The Hieroglyphic Monad:

The Hieroglyphic Monad John Dee, 2025-09-12 Written in thirteen days in 1564 by the renowned Elizabethan magus Dr John Dee The Hieroglyphic Monad explains his discovery of the monas or unity underlying the universe as expressed in a hieroglyph or symbol Dee called The Hieroglyphic Monad a magical parable based on the Doctrine of Correspondences which lies at the heart of all magical practice and is the key to the hermetic quest Through careful meditation and study of the glyph its secrets may be slowly revealed

The Hieroglyphic Monad John Dee, James Orchard-Halliwel, 2016-01-21 The Monas Hieroglyphica or Hieroglyphic Monad is an esoteric symbol invented and designed by John Dee the Elizabethan Magician and Court Astrologer of Elizabeth I of England In 1564 at the age of 37 Dee wrote the Monas Hieroglyphica as an interpretation or commentary on the symbol which is meant to express the unity of all creation According to legend Dee wrote the manuscript in twelve days while in a mystical state I am the pen merely of God Dee said whose Spirit quickly writing these things through me I wish and I hope to be He claimed it would revolutionize astronomy alchemy mathematics linguistics mechanics music optics magic and adeptship He traveled to Hungary to present a copy of it to Maximilian II the Holy Roman Emperor This edition includes the remnants of Dee's diary written primarily on the backs of old Almanacs and edited with footnotes by James Orchard Halliwell and also the catalog made of the manuscripts that were in his possession The diary has been formatted for easy readability and contains subject matter ranging from the daily minutia of paying servants to Dee's self treatments for his kidney stones to luncheons with famous historical figures and there is even a mention of a strange spiritual creature roaming about the house

[Ideography and Chinese Language Theory](#) Timothy Michael O'Neill, 2016-07-11 This book is a much needed scholarly intervention and postcolonial corrective that examines why and when and how misunderstandings of Chinese writing came about and showcases the long history of Chinese theories of language Ideography as such assumes extra linguistic trans historical universal ideas which are an outgrowth of Platonism and thus unique to European history Classical Chinese discourse assumes that language and writing is an arbitrary artifact

invented by sages for specific reasons at specific times in history Language by this definition is an ever changing technology amenable to historical manipulation language is not the House of Being but rather a historically embedded social construct that encodes quotidian human intentions and nothing more These are incommensurate epistemes each with its own cultural milieu and historical context By comparing these two traditions this study historicizes and decolonializes popular notions about Chinese characters exposing the Eurocentrism inherent in all theories of ideography Ideography and Chinese Language Theory will be of significant interest to historians sinologists theorists and scholars in other branches of the humanities
