The Clarity Of Light:

Practical Theology Peter Kreeft, 2014-10-17 Saint Thomas Aquinas has been admired throughout the ages for his philosophical brilliance and his theological sanity but author and professor Peter Kreeft thinks the practical spiritual wisdom of Aquinas is just as amazing In this book Kreeft brings together 358 useful everyday insights from Aquinas masterpiece the Summa Theologiae He pairs these easily digestible quotes from the Summa with his own delightfully written commentary in order to answer the kinds of questions real people ask their spiritual directors These 358 passages from the Summa have helped Kreeft in his own struggles to grow closer to the Lord His practical personal and livable advice is the fruit of his labors to apply the insights of Aquinas to his own quest for sanctity happiness and union with God *Letters of Light*

Kalonymus Kalman Epstein, Aryeh Wineman, 2015-02-06 Letters of Light is a translation of over ninety passages from a well known Hasidic text Ma or va shemesh consisting of homilies of Kalonymus Kalman Epstein of Krakow together with a running commentary and analysis by Aryeh Wineman With remarkable creativity the Krakow preacher recast biblical episodes and texts through the prism both of the pietistic values of Hasidism with its accent on the inner life and the Divine innerness of all existence and of his ongoing wrestling with questions of the primacy of the individual vis a vis that of the community The commentary traces the route leading from the Torah text itself through various later sources to the Krakow preacher's own reading of the biblical text one that often transforms the very tenor of the text he was expounding Though composed almost two centuries ago Ma or va Shemesh comprises an impressive spiritual statement many parts of which can speak to our own time and its spiritual strivings **Sugar News**, 1929 Light and Glory Aaron Canty, 2011 The story of Jesus's transfiguration as recorded in the synoptic gospels has proved to be a fruitful source of theological reflection since the time of the Early Church Although Christ's luminous and glorious transformation is the central event the transfiguration story possesses a number of other interesting facets including the role of the Trinitarian Persons the transformation of the disciples and the presence of Moses and Elijah The story also raises a number of Christological issues including the relationship between Christ's divinity and humanity and the nature of His body before and after His resurrection The narrative placement of this event before Christ's passion death and resurrection invites reflection on soteriological and eschatological themes as well This fairly brief episode in Christ's life thus unites a number of closely related themes in a short dense and very rich narrative Light and Glory offers an engaging comparison of the teachings of seven thirteenth century theologians three Franciscans and four Dominicans on the subject of the transfiguration of Christ The Franciscan authors discussed are Alexander of Hales John of La Rochelle and Bonaventure The Dominicans examined are Hugh of St Cher Gueric of St Quentin Albert the Great and finally Thomas Aquinas Given the roughly chronological nature of the book's discussion the influence of earlier writers in the group is shown on the later writers Development within a particular author's understanding of the transfiguration is noted as well as the influence of each author's thought on others Through their

teachings and writings these seven theologians created a profound scholastic expression of what Christ's transfiguration was and what it meant for Christians in their day ABOUT THE AUTHOR Aaron Canty is associate professor of religious studies at Saint Xavier University PRAISE FOR THE BOOK Although there is considerable literature on Eastern readings of the Transfiguration and in patristic authors there has been little meaningful study of the transfiguration in the high medieval authors Canty makes available a period of development of doctrine that has otherwise passed into obscurity John Cavadini chair Department of Theology University of Notre Dame Lucidly organized and clearly written this book is a marvelous and perceptive study of seven reflections on the transfiguration of Christ during the roughly four decades that separate the first mendicant friars from Thomas Aquinas Canty deftly puts this conversation in patristic context and draws lines of continuity from the Early Church to the high medieval discussion Drawing on a range of sources including biblical commentaries commentaries on Peter Lombard's Sentences disputed questions and summae Canty successfully proves that the friars themselves highly influenced by ancient thought on this key episode in the gospels made their own unique contribution to its interpretation Kevin Madigan Winn Professor of Ecclesiastical History Harvard Divinity School Time and again theologians and spiritual authors were intrigued by the story of the transfiguration of Christ its theological implications and its rich symbolism Canty's thorough study unveils how the masterminds of the thirteenth century confronted the familiar account with unexpected questions and startling interpretations Fascinated by the person of Jesus Christ the early mendicant theologians produced a theologically rich and unique blend of biblical exegesis and systematic christology meaningful beyond the boundaries of its medieval setting Thomas Prigl Professor of Church History University of Vienna Canty is sensitive to the ways in which exegetical literature begs to be read in a different light than other Scholastic writing but he shows clearly that he

Beierwaltes Lux Intelligibilis: Investigation on the Metaphysics of Light of the Greeks Gustavo Riesgo, 2025-09-29

Thus far unpublished even in its original German Lux intelligibilis Investigation on the Metaphysics of Light of the Greeks submitted by Werner Beierwaltes as a doctoral dissertation in 1957 is presented here for the first time in English translation Beierwaltes investigation begins by describing the metaphoric and symbolic power attributed to light in the foundational texts of Greek antiquity The analysis also examines the theophany or divine manifestation through light apparitions particularly in the context of the Eleusinian mysteries It then traces the shift from a symbolism of light to a metaphysics of light that beginning with Pythagoras and Parmenides takes on its full form with the impactful Platonic insight of the light like nature of the intelligible This is a programmatic work that presents in embryonic form themes that would later be revisited by the author throughout his vast body of work Beierwaltes thus begins his journey through some of the central themes of the Neoplatonic tradition and its later reception a journey that will lead him to dwell on thinkers of the stature of Eriugena Meister Eckhart and Nicholas of Cusa The English translation of Lux intelligibilis Investigation on the Metaphysics of Light of the Greeks is accompanied by an introduction to the person and work of Werner Beierwaltes by Claudia D Amico as well as by a substantial Essay as PostScriptum by Enrico Peroli which allow the reader to grasp the enormous contribution of the original text The English translation has been revised by Tadeo Lima and the tracing and careful transcription of the Greek and Latin sources and references was carried out by Ezequiel Ludue a **Light: The Shape of Space** Lou

Michel, 1995-10-27 Light The Shape of Space Designing with Space and Light Lou Michel Every design professional who touches a space shapes the light and the feeling of that space Architect lighting engineer interior designer lighting or home furnishing manufacturer each contributes an aesthetic layer sometimes yielding unexpected results All too often the best laid plans of one professional are unintentionally subverted by another Removing surprises and guess work from design Lou Michel honored architectural lighting educator has created Light The Shape of Space showing how to design with the effects of light rather than light itself The book is a revolutionary resource for all design professionals and manufacturers of surfacing materials Drawing on over fifteen years experience of research and teaching in the architectural Space and Light Laboratory at The University of Kansas Michel masterfully examines the interrelationship of lighting and the design of architectural space as perceived not in architectural photos or paint chips and fabric swatches but by human vision the gateway to emotional response The book was written for professionals who care about how people feel in the spaces they design and focuses on the humanization of architecture Taking a non stylistic approach to design Michel analyzes architecture from the perspective of how the users see their surroundings as they move through space The reader will learn what pleases and what disturbs people based on how the human visual system responds to color texture pattern and brightness The book features principles of design for the student and professional and is generously supported by illustrations and research Michel also provides a method for evaluating the visual effectiveness of building materials and

lighting systems including those that will appear on the market long after this book is dog eared Michel unveils a groundbreaking luminance brightness rating system LBR and a nine zone brightness scale to aid designers in previsualizing the appearance of surfacing materials at every stage of the design process from schematics to development to refinement Among the topics treated are the interaction of lighting and spatial design color theory for space and light the luminance relationships between free standing objects and the surrounding spatial boundaries against which they are seen the appearance of building materials in color and brightness when modified by light and spatial location lighting spatial connections including the perception of rooms adjacent to the observer lighting and perception of spaces screened by architectural grilles creating lighted space Designing with the effects of light is both an art and a science No other book on the market bridges that gap as successfully as Light The Shape of Space SPE/ANTEC 2000 Proceedings Spe,2000-05-05 Volume 2 of the conference proceedings of the SPE Antac on Materials held on the 711 May 2000 in Orlando Florida USA
