The Modernization of Fatherhood Ralph LaRossa, 1997 The period between World War I and World War II was an important time in the history of gender relations and of American fatherhood Revealing the surprising extent to which some of yesterday's fathers were involved with their children, *The Modernization of Fatherhood* recounts how fatherhood was reshaped during the Machine Age into the configuration we know today LaRossa explains that during the interwar period the image of the father as economic provider, pal, and male role model all in one became institutionalized Using personal letters and popular magazine and newspaper sources, he explores how the social and economic conditions of the Roaring Twenties and the Great Depression, a period of technical innovation as well as economic hardship, fused these expectations into a cultural ideal With chapters on the U.S. Children's Bureau, the fathercraft movement, the magazine industry, and the development of *Parent's Magazine* and the creation of Father's Day, this book is a major addition to the growing literature on masculinity and fatherhood

The Bottle, The Breast, and the State Maureen Rand Oakley, 2015-07-01 *The Bottle, the Breast, and the State: The Politics of Infant Feeding in the United States* explores the ways in which breastfeeding is both promoted and made difficult in the United States It also examines how the use of formula is often shamed yet encouraged by many standard medical and government practices Using both qualitative and quantitative

methods it explores the politics policies and individual experiences surrounding infant feeding Oakley shows that a failure to separate the issue of breastfeeding rights and support from problematic approaches to breastfeeding advocacy in both academic scholarship and public discourse has led to a deadlock that prevents groups from working together in support of breastfeeding without shaming Drawing on a feminist ethic of care Oakley develops a caring infant feeding advocacy This approach values the caring work done by parents and recognizes the benefits of this work for society It promotes policies supportive of parenting in general and breastfeeding in particular in order to remove barriers that present a challenge to some women who wish to breastfeed Caring infant feeding advocacy also works to promote the development of better alternatives for those who do not breastfeed *Formative Years* Alexandra Minna Stern, Howard Markel, 2009-12-18 Sheds light on the development of the fields of pediatrics and child health during the last century The Kelloggs Howard Markel, 2018-07-10 2017 National Book Critics Circle Award Finalist for Nonfiction What's more American than Corn Flakes Bing Crosby From the much admired medical historian Markel shows just how compelling the medical history can be Andrea Barrett and author of *An Anatomy of Addiction* Absorbing vivid Sherwin Nuland The New York Times Book Review front page the story of America's empire builders John and Will Kellogg John Harvey Kellogg was one of America's most beloved physicians a best selling author lecturer and health magazine publisher founder of the Battle Creek Sanitarium and patron saint of the pursuit of wellness His youngest brother Will was the founder of the Battle Creek Toasted Corn Flake Company which revolutionized the mass production of food and what we eat for breakfast In *The Kelloggs* Howard Markel tells the sweeping saga of these two extraordinary men whose lifelong competition and enmity toward one another changed America's notion of health and wellness from the mid nineteenth to the mid twentieth centuries and who helped change the course of American medicine nutrition wellness and diet The Kelloggs were of Puritan stock a family that came to the shores of New England in the mid seventeenth century that became one of the biggest in the county and then renounced it all for the religious calling of Ellen Harmon White a self proclaimed prophetess and James White whose new Seventh day Adventist theology was based on Christian principles and sound body mind and hygiene rules Ellen called it health reform The Whites groomed the young John Kellogg for a central role in the Seventh day Adventist Church and sent him to America's finest Medical College Kellogg's main medical focus and America's number one malady indigestion Walt Whitman described it as the great American evil Markel gives us the life and times of the Kellogg brothers of Battle Creek Dr John Harvey Kellogg and his world famous Battle Creek Sanitarium medical center spa and grand hotel attracted thousands actively pursuing health and well being Among the guests Mary Todd Lincoln Amelia Earhart Booker T Washington Johnny Weissmuller Dale Carnegie Sojourner Truth Henry Ford John D Rockefeller Jr and George Bernard Shaw And the presidents he advised Taft Harding Hoover and Roosevelt with first lady Eleanor The brothers Kellogg experimented on malt wheat and corn meal and tinkering with special ovens and toasting devices came up with a ready to eat easily digested cereal they called Corn Flakes As Markel
