The Ottoman Slave Trade And Its Suppression:

The Ottoman Slave Trade and Its Suppression Ehud R. Toledano, 2014-07-14 This book is a historical account of the slave trading system of the Ottoman Empire in the second half of the nineteenth century and of the attempts which were eventually successful to suppress it Originally published in 1983 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *The Economics of the Indian*

Ocean Slave Trade in the Nineteenth Century William Gervase Clarence-Smith, 2013-12-16 First Published in 1989 Well over a million slaves were exported from Indian Ocean and Red Sea ports in Eastern Africa during the nineteenth century and millions more were shifted around the interior of the continent and along the coast of East Africa And yet we still know remarkably little about this great movement of people particularly from an economic point of view This is a collection of twelve essays looking at the economics of the Indian Ocean and the Red Sea Slave trades of the nineteenth century **The Black Eunuchs of the Ottoman Empire** George H. Junne, 2016-06-22 The Chief Black Eunuch appointed personally by the Sultan had both the ear of the leader of a vast Islamic Empire and held power over a network of spies and informers including eunuchs and slaves throughout Constantinople and beyond The story of these remarkable individuals who rose from difficult beginnings to become amongst the most powerful people in the Ottoman Empire is rarely told George Junne places their stories in the context of the wider history of African slavery and places them at the centre of Ottoman history The Black Eunuchs of the Ottoman Empire marks a new direction in the study of courtly politics and power in Constantinople

The Anti-Slavery Project Joel Quirk, 2011-05-26 It is commonly assumed that slavery came to an end in the nineteenth century While slavery in the Americas officially ended in 1888 millions of slaves remained in bondage across Africa Asia and the Middle East well into the first half of the twentieth century Wherever laws against slavery were introduced governments found ways of continuing similar forms of coercion and exploitation such as forced bonded and indentured labor Every country in the world has now abolished slavery yet millions of people continue to find themselves subject to contemporary forms of slavery such as human trafficking wartime enslavement and the worst forms of child labor The Anti Slavery Project From the Slave Trade to Human Trafficking offers an innovative study in the attempt to understand and eradicate these ongoing human rights abuses In The Anti Slavery Project historian and human rights expert Joel Quirk examines the evolution of political opposition to slavery from the mid eighteenth century to the present day Beginning with the abolitionist movement in the British Empire Quirk analyzes the philosophical economic and cultural shifts that eventually resulted in the legal abolition of slavery By viewing the legal abolition of slavery as a cautious first step rather than the end of the story he

demonstrates that modern anti slavery activism can be best understood as the latest phase in an evolving response to the historical shortcomings of earlier forms of political activism By exposing the historical and cultural roots of contemporary slavery The Anti Slavery Project presents an original diagnosis of the underlying causes driving one of the most pressing human rights problems in the world today It offers valuable insights for historians political scientists policy makers and activists seeking to combat slavery in all its forms

Abolition and Its Aftermath in the Indian Ocean Africa and Asia Gwyn Campbell,2013-01-11 This important collection of essays examines the history and impact of the abolition of the slave trade and slavery in the Indian Ocean World a region stretching from Southern and Eastern Africa to the Middle East India Southeast Asia and the Far East Slavery studies have traditionally concentrated on the Atlantic slave trade and slavery in the Americas In comparison the Indian Ocean World slave trade has been little explored although it started some 3 500 years before the Atlantic slave trade and persists to the present day This volume which follows a collection of essays The Structure of Slavery in Indian Ocean Africa and Asia Frank Cass 2004 examines the various abolitionist impulses indigenous and European in the Indian Ocean World during the nineteenth and twentieth centuries It assesses their efficacy within a context of a growing demand for labour resulting from an expanding international economy and European colonisation The essays show that in applying definitions of slavery derived from the American model European agents in the region failed to detect or deliberately ignored other forms of slavery and as a result the abolitionist impulse was only partly successful with the slave trade still continuing today in many parts of the Indian Ocean World

Debt and Slavery in the Mediterranean and Atlantic Worlds Alessandro Stanziani,2015-10-06 Filling a significant gap in the historiography the essays in this volume show that debt slavery has played a crucial role in the economic history of numerous societies which continues even today

Eastern Mediterranean Port Cities Filiz Yenişehirlioğlu,Eyüp Özveren,Tülin Selvi Ünlü,2018-07-28 This book surveys the historical development current problems and likely prospects for Eastern Mediterranean port cities providing contributions from scholars from various disciplines such as archaeologists historians economists urban planners and architects By studying the city of Mersin and the surrounding area it offers insights into the changing nature of Eastern Mediterranean port cities The first part of the book discusses the approaches to the Mediterranean World from the late prehistory to the present and questions the implications of the values inherited from the past for a sustainable future The second part then examines the social structure of Eastern Mediterranean port cities presenting an in depth study of different ethnic groups and communities In the third part the changing physical structure of these cities is elucidated from the perspectives of archaeology architecture and urban planning The last part focuses on urban memory through a detailed study based on live recordings of original accounts by the local people The book benefits prospective researchers in the field of Mediterranean studies archaeology history economic history architecture and urban planning

A Different Shade of Colonialism Eve Troutt Powell,2003-05-29 This incisive study adds a new dimension to discussions of Egypt's nationalist

response to the phenomenon of colonialism as well as to discussions of colonialism and nationalism in general Eve M Troutt Powell challenges many accepted tenets of the binary relationship between European empires and non European colonies by examining the triangle of colonialism marked by Great Britain Egypt and the Sudan She demonstrates how central the issue of the Sudan was to Egyptian nationalism and highlights the deep ambivalence in Egyptian attitudes toward empire and the resulting ambiguities and paradoxes that were an essential component of the nationalist movement A Different Shade of Colonialism enriches our understanding of nineteenth and twentieth century Egyptian attitudes toward slavery and race and expands our perspective of the colonized colonizer **Policing the Globe** Peter Andreas,Ethan Nadelmann,2008 A thought provoking analysis of the historical expansion and recent dramatic acceleration of international crime control Policing the Globe provides a bridge between criminal justice and international relations on a topic of crucial public importance
