The Path Of Mystical Contemplation:

The Path to Attainment Mark L. Prophet, Elizabeth Clare Prophet, 2020-11-23 Attainment is the goal of the spiritual path But it is not the power to perform miracles or to control others It is the ability to give and receive energy in harmony This volume of the authors Climb the Highest Mountain series explains important keys to attainment including how to work with the masters of wisdom who can mentor your soul and how to chart and navigate the cycles of positive and negative karma unique to each of us You will explore how each age in humanity s evolution has brought new spiritual revelations and how the world s major religions facilitate soul development in different ways You will also gain a greater understanding of twin flames soul mates and karmic relationships as well as our soul s natural desire for union and wholeness **Christian Growth**

Through Contemplation Todd Mund, 2003-03-27 Like many people Todd lived his life questioning the meaning of God and why he was not close to God As he searched he found the practice of Christian contemplation Used by Jesus and other Christian patriarchs this had to be the answer After a short period of practice Todd could begin to see subtle changes in himself and in his life The anxiety resentment and worry that were so prevalent in his life began to disappear Entering his life were the two things that he had always searched for calm and serenity As his practice continued he began to feel immense changes and had several epiphanies of the presence of God As these awakenings continued the teachings of Jesus came to have a deeper meaning and understanding than ever before **Christian Growth Through Contemplation** is a fresh insightful and illuminating book that describes the contemplative process and the truth of the Christian teachings It is a must read for every Christian Whether you are content in the Christian faith or have drifted away from the church this book will help you grow closer to God than you could ever imagine and live a happy and fulfilling life The New Big Book of Christian

Mysticism Carl McColman, 2023-08-29 This revised and expanded edition offers a big possibility the hope of achieving real experiential union with God The Christian of the future will be a mystic or will not exist This word of warning from theologian Karl Rahner was uttered half a century ago and today Christianity is indeed in crisis Is mysticism necessary for the survival of Christianity What exactly is Christian mysticism How can it be relevant in our crisis ridden world Questions like these inspire The New Big Book of Christian Mysticism a newly updated edition from beloved spiritual teacher and bestselling author Carl McColman The New Big Book of Christian Mysticism serves as both introduction and practical instruction for a living contemplative practice today In addition to the overview of mysticism spiritual and prayer practices in mysticism the various types of mysticism in Christian tradition and influential mystics through the millennia this second edition offers an embodied understanding of the mystic life with a more diverse range of voices and perspectives from Howard Thurman to Pauli Murray It also includes new chapters and themes that address embodied mysticism contemplation and social justice and the ongoing relevance of Jesus s message of radical equality and inclusivity This bigger book introduces both Christians and non Christians to the contemplative tradition within Christianity a tradition that has often been marginalized or

cloistered to the church's detriment As a practice oriented book this is an invitation to embrace the mystical element within Christianity a practice that can equip faithful persons with a joyful sense of divine intimacy not just for personal benefit but as a foundation to a life of service and activism in the interest of justice McColman's overview of mysticism shows how it has been practiced and lived through the centuries and will prove inspirational for today's seekers regardless of their faith tradition At its heart Christian mysticism is an ancient practice that incorporates meditation contemplation worship philosophy the quest for enlightenment the thirst for a better world and the experience of divine presence *Synesius of Cyrene* Jay Bregman, 2024-06-28 The conflict of religions during the Christianization of the Greco Roman aristocracy in Late Antiquity is typified by Synesius ca A D 365 70 414 an old fashioned pagan Neoplatonist who studied under Hypatia at Alexandria yet who in A D 410 became the Christian bishop of Ptolemais in Libya Before accepting however he openly stated his objections to certain Christian dogmas Was he a Christian or a baptized Neoplatonist The generation of Synesius saw the rapid decline of paganism Furthermore the Constantinople he visited A D 399 402 was a Greek Christian Rome whose elites were classically educated He returned home an ally of the city's Orthodox Christians He tried to reconcile Neoplatonism with Christianity but a study of his works demonstrates that he was only partially successful Synesius is important for our understanding of the old aristocracy in Late Antiquity His becoming a bishop completes the picture in which we finally see the ancient world transforming itself into the medieval world The life of Synesius one man of Late Antiquity may be viewed as both the recapitulation and anticipation of all the major themes of Classical and Late Antiquity This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1982

Wonderful and Dark is This Road: Discovering the Mystic Path Emilie Griffin, 2004-05-01 In *Wonderful and Dark Is This Road* Emilie Griffin invites us to discover the fascinating yet often misunderstood spiritual path of mysticism Griffin explores the origins of mysticism the different expressions and gifts of mysticism and the recognized stages on the mystical journey In beautifully transparent prose she illuminates the insights of famous mystics throughout the centuries from the Apostle Paul to the Desert Fathers and Mothers to Thomas Merton and Evelyn Underhill Ultimately and perhaps most importantly Griffin reveals mysticism as a spiritual path that is open to us all offering the gift of an intimate knowledge of divine love to those who choose it This is a book that has the potential to transform not only our inner lives but our world *The Path to No-Self* Bernadette Roberts, 1991-01-01 This book shows how once we have adjusted to the unitive state the spiritual journey moves on to yet another more final ending In our major religious traditions the outstanding milestone in the spiritual journey is the permanent irreversible transcendence of the self center or ego The fact that a great deal has been written about the journey to this point means that many people have come this far But what we might ask comes next Looking ahead we see no path

even in the literature there seems to be nothing beyond an abiding awareness of oneness with God Had this path been mapped in the literature then at least we would have known that one existed but where no such account exists we assume there is no path and that union of self and God is the final goal to be achieved The main purpose of The Path to No Self is to correct this assumption It verifies that a path beyond union does indeed exist that the eventual falling away of the unitive state happens as the culmination of a long experiential journey beyond the state The author shows that a path exists between the transcendence of the ego self center which begins the unitive state and the later falling away of all self the true self which ends the unitive state As a first hand account The Path to No Self will be of interest to those with similar experiences or those searching for a better understanding of their own spiritual journey Since the journey is concerned with the effects of grace on human consciousness the book will be of interest to those psychologists concerned with the transformational process

The Oxford Handbook of Mystical Theology Edward Howells, Mark A. McIntosh, 2020-02-25 The Oxford Handbook of Mystical Theology provides a guide to the mystical element of Christianity as a theological phenomenon It differs not only from psychological and anthropological studies of mysticism but from other theological studies such as more practical or pastorally oriented works that examine the patterns of spiritual progress and offer counsel for deeper understanding and spiritual development It also differs from more explicitly historical studies tracing the theological and philosophical contexts and ideas of various key figures and schools as well as from literary studies of the linguistic tropes and expressive forms in mystical texts None of these perspectives is absent but the method here is more deliberately theological working from within the fundamental interests of Christian mystical writers to the articulation of those interests in distinctively theological forms in order finally to permit a critical theological engagement with them for today Divided into four parts the first section introduces the approach to mystical theology and offers a historical overview Part two attends to the concrete context of sources and practices of mystical theology Part three moves to the fundamental conceptualities of mystical thought The final section ends with the central contributions of mystical teaching to theology and metaphysics Students and scholars with a variety of interests will find different pathways through the Handbook

Strange, Surprising, Sure Robert Cummings Neville, 2024-10-01 In Strange Surprising Sure Robert Cummings Neville presents a theory of being change and value and engages other philosophers who deal with these concepts The book's central thesis is that the entire created world includes everything determinate and thus the creator does not exist within creation Strangely this reverses nearly everything in the Western tradition Surprisingly this thesis is approached from a great many angles all of which are within the Western South Asian or East Asian traditions Surely put this thesis will win out in the long run Although Neville writes for an English reading audience he engages with thinkers from all these traditions
