Claudio Minca, Rory Rowan

The Heroic Earth Geopolitical Thought In Weimar Germany 1918 1933:

The Heroic Earth David Thomas Murphy,1997 In *The Heroic Earth* David T Murphy argues that geopolitical ideas were most dynamic and significant in Germany not during the Nazi era 1933 45 but in the democratic culture of the Weimar republic 1919 33 By helping to condition the German population to geopolitical ideas which emphasized revision of the Versailles settlement and enlarging Germany's living space geopolitics helped contribute to Nazi imperialism From the defeat of Germany in 1918 until the rise of National Socialism in 1933 theories of geographical determinism enjoyed a broad currency in many fields of German public life The ancient notion that environmental factors climate topography resource distribution shape society in significant ways was now applied in a radically determinist fashion to help Germans understand why they had lost the war and what they had to do to regain their place among the Great Powers Under the rubric of Geopolitik politicians teachers writers and others argued that the key to Germany's past and the hope for its future lay in understanding geography's determining impact upon races cultures states and warfare Theories of geographical determinism shaped German thinking about politics race science education aesthetics and many other subjects on the eve of the Nazi era Challenging traditional historiography Murphy argues that geopolitics faded in importance after Adolf Hitler came to power

Refugees and Population Transfer Management in Europe, 1914-1920s Kamil Ruszała,2024-08-20 This book provides a comprehensive study of refugee movements and population transfers across Europe during the First World War and the early postwar period Drawing parallels with contemporary migration issues the book serves a social and educational purpose by highlighting Europe's history of migration and emphasizing the relevance of past experiences to current challenges It seeks to enhance understanding raise social awareness and contribute to the broader discourse on war refugeeism by applying historical insights to address contemporary migration crises The authors discuss how issues of refugee movements and population transfers were addressed in different contexts and reflect on refugees as both war induced migrants and political tools for authorities The book covers a range of topics including humanitarian systems during the war and the early postwar period refugee locations policy influence national issues self organization and aid for refugees as well as immigration control in time after bordering the postimperial Europe It also addresses the composition of populations in postwar reconstruction processes and its population dynamics This volume will be of value to those interested in modern European history social and political history

The Great Interwar Crisis and the Collapse of Globalization R. Boyce,2009-10-21 Challenging the standard narrative of Interwar International History this account establishes the causal relationship between the global political and economic crises of the period and offers a radically new look at the role of ideology racism and the leading liberal powers in the events between the First and Second World Wars *Contemporary Far-Right Thinkers and the Future of Liberal Democracy* A. James McAdams,Alejandro Castrillon,2021-09-26 This book is the first systematic analysis of the efforts of a broad range of contemporary far right thinkers to popularize their critiques of

liberal democratic norms and institutions and make their ideas the subjects of sustained political and academic debate The book focuses on outspoken thinkers in western and eastern Europe Russia the United States Canada and Australia They include Alain de Benoist Guillaume Faye G tz Kubitschek Pat Buchanan Fr i Midjord Jason Jorjani contributors to the online magazine Quillette and the elusive personality known as the Bronze Age Pervert The book explores the diverse intellectual foundations of these thinkers positions the similarities and differences in their ideas and their prospects for influencing attitudes about democratic politics within their respective countries It examines diverse movements and schools of thought including the European New Right Paleoconservatism the Alt right Identitarianism White nationalism and antifeminism Providing a much needed global perspective this book will be of considerable interest to students and scholars of populism right wing extremism identity politics fascism racism and conservatism *Capital, the State, and War* Alexander Anievas,2014-04-11 The history of the modern social sciences can be seen as a series of attempts to confront the challenges of social disorder and revolution wrought by the international expansion of capitalist social relations Alexander Anievas focuses on one particularly significant aspect of this story the intersocietal or geosocial origins of the two world wars and more broadly the confluence of factors behind the Thirty Years Crisis between 1914 and 1945 Anievas presents the Thirty Years Crisis as a result of the development of global capitalism with all its destabilizing social and geopolitical consequences particularly the intertwined and co constitutive nature of imperial rivalries social revolutions and anti colonial struggles Building on the theory of uneven and combined development he unites geopolitical and sociological explanations into a single framework thereby circumventing the analytical stalemate between primacy of domestic politics and primacy of foreign policy approaches *On Schmitt and Space* Claudio Minca,Rory Rowan,2015-07-24 This book represents the first comprehensive study of the influential German legal and political thinker Carl Schmitt s spatial thought offering the first systematic examination from a Geographic perspective of one of the most important political thinkers of the twentieth century It charts the development of Schmitt s spatial thinking from his early work on secularization and the emergence of the modern European state to his post war analysis of the spatial basis of global order and international law whilst situating his thought in relation to his changing biographical and intellectual context controversial involvement in Weimar politics and disastrous support for the Nazi regime It argues that spatial concepts play a crucial structural role throughout Schmitt s work from his well known analyses of sovereign power and states of exception to his often overlooked spatial history of modernity Locating a fundamental relationship between space and the political lies at the core of his thought The book explores the critical insight that Schmitt s spatial thought bears on some of the key political questions of the twentieth century whilst tracking his profound and enduring influence on key debates on sovereignty international relations war and the nature of world order at the start of the twenty first century **Fascism and Political Theory** Daniel Woodley,2009-09-17 Fascism and Political Theory offers both students and researchers a thematic analysis of fascism

focusing on the structural and ideological links between fascism capitalism and modernity Intended as a critical discussion of the origins and development of fascist ideology each chapter deals with a core substantive issue in political theory relevant to the study of fascism and totalitarianism beginning with an assessment of the current state of debate The emphasis on formal ideology in contemporary Anglo American historiography has increased our awareness of the complexity and eclectic nature of fascist ideologies which challenge liberalism and social democracy Yet in too many recent works a programmatic or essentialist reading of fascist ideology as a secular religion is taken for granted while researchers remain preoccupied with the search for an elusive fascist minimum In this book Woodley emphasizes that many outstanding questions remain including the structural and ideological links between fascism and capitalism the social construction of fascist nationalism and the origins of fascist violence in European colonialism This volume consolidates the reader s theoretical understanding and provides the interdisciplinary skills necessary to understand the concrete social economic and political conditions which generate and sustain fascism A timely critique of culturalist and revisionist approaches in fascism studies which provides a concise overview of theoretical debates between liberalism Marxism and poststructuralism this text will be of great interest to students of politics modern history and sociology *Territory, State and Nation* Ragnar Björk, Thomas Lundén, 2021-08-13 Rudolf Kjell n regularly referred to as the father of geopolitics developed in the first decade of the twentieth century an analytical model for calculating the capabilities of great power states and promoting their interests in the international arena It was an ambitious intellectual project that sought to bring politics into the sphere of social science Bringing together experts on Kjell n from across the disciplines *Territory State and Nation* explores the century long international impact analytical model and historical theories of a figure immensely influential in his time who is curiously little known today

German Elementary Education from 1890 to 1945 Katharine Kennedy, 2025-09-01 In this innovative analysis of German elementary education Katharine Kennedy uses textbooks curricula and pedagogical texts to trace continuities and changes in the lessons taught in the elementary schools of Wilhelmine Weimar and Nazi Germany Children in all three periods were exposed to recurring texts that reinforced attachment to God region and fatherland However they also encountered evolving symbols of the nation and shifting ideas about the identity of Germany and the German people By blending lessons on Hitler race and heredity with traditional narratives Nazi education conveyed its ideology under the cloak of virtue patriotism and normality It provides a compelling example of how a dictatorship manipulates religion and tradition to legitimize a brutal lawless and racist regime *Global Population* Alison Bashford, 2014-02-11 Concern about the size of the world s population did not begin with the Baby Boomers Overpopulation as a conceptual problem originated after World War I and was understood as an issue with far reaching ecological agricultural economic and geopolitical consequences This study traces the idea of a world population problem as it developed from the 1920s through the 1950s long before the late 1960s notion of a postwar population bomb Drawing on international conference transcripts the volume reconstructs the twentieth century

discourse on population as an international issue concerned with migration colonial expansion sovereignty and globalization
It connects the genealogy of population discourse to the rise of economically and demographically defined global regions the
characterization of civilizations with different standards of living global attitudes toward development and first and third
world designations

In the digital age, access to information has become easier than ever before. The ability to download The Heroic Earth Geopolitical Thought In Weimar Germany 1918 1933 has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download The Heroic Earth Geopolitical Thought In Weimar Germany 1918 1933 has opened up a world of possibilities. Downloading The Heroic Earth Geopolitical Thought In Weimar Germany 1918 1933 provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading The Heroic Earth Geopolitical Thought In Weimar Germany 1918 1933 has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download The Heroic Earth Geopolitical Thought In Weimar Germany 1918 1933. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading The Heroic Earth Geopolitical Thought In Weimar Germany 1918 1933. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading The Heroic Earth Geopolitical Thought In Weimar Germany 1918 1933, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable

antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download The Heroic Earth Geopolitical Thought In Weimar Germany 1918 1933 has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.
