Illustrations of the Passion of Love. vol. 1, 2 ,1827 The Passion of Love in the Summa Theologiae of Thomas Aquinas
Daniel Joseph Gordon,2023-05-19 This book is an introduction to three questions on love according to St Thomas Aquinas Summa Theologiae I II qq 26 28 These three questions reflect on the nature of love q 26 the causes of love q 27 and the effects of love q 28 It is thus an introduction to the entire phenomenon of love both as a bodily passion and an act of the will The purpose is to present the Thomistic and broadly scholastic account of human and divine love from a philosophical and theological perspective It aims to be a theological and philosophical study of the topic useful both for a graduate professional audience as part of an undergraduate or graduate course and perhaps for the educated reader The thesis of the book is that contrary to contemporary conceptions not all loves are created equal Some loves perfect us and some loves corrupt us The worth of a love depends on its object and end St Thomas thus presents an objective and teleological account of human and divine love that is of philosophical and theological interest The method is broadly exegetical presenting a careful reading of the text and supplying the philosophical and theological background which the text of Aquinas assumes The scope of the work is limited to three questions ST I II qq 26 28 References to interpretative disputes of Aquinas and references to further resources in the secondary literature will be mostly limited to the footnotes making the body of the text accessible to more readers **Illustrations of the Passion of Love** ,1829 Melancholy; as it proceeds from the disposition and habit, the passion of love, and the influence of religion. Drawn chiefly from ... Burton's Anatomy of Melancholy, etc Robert BURTON (Author of "The Anatomy of Melancholy.".),1801 **The Passion of His Love** Sila Grimm,2022-03-29 This book is a collection of poems that stems from the deepest depths of God s love demonstrated at the cross Its views will give you a glimpse of God s creativity and passion for love and the assurance of his sacrifice and freedom to all mankind **The Passion of Possibility** Ingolf U. Dalferth,2023-02-20 For Kierkegaard the most important thing in life is to become a single individual or a true self We are all born as human beings but this makes us only members of a crowd not true selves To become a true self we must transcend what we are at any given time and orient ourselves to the possible and to the actuality of the possible to which all that is possible owes itself True selves exist only in becoming they are fragile and that is their strength They are not grounded by their own activities but in a reality extra se the flip side of which is a deep passivity that underlies all their activity and allows them to continually leave themselves and move beyond their respective actualities

toward the new and the possible Therefore without the passion of possibility there is no truly single individual This study of Kierkegaard's post metaphysical theology outlines his existential phenomenology of the self by exploring in three parts what Kierkegaard has to say about the sense of self finitude uniqueness self interpretation and alienation about selfless passion anxiety trust hope and true love and about how to become a true self a Christian in Christendom and a neighbor of God's neighbors
