Phenomenology, Interpretation, and Community Lenore Langsdorf, Stephen H. Watson, E. Marya Bower, 1996-07-11 This book re-examines the relationship between phenomenology interpretation and the problem of community a topic that has been at the center of recent debates in Continental thought From the outset phenomenology was intimately connected with the issues of interpretation and community both by theoretical paradigm and substance Indeed Husserl sought to distinguish his own foundational investigations from others that stressed the interpretive and historical character of the rational or that contested such foundational enterprises out of a concern for the critique of ideology and the hermeneutics of suspicion He argued equally as stringently for the primacy of such theoretical issues over other studies such as ethics political theory or aesthetics that shaped the itinerary of philosophical inquiry In a similar manner the essays encountered here continue the debates that accompany the complex phenomenologies of post-Kantian Continental thought concerning the rational status of the self and its ambiguous relationship with the community and thus in turn the ambiguous relationship between the rational community civil society and the contested dynamics of its conceptualization and adjudication Because it considers these issues from several viewpoints including the legacy of German idealism and the discourses emerging from the Frankfurt School and contemporary post-structuralist thought this volume serves both as an introduction to Continental philosophy on these issues as well as a guide to the status of recent debates
