Henry James

The Painters Eye Notes And Essays On The Pictorial Arts:

The Painter's Eye Henry James, 1989 Between 1868 and 1897 Henry James wrote a number of short essays and reviews of artists and art collections these essays were published in magazines such as Atlantic Monthly and Harper's Weekly and in newspapers such as the New York Tribune They included James's comments on Ruskin Turner Whistler Sargent and the Impressionists among many others Thirty of these essays were collected and first published in a modern edition in 1956 accompanied by John Sweeney's introduction which sketches James's interest in the visual arts over a period of years focusing on the ways in which painting and painters entered his work as subjects Susan Griffin's new forward places James's observations in a contemporary context Some of the novelist's judgements will seem wrong to today's readers he was critical of the Impressionists for example But all of these essays bear the stamp of James's critical intelligence and they tell us a great deal about his development as a writer during those years The Painter's Eye Henry James, 1956 *The painter's eye: notes and essays on the pictorial arts, selected and ed* Henry James,

The Painter's Eye. Notes and Essays on the Pictorial Arts by H. James. Selected and Edited with an Introduction by John L. Sweeney. [With a Portrait.]. Henry James, John L. SWEENEY, 1956 **The Painter's Eye, Notes and Essays on the Pictorial Arts, by Henry James...**

Edited... by John L. Sweeney Henry James, 1956 Realist Vision Peter Brooks, 2008-10-01 Realist Vision explores the claim to represent the world as it is Peter Brooks takes a new look at the realist tradition and its intense interest in the visual Discussing major English and French novels and paintings from the nineteenth and twentieth centuries Brooks provides a lively and perceptive view of the realist project Centering each chapter on a single novel or group of paintings Brooks examines the invention of realism beginning with Balzac and Dickens its apogee in the work of such as Flaubert Eliot and Zola and its continuing force in James and modernists such as Woolf He considers also the painting of Courbet Manet Caillebotte Tissot and Lucian Freud and such recent phenomena as photorealism and reality TV *Art and the Higher Life* Kathleen Pyne, 2010-07-22 Late in the nineteenth century many Americans were troubled by the theories of Charles Darwin which contradicted both traditional Christian teachings and the idea of human supremacy over nature and by an influx of foreign immigrants who challenged the supremacy of the old Anglo Saxon elite In response many people drew comfort from the theories of philosopher Herbert Spencer who held that human society inevitably develops towards higher and more spiritual forms In this illuminating study Kathleen Pyne explores how Spencer's theories influenced a generation of American artists She shows how the painters of the 1880s and 1890s particularly John La Farge James McNeill Whistler Thomas Dewing and the Boston school and the impressionist painters of the Ten developed an art dedicated to social refinement and spiritual ideals and to defending the Anglo Saxon elite of which they were members This linking of visual culture to the problematic conditions of American life radically reinterprets the most important trends in late nineteenth century American painting **The Victorians and the Visual Imagination** Kate Flint, 2000-08-28 The Victorians and the Visual Imagination

is an exciting and innovative exploration of the Victorians attitudes towards sight Tantalized by physiologists who proved the unreliability of the eye intrigued by the role of subjectivity within vision and provoked by new technologies of spectatorship the Victorians were also imaginatively stirred by the sense of a world which lay just out of human sight This interdisciplinary study draws on writers as diverse as George Eliot Elizabeth Barrett Browning and Rudyard Kipling as well as Pre Raphaelite and realist painters including Millais Burne Jones William Powell Frith and Whistler and a host of Victorian scientists cultural commentators and art critics Its topics include blindness the location of memory hallucination dust and the importance of the horizon a dazzling eclectic range of subjects linked together by the operations of the eye and brain *Edinburgh Companion to Jane Austen and the Arts* Hannah Moss, Joe Bray, 2024-05-31 Jane Austen was a keen consumer of the arts throughout her lifetime The *Edinburgh Companion to Jane Austen and the Arts* considers how Austen represents the arts in her writing from her juvenilia to her mature novels The thirty three original chapters in this Companion cover the full range of Austen s engagement with the arts including the silhouette and the caricature crafts theatre fashion music and dance together with the artistic potential of both interior and exterior spaces This volume also explores her artistic afterlives in creative re imaginings across different media including adaptations and transpositions in film television theatre digital platforms and games The Influence of Pre-Raphaelitism on Fin de Siècle Italy Giuliana Pieri, 2007 This volume is the first comprehensive study of the influence of English Pre Raphaelitism on Italian art and culture in the late nineteenth century Analysis of the cultural relations between Italy and Britain has focused traditionally on the special place that Italy had in the British imagination but the cultural and artistic exchanges between the two countries have been much misunderstood This book aims to correct this imbalance by placing Pre Raphaelitism in its European context It explores the nature of its influence on Italy how it was transmitted and how it was manifested by focusing on the role of Italian Anglophiles the English communities in Florence and Rome the writings of Gabriele D Annunzio and a number of Italian artists active in Tuscany and Rome The works of Cellini Ricci Gioja De Carolis and Sartorio in particular fully demonstrate the impact of Pre Raphaelitism on the young Italian school of painting which found in the English movement an ideal link with its glorious past on which it could build a new artistic identity These artists show that English Pre Raphaelitism was one of the most powerful single influences on fin de siècle Italian culture
