contexts on different judicial and communication considerations as well as the collaboration of legal and public relations experts in a particular form of crisis and reputation management in the litigation process As such this book is an attempt to present an accurate and thoughtful account of the theory and history of litigation communication which is directly relevant in various debates such as the work on the meaning and context of the Contempt of Court Act in England or the American First and Sixth Amendments in different centuries
