The People of the Sea Paul D'Arcy, 2006-01-01 Countering the dominant paradigms of recent Pacific Islands historiography which tend to limit understanding of the sea's importance this volume emphasizes the flux in the maritime environment and how it instilled an expectation and openness toward outside influences and the rapidity with which cultural change could occur in relations between various Islander groups Students and scholars of Pacific history and environmental and cultural studies will welcome this re-evaluation of the sea's influence in Oceanic history **BOOK JACKET** [The People of the Sea](#) David Thomson, 1965 [The meeting of The Military Council under the People's Commissar of Defense of the USSR June 1-4, 1937](#) Erdogan A, 2021-02-02 Tukhachevsky Trotsky Collaboration **The People's Republic of China Today** Zhiqun Zhu, 2011 Despite the significant progress it had achieved in the past 60 years especially in the past 30 years since Deng Xiaoping's reform initiatives in the late 1970s China faces daunting challenges today These challenges include among others a rigid political system that does not match economic vibrancy uneven economic growth and widening income gap a graying population environmental degradation potential social instability ethnic tensions and separatist movement poor international image and military modernization Based on papers originally presented at an international conference held at Bucknell University in Pennsylvania to mark the 60th anniversary of the People's Republic of China PRC this book provides an up to date comprehensive and authoritative assessment of the PRC's political economic social ethnic energy security military diplomatic and other developments and challenges today Contributed by scholars and experts in political science international relations economics public administration history mass communication psychology and diplomacy the book focuses on the efforts needed by China to grow in a sustainable manner and to become a respected global power With each chapter addressing a different and yet an inter-related issue of the PRC's development this book aims to make a significant contribution to the understanding of key challenges the country faces today as it strives to become a global power *The People's Medical Journal, and Family Physician*, 1850 **The People's Book of Ancient and Modern History** Henry Howard Brownell, 1854 [Climate Change and the People's Health](#) Sharon Friel, 2018-12-03 Climate change and social inequity are both sprawling insidious forces that threaten populations around the world It's time we start talking about them together Climate Change and the People's Health offers a brave and ambitious new framework for understanding how our planet's two greatest existential threats come together and complement and amplify one another and what can be done to mitigate future harm In doing so it posits three new modes of thinking That climate change interacts with the social determinants of health and exacerbates existing health inequities The idea of a consumptagenic system a network of policies processes governance and modes of understanding that fuel unhealthy and environmentally destructive production and consumption The steps necessary to move from denial and inertia toward effective mobilization including economic social and policy interventions With insights from physical science social science and humanities this short book examines how climate change

and social inequity are indelibly linked and considering them together can bring about effective change in social equity health and the environment
