The Heritage Ellen Bromfield Geld,2011-10-01 **The Heritage. A Daughter's Memories of Louis Bromfield. (1. Ed.)** Ellen Bromfield Geld,1962 *The Heritage* Ellen Bromfield Geld,2017-04-07 First published in 1962 in this lively outspoken and affectionate memoir are all the things Louis Bromfield loved and hated fought for or against in a life marked by surging vitality and gusto He came of an Ohio family whose roots once were in the land before the land was lost He knew early that the life of a small town was not for him He had from his father a love of the land and from his wilful mother a hunger to know the world So he went off to taste of the world first briefly in college then in France during the First World War When it ended and he returned to New York he was quickly immersed in a life compounded simultaneously of several jobs theaters concerts parties courtship and marriage good living and the writing of novels that brought quick success It was a rapid and fantastic success in many ways and he was able to move his family to France and live there in a way that marked his life always surrounded by opinionated helpers independent minded children raucous pets and hordes of visitors who converged upon Senlis for Sunday lunch and bellowed their way through in setting but not in kind Again he drew into his orbit people of all kinds and all convictions refusing acceptance only to the dull of spirit As his family grew up and the years went by he gave them all his passionate conviction of the reality of the land above all and this is the heritage Ellen Geld carries on today in Brazil Encyclopedia of the American Novel Abby H. P. Werlock,2015-04-22 Praise for the print edition no other reference work on American fiction brings together such an array of authors and texts as this Phenomenology 2010. Volume 5: Selected Essays from North America, Part 2: Phenomenology beyond Philosophy Barber, Michael,Embree, Lester,Nenon, Thomas,2010-01-01 Modern American Environmentalists George A. I ambulance driver a Paris expat and a Pulitzer Prize winning novelist as famous in the 1920s as Hemingway or Fitzgerald But he cashed in his literary success to finance a wild agrarian dream in his native Ohio The ideas he planted at his utopian experimental farm Malabar would inspire America's first generation of organic farmers and popularize the tenets of environmentalism years before Rachel Carson's *Silent Spring* A lanky Midwestern farm boy dressed up like a Left Bank bohemian Bromfield stood out in literary Paris for his lavish hospitality and his green thumb He built a magnificent garden outside the city where he entertained aristocrats movie stars flower breeders and writers of all stripes Gertrude Stein enjoyed his food Edith Wharton admired his roses Ernest Hemingway boiled with jealousy over his critical acclaim Millions savored his novels which were turned into Broadway plays and Hollywood blockbusters yet Bromfield's greatest passion was the soil In 1938 Bromfield returned to Ohio to transform 600 badly eroded acres into a thriving cooperative farm which became a mecca for agricultural pioneers and a country retreat for celebrities like Humphrey Bogart and Lauren Bacall who were married there in 1945 This sweeping biography unearths a lost icon of American culture a fascinating hilarious and unclassifiable character who between writing and plowing also dabbled in global politics and high society Through it all he fought for an agriculture that would enrich the soil and protect the planet While Bromfield's name has faded into obscurity his mission seems more critical today than ever before

Writing the Land Daniel G. Payne, 2009-05-05 At the time of his death in 1921 John Burroughs 1837-1921 was America's most beloved nature writer a best selling author whose friends and admirers included Walt Whitman Theodore Roosevelt John Muir Henry Ford and Thomas Edison Burroughs was second only to Emerson in fostering the nature study movement of the nineteenth century and the popularity of his work inspired Houghton Mifflin to publish or reissue the work of numerous other nature writers including that of Thoreau and Muir His first collection of essays *Wake Robin* was published in 1871 and over the next fifty years Burroughs wrote almost two dozen books and hundreds of essays not only on nature but on literature travel philosophy religion and science By the turn of the century Burroughs was America's most beloved nature writer whose friends and admirers included Walt Whitman Theodore Roosevelt John Muir Henry Ford and Thomas Edison Burroughs died in 1921 while on a train ride back to his New York from California His final words *Are we home yet* were a remarkably fitting coda to the career of a writer so closely identified with his native Catskill region of New York State In many of his essays Burroughs explores the woods and fields of home and in doing so like Henry Thoreau and his explorations of Concord Massachusetts he transcends the local and examines the universal theme of our relation with nature and our native landscape Burroughs's emphasis on place and the local now seems modern once again as the current interest in bioregionalism and climate change demonstrates it has become increasingly evident that thinking locally is thinking globally Since 1992 the SUNY College at Oneonta has hosted the biannual John Burroughs Nature Conference and Seminar *Sharp Eyes* which honors the influence of Burroughs on American nature writing Distinguished keynote speakers who have addressed the conference include John Elder John Tallmadge Joy Harjo Robin Wall

Kimmerer Edward Kanze James Perrin Warren and Edward J Renehan Jr The scope of the conference is not limited solely to Burroughs however as each year the writers and scholars in attendance direct their attention toward a particular issue of significance to contemporary nature writers and scholars of environmental literature The theme of this collection Writing the Land John Burroughs and his Legacy was featured in the 2006 conference and includes essays on John Burroughs as well as essays on the work of other writers who like Burroughs are linked closely through their work to a particular landscape or region The third and final section of this book features invited essays by three distinguished scholars John Tallmadge Robert Beuka and Charlotte Zo Walker who consider the topic of what writing about the land and nature means from three different perspectives urban suburban and rural

The Georgic Mode in Twentieth-Century American Literature Ethan Mannon, 2024-02-02 The Georgic Mode in Twentieth Century American Literature The Satisfactions of Soil and Sweat explores environmental writing that foregrounds labor Ethan Mannon argues that Virgil's Georgics as well as the georgic mode in general exerted considerable influence upon some of America's best known writers including Robert Frost Willa Cather and Wendell Berry and that these and others worked to revise the mode to better fit their own contexts This book also outlines the contemporary value of the georgic literary tradition two thousand years of writing that begins with the premise that humans must use the world in order to survive and search for a balance between human needs and nature's productive capacity In the georgic mode authors found an adaptable discourse that enabled them to advocate for the protection and responsible use of productive lands present rural places and people in all of their complexity explore human relationships with laboring animals and advertise the sensory pleasures of rooted work
