The Hellenistic Aesthetic:

The Hellenistic Aesthetic Barbara Hughes Fowler, 1989 Fowler's own insights are apparent throughout and they seem to distill the personal appreciation and understanding of a scholar who has devoted much of her career to both contemplating and enjoying Hellenistic poetry. This book would make an excellent background text for courses in later Greek and Roman art and it can be read with profit by anyone interested in exploring the character of Hellenistic culture. J. J. Pollitt, *American Journal of Archaeology*. Outstanding is the range of examples discussed both in poetry and art. Theocritus, Callimachus, Appollonius, the epigrammatists and others that is the major figures of the time are considered at length and in several different contexts. Passages are quoted in the original Greek translated and analyzed. Fowler's sensitivity to poetic forms evident in her other published writings is again evident here. In addition, however, the philosophical context is not overlooked. Also highly commendable are the liberal references to works of art. Sculpture in the round and in relief, portraits, terracotta figurines, original paintings, grave stelai and Campanian murals, mosaics, gold and silver vessels and jewelry are introduced at various points. Every work of art discussed is illustrated in astonishingly clear photographs which are interspersed in the body of the text. Christine Mitchell Havelock. *The Hellenistic Aesthetic* provides classicists with their first thorough discussion of the aesthetic unity found in Hellenistic art and literature. Fowler examines parallels both in subject matter and in artistic approach among a diverse group of literary genres and artistic forms. In twelve chapters *The Hellenistic Aesthetic* surveys Alexandrian epigrams, pastorals, epics, sculptural groups, mosaics, paintings and jewelry to supply a convincing and frequently unexpected picture of a unified aesthetic vision. Jeffrey Buller, *Classical Outlook*. **The Hellenistic Aesthetic** Barbara Hughes Fowler, 1989. An introduction to the Hellenistic Period c. 323-27 B.C. which saw the unification of the Mediterranean and Central Asia under the Greek culture and language. The author explores a range of subjects including poetry and literature, science, religion and art. *A Companion to Ancient Aesthetics* Pierre Destrée, Penelope Murray, 2015-04-28. The first of its kind. *A Companion to Ancient Aesthetics* presents a synoptic view of the arts which crosses traditional boundaries and explores the aesthetic experience of the ancients across a range of media: oral, aural, visual and literary. Investigates the many ways in which the arts were experienced and conceptualized in the ancient world. Explores the aesthetic experience of the ancients across a range of media treating literary, oral, aural and visual arts together in a single volume. Presents an integrated perspective on the major themes of ancient aesthetics which challenges traditional demarcations. Raises questions about the similarities and differences between ancient and modern ways of thinking about the place of art in society.
