## **Sociology Of Marx:**

The Sociology of Marx Henri Lefebvre, 1982 This classic study by Henri Lefebvre raises the question whether today we must study Marx as we study Plato or rather whether Marx's work retains a contemporary value and significance in other words whether his work contributes to an elucidation of the contemporary world For Lefebvre Marx's thought remains a key perhaps even the key to an understanding of modern societies and modern reality *Marxist Sociology* T. B.

Bottomore, 1975 In one of the few systematic discussions of Marxism as a sociological theory since Lefebvre's *Sociology of Marx* Tom Bottomore the well known author of *Sociology Classes in Modern Society* and *Critics of Society* examines the relationship between Marxism and Sociology But where Lefebvre starts out from the point of view of a justification of Marxism in which sociology is treated rather unfavorably Bottomore considers how far Marxism is itself a useful sociological theory Professor Bottomore looks first at the historical relationship between Marxism and Sociology considering the responses of Marxist scholars to the development of Sociology and the influence of Marxism upon some of the major sociological thinkers He then goes on to analyze the principal sociological concepts and theories in Marx's work and the works of the later Marxists in particular He discusses the notions of class and class conflict the relations between economy polity and culture the concept of ideology the theory of revolutionary change and the idea of a socialist society His conclusion explores the possibilities of new developments in a Marxist sociology This long awaited book will be of great value to sociology students taking courses on sociological theory the history of sociological thought and Marxism as well as to students of political science and social and political philosophy Tom Bottomore is Professor of Sociology at the University of Sussex The series *Studies in Sociology* is edited for the British Sociological Association by Anthony Giddens Lecturer in Sociology at the University of Cambridge Editorial Advisers Tom Bottomore Professor of Sociology University of Sussex David Lockwood Professor of Sociology University of Essex and Ernest Gellner Professor of Sociology at the London School of Economics

**Karl Marx on Society and Social Change** Karl Marx, Friedrich Engels, 1973 This volume presents those writings of Marx that best reveal his contribution to sociology particularly to the theory of society and social change The editor Neil J Smelser has divided these selections into three topical sections and has also included works by Friedrich Engels The first section *The Structure of Society* contains Marx's writings on the material basis of classes the basis of the state and the basis of the family Among the writings included in this section are Marx's well known summary from the Preface of *A Contribution to a Critique of Political Economy* and his equally famous observations on the functional significance of religion in relation to politics The second section is titled *The Sweep of Historical Change* The first selection here contains Marx's first statement of the main precapitalist forms of production The second selection focuses on capitalism its contradictions and its impending destruction Two brief final selections treat the nature of communism particularly its freedom from the kinds of contradictions that have plagued all earlier forms of societies The last section *The Mechanisms of Change* reproduces several

parts of Marx's analysis of the mechanisms by which contradictions develop in capitalism and generate group conflicts. Included is an analysis of competition and its effects on the various classes, a discussion of economic crises and their effects on workers, and Marx's presentation of the historical specifics of the class struggle. In his comprehensive Introduction to the selections, Professor Smelser provides a biography of Marx, identifies the various intellectual traditions which formed the background for Marx's writings, and discusses the selections which follow. The editor describes Marx's conception of society as a social system, the differences between functionalism and Marx's theories, and the dynamics of economic and political change as analyzed by Marx.

**Understanding Classical Sociology** John A. Hughes, Wes Sharrock, Peter J. Martin, 2003-03-18 Praise for the First Edition: Totally reliable; the authors have produced a book urgently needed by all those charged with introducing students to the classics; quite indispensable. Times Higher Education Supplement. This is a fully updated and expanded new edition of the successful undergraduate text. Providing a lucid examination of the pivotal theories of Marx, Durkheim, and Weber, the authors submit that these figures have decisively shaped the discipline. They show how the classical apparatus is in use even though it is being directed in new ways in response to the changing character of society. Written with the needs of undergraduates in mind, the text is essential reading for students in sociology and social theory.

**Marx and Mead** Tom Goff, 2014-08-13 It has often been suggested that a resolution of issues generated by the sociological study of ideas might be reached through a synthesis of specific insights to be found in the works of Karl Marx and George Herbert Mead. The present study originated in an investigation of this hypothesis, particularly as it bears on the central issue of sociological relativism. The author began by delineating the specific problems such a synthesis might resolve and in the process became aware that the nature and depth of differences separating the sociology of knowledge and its critics have never been fully analysed or understood. This volume therefore opens with a clarification of these differences, a clarification which leads to considerable redefinition of the problem as it has traditionally been understood by critics and proponents of the discipline alike. The author points out in particular that it is less a debate than a thoroughgoing contradiction which characterizes the literature dealing with the inadequacies of various formulations of the sociology of knowledge. In consequence, the study of Marx and Mead presented here is not simply yet another effort to discover a perspective which will satisfy the particular demands of the critics. Rather, it argues that an adequate perspective, fully consistent with the central insight of the discipline, that knowledge is radically social in character, is to be found in a synthesis of elements in the perspectives of Marx and Mead.

**The Antinomies of Classical Thought: Marx and Durkheim (Theoretical Logic in Sociology)** Jeffrey Alexander, 2014-04-24 This volume challenges prevailing understanding of the two great founders of sociological thought In a detailed and systematic way the author demonstrates how Marx and Durkheim gradually developed the fundamental frameworks for sociological materialism and idealism While most recent interpreters of Marx have placed alienation and subjectivity at the centre of his work Professor Alexander suggests that it was the later Marx's very emphasis on alienation that allowed him to avoid conceptualizing subjectivity altogether In Durkheim's case by contrast the author argues that such objectivist theorizing informed the early work alone and he demonstrates that in his later writings Durkheim elaborated an idealist theory that used religious life as an analytical model for studying the institutions of secular society

Capitalism and Modern Social Theory Anthony Giddens, 1973-02-08 Giddens's analysis of the writings of Marx Durkheim and Weber has become the classic text for any student seeking to understand the three thinkers who established the basic framework of contemporary sociology The first three sections of the book based on close textual examination of the original sources contain separate treatments of each writer The author demonstrates the internal coherence of their respective contributions to social theory The concluding section discusses the principal ways in which Marx can be compared with the other two authors and discusses misconceptions of some conventional views on the subject

Sociology, Phenomenology and Marxian Analysis Barry Smart, 2013-10-15 Sociology is an established academic discipline but there has been continuing debate over its status as a science and the nature of its subject matter This led to the emergence of a phenomenological sociology and to critiques of positivist sociology This critical reappraisal of the relevance of Marxian analysis for a science of society shows how these developments within sociology have had their counterpart in Marxism The author analyses the status of Marx's work and the

Marxist tradition in sociology He focuses upon those concerns which are common to both Marxian analysis and sociology the question of subjectivity the nature of social reality and the dialectical relationship of the doing or practice of a science of society to the social world within which such social analyses are situated Originally published in 1976 Crisis and Change Today Peter Knapp, Alan Spector, 2011-01-16 Crisis and Change Today provides a solid introduction to Marxist social theory The work's unique voice is expressed in its Socratic dialogic approach structured around forty questions that students have about society and social change Topics range from theories of history economics unemployment racial oppression the state fascism the collapse of the Soviet bloc and points of convergence and difference between the dialectical approach and other approaches to social science The content and tone of the work invites students to evaluate various traditional and current explanations of social institutions and social processes and encourages them to weigh the debates and investigate further The first edition was very well received Distinguished Scholarship Award of the Section on Marxist Sociology of the ASA and the second edition has been thoroughly revised and updated to be relevant for students today Though the first edition was written during the wake of the fall of the Berlin Wall and the collapse of the Soviet Union the growing gap between the rich and the poor and the economic crisis have generated more interest in using Marxist analysis both as a tool to analyze and understand capitalism and the weaknesses of past Marxist praxis *Marx's Wager* Thomas Kemple, 2022-10-13 Marx's masterpiece Capital Das Kapital ignored or misread as well as selectively and creatively interpreted by the generation of social scientists that came after him Emile Durkheim Max Weber and Georg Simmel attempt to supplement what they call historical materialism or to engage in debates about socialism through their readings of The Communist Manifesto and occasional Capital Although these and other classical sociologists did not have access to most of Marx's published and unpublished works as we do today each is concerned with revising and refining Marx's unfinished critique of political economy Despite their differences with Marx and with one another they share his concern with how empirically detailed and scientifically valid knowledge of the social world may inform historical struggles for a more human world This commitment can be called Faustian after the title character of the poet J W von Goethe's tragic epic of modernity insofar as Marx and the classical sociologists hope to translate theory into practice while making a pact or wager with the diabolical social political and economic forces of the modern world *Max Weber and Value Free Sociology* John Lewis, 1975 **Marxist Sociology Revisited** Martin Shaw, 1985-07-29 Karl Marx T.
