Pyyhtinen, 2010-09-17 This book argues for the centrality of Georg Simmel s social theory to the relational and processual emphases that are often considered as much more recent developments in social theory Situating Simmel s work in particular with respect to New Vitalism and Bruno Latour s work the book shows that Simmel has still an enormous amount to contribute **Sociology at the London School of Economics and Political Science, 1904-2015** Christopher T.

Husbands, 2019-03-14 This book provides an original overall account of the history of sociology at the London School of Economics and Political Science where the first sociology course as part of a conventional university degree programme in the UK was taught Thus the book is unique in its contribution to an important part of the history and development of sociology in the UK The chapters discuss the names that at least until the post war period are identified as central to the early phase of British sociology Husbands documents the impact and influence of these leading figures through material in numerous previously little used archives Also explored are the culture of LSE Sociology students their attitudes political orientations and academic attainments The reputation and influence of LSE Sociology on the general development of the subject in the UK are also assessed The book will be of interest to sociology students and scholars wanting to know about the

Revolutionary Tunisia Stefano Pontiggia,2021-10-18 In *Revolutionary Tunisia Inequality Marginality and Power* Stefano Pontiggia examines marginality and inequality in Tunisia through the stories of people living in Redeyef a mining town in the Tunisian south that is well known for its militant past Considering the ongoing formation of the post revolutionary Tunisian state Pontiggia explores the extent to which state led institutions local power relations the social structure and the dynamics of space production coincide to perpetuate inequality Far from being a process of exclusion from wealth and development Pontiggia asserts marginality is instead synonymous with a gradual integration of territories and populations into a socio territorial hierarchy that is rooted in the colonial experience What emerges is a country whose revolution is characterized by change as much as continuity with the past

A Feminist Post-transsexual Autoethnography Julie Peters,2018-08-14 Gender as a social class along with its concomitant heteronormative gender coercion seem to be intransigent across time and cultures But across these cultures we also see a degree of nonconforming behaviour which very often carries significant multi dimensions of stigma and risk because the exception proves the rule an understanding of gender nonconformity sheds light on the normative operation of gender in society A Feminist Post transsexual Autoethnography attempts to demythologise trans and gender diversity by conducting an in depth critical analysis of the life choices of the autoethnographic subject the author who was so uncomfortable with their culturally allocated masculinity that they chose to live an apparently normal female life The research is post transsexual in that the subject forgoes passing in their affirmed gender to ensure the integrity of the data A Feminist Post transsexual Autoethnography may primarily appeal to students and researchers interested in the Sociology of Gender and Sociology of Trans and Gender Diversity as well as the broader areas of embodiment and power differentials based on gender class nationality location temporality sexuality and gender non conformity This insightful volume may also be of interest to those within the fields Health Promotion and Education Human Rights Social Justice and Equity or the Social and Cultural Anthropology of Gender

Social Problems ,1953
