The Pain Of Vengeance

Darla Hannah Melancon

The Pain Of Vengeance:

The Culture of Vengeance and the Fate of American Justice Terry K. Aladjem, 2008-01-14 America is driven by vengeance in Terry Aladjem's provocative account a reactive public anger that is a threat to democratic justice itself From the return of the death penalty to the wars on terror and in Iraq Americans demand retribution and moral certainty they assert the rights of victims and make pronouncements against evil Yet for Aladjem this dangerously authoritarian turn has its origins in the tradition of liberal justice itself in theories of punishment that justify inflicting pain and in the punitive practices that result Exploring vengeance as the defining problem of our time Aladjem returns to the theories of Locke Hegel and Mill He engages the ancient Greeks Nietzsche Paine and Foucault to challenge liberal assumptions about punishment He interrogates American law capital punishment and images of justice in the media He envisions a democratic justice that is better able to contain its vengeance

The Things I Learned After Being Kicked Out of Church Darla Hannah Melancon, 2010-08 This book is written for individuals that have felt alienated from God because the church failed After our son was sexually molested by another member of our church Richard and I looked to our pastors to help us navigate through trauma and pain that such an event produces Not only were our pastors ill equipped to direct us toward healing they were unable to express empathy or support Their solution was a don't talk rule and just forgive directive When these failed to satisfy us the senior pastor stated he would released us to find healing somewhere else In other words we were KICKED OUT OF CHURCH Like so many people that have been wounded by the church or church people our children were ready to just walk away from the church and the Lord After all how do you separate the two These were the only pastors our children had ever known Our pastors had taught us to view the church as family They had repeatedly reminded us We were in covenant relationship with the Lord and each other Yet when life got ugly they couldn't wait to get rid of us How do you separate the truth from the lies after such rejection Richard and I have a relationship with the Lord Jesus Christ that precedes our joining that church We knew that Jesus had not treated us so coldly We were not willing to walk away from Jesus Yet we too needed to learn to separate Jesus from religious tradition and religious people This is a recounting for that journey of learning to separate the God that loves us from the church that so often misrepresents Him May it give you hope

The Principles of New Ethics II Wang Haiming, 2020-10-29 From Descartes to Spinoza Western philosophers have attempted to propose an axiomatic systemization of ethics However without consensus on the contents and objects of ethics the system remains incomplete This four-volume set presents a model that highlights a Chinese philosopher's insights on ethics after a 22 year study Three essential components of ethics are examined metaethics normative ethics and virtue ethics This volume is the first part of the discussion on normative ethics The author sets out to discuss morality and shows how the reasoning behind it can be both good and bad for human society from various perspectives A system of an ultimate standard of morality is introduced and it is shown that where there are conflicts between different moral norms that cannot be compromised people undoubtedly sacrifi

ce less important moral norms to follow more fundamental and important moral norms or principles The ultimate standard of morality is also the ultimate value standard for the evaluation of the goodness or badness of state institutions Justice is the fundamental value standard to measure state institutions Equality is the most important justice The Chinese version of this set sold more than 60 000 copies and has exerted tremendous influence on the academic scene in the People's Republic The English version will be an essential read for students and scholars of ethics and philosophy in general *The English Cyclopædia*, 1859

Revenge, Punishment and Anger in Ancient Greek Justice Joe Whitchurch, 2024-09-05 Anger was the engine of justice in the ancient Greek world It drove quests for vengeance which resulted in a variety of consequences often harmful not only for the relevant actors but also for the wider communities in which they lived From as early as the seventh century BCE Greek communities had developed more or less formal means of imposing restrictions on this behaviour in the form of courts However this did not necessarily mean a less angry or vengeful society so much as one where anger and revenge were subject to public sanction and sometimes put to public use By the fifth and fourth centuries the Athenian polis had developed a considerably more sophisticated system for the administration of justice encompassing a variety of laws courts and procedures In essence the justice it meted out was built on the same emotional foundations as that seen in Homer Jurors gave licence to or restrained the anger of plaintiffs in private cases and they punished according to the anger they themselves felt in public ones The growing state in ancient Greek poleis did not bring about a transition away from angry private revenge to emotionless public punishment Rather anger came increasingly to move into the public sphere the emotional driver of an early state that defended its community and even itself through its vengeful acts of punishment
