The Cobra Event:

The Cobra Event Richard Preston, 1998-08-29 One of those books you literally can't put down makes The Hot Zone virus far away in a rainforest look like no big deal Detroit Free Press Five days ago a homeless man on a subway platform died in agony as startled commuters looked on Yesterday a teenager started having violent uncontrollable spasms in art class Within minutes she too was dead Dr Alice Austen is a medical pathologist at the Centers for Disease Control in Atlanta What she knows is that the two deaths are connected What she fears is that they are only the beginning Manages to grab you with the authenticity of its scientific detective work and haunt you with its sheer plausibility Entertainment Weekly *The Cobra Event* Richard Preston, 2007-04-10 The Cobra Event is set in motion one spring morning in New York City when a seventeen year old student wakes up feeling vaguely ill Hours later she is having violent seizures blood is pouring out of her nose and she has begun a hideous process of self cannibalization Soon other gruesome deaths of a similar nature have been discovered and the Centers for Disease Control sends a forensic pathologist to investigate What she finds precipitates a federal crisis The details of this story are fictional but they are based on a scrupulously thorough inquiry into the history of biological weapons and their use by civilian and military terrorists Richard Preston's sources include members of the FBI and the United States military public health officials intelligence officers in foreign governments and scientists who have been involved in the testing of strategic bioweapons The accounts of what they have seen and what they expect to happen are chilling The Cobra Event is a dramatic heart stopping account of a very real threat told with the skill and authority that made Preston's The Hot Zone an internationally acclaimed bestseller [The Cobra Event](#) Richard / Spencer LaVyrle / McNab Preston (Andy / Kearsley, Susanna), 2003 **The Desperate Hours** Marie Brenner, 2022-06-21 AWARD WINNING VANITY FAIR WRITER Marie Brenner shares a remarkable depiction of New York a city in crisis based on new behind the scenes reporting that captures the resilience peril and compassion of the early days of the Covid pandemic In the spring of 2020 COVID 19 arrived in New York City Before long America's largest metropolis was at war against a virus that mercilessly swept through its five boroughs It became apparent that if Covid wasn't somehow halted the death count in New York alone would be in the hundreds of thousands And if New York's hospitals failed what chance did the rest of the country have Brenner having been granted unprecedented 18 month access to the entire New York Presbyterian hospital system tells the story of the doctors nurses residents researchers and suppliers who tried to save lives across Manhattan Queens and Brooklyn and the northern periphery of the city Drawing on more than 200 interviews Brenner takes us inside secure ICU units sealed operating rooms locked executive suites unknown basement workshops and makeshift clinics to provide extraordinary witness to the war as it was waged on the front line But The Desperate Hours is more than a thrilling account of medicine under extreme pressure It is an intimate portrait of courageous men and women coming together in their devotion to duty their families each other and the city they loved more than any other *Princeton Alumni Weekly*, 1997

Anthrax Philipp Sarasin, 2006 Many security experts believe that the next act of widespread terrorism will likely come from a weapon of biochemical means In Anthrax Bioterror as Fact and Fantasy Philipp Sarasin explores the real threats of biological weapons in contrast to the idea of biological substances as nebulous agents of terror by analyzing the anthrax scares that occurred in the United States in 2001 Sarasin argues that while threats of bioterrorism are real they are disproportionate to the fantasmal fears that now permeate American politics and culture

Fatal Future? Richard M. Pearlstein, 2009-06-03 The nature and goals of terrorist organizations have changed profoundly since the Cold War standoff among the U S Soviet and Chinese superpowers gave way to the current polyplex global system in which the old rules of international engagement have been shattered by a new struggle for power among established states non state actors and emerging nations In this confusing state of global disorder terrorist organizations that are privately funded and highly flexible have become capable of carrying out incredibly destructive attacks anywhere in the world in support of a wide array of political religious and ethnic causes This groundbreaking book examines the evolution of terrorism in the context of the new global disorder Richard M Pearlstein categorizes three generations of terrorist organizations and shows how each arose in response to the global conditions of its time Focusing extensively on today's transnational i e privately funded and internationally operating terrorist organizations he devotes thorough attention to the two most virulent types ethnoterrorism and radical Islamic terrorism He also discusses the terrorist race for weapons of mass destruction and the types of attacks including cyberterrorism that are likely to occur in coming years Pearlstein concludes with a thought provoking assessment of the many efforts to combat transnational terrorism in the post September 11 period

Our Cannibals, Ourselves Priscilla L. Walton, 2010-10-01 Why does Western culture remain fascinated with and saturated by cannibalism Moving from the idea of the dangerous Other Priscilla L Walton's *Our Cannibals Ourselves* shows us how modern day cannibalism has been recaptured as in the vampire story resurrected into the human blood stream and mutated into the theory of germs through AIDS Ebola and the like At the same time it has expanded to encompass the workings of entire economic systems such as in consumer cannibalism *Our Cannibals Ourselves* is an interdisciplinary study of cannibalism in contemporary culture It demonstrates how what we take for today's ordinary culture is imaginatively and historically rooted in very powerful processes of the encounter between our own and different often threatening cultures

from around the world Walton shows that the taboo on cannibalism is heavily reinforced only partly out of fear of cannibals themselves instead cannibalism is evoked in order to use fear for other purposes including the sale of fear entertainment Ranging from literature to popular journalism film television and discourses on disease Our Cannibals Ourselves provides an all encompassing insightful meditation on what happens to popular culture when it goes global
