Working with Conflict Simon Fisher, 2000-08 Provides a range of tools ideas methods techniques for tackling conflict

A Quick Guide to Gender Mainstreaming in Information and Communications Joan Ross Frankson, 2001 Gender mainstreaming is the current international approach to promoting equality between women and men It is based on the recognition that gender inequality operates at all levels and in all sectors of society and thus needs to be addressed in the mainstream It aims to ensure that women and men benefit equitably from all that society has to offer and are equally empowered to affect its governance and decisions The Gender Management System GMS is a holistic and system wide approach to gender mainstreaming developed by the Commonwealth for the use of governments in partnership with other stakeholders including civil society and the private sector The GMS is a comprehensive network of structures mechanisms and processes to enable governments and other organisations to contribute to gender equality through all policy making planning and activities This Quick Guide has been produced to assist governments and other stakeholders using gender sensitive indicators in the context of gender mainstreaming It is an abridged version of the GMS publication Using Gender Sensitive Indicators A Reference Manual for Governments and Other Stakeholders Connotative Learning ,2004

Sharing the Pain of the Bitter Hearts Simone Lindorfer, 2007 This book reflects the fruitful dialogue between two regional contexts including the encounter of different methodologies namely the context of Latin American liberation psychology as inspired by liberation theology and specifically developed in El Salvador by the Jesuit Ignacio Martin Baro and the context of Eastern African women The book evaluates in four case studies the contribution of liberation psychology in overcoming various forms of gender related violence in Eastern Africa where the author has worked since 1998 as consultant in trauma work The book encourages the critical reflection of current trauma psychology as well as the conceptualisation of a globally oriented practical theology **Building Feminist Movements and Organizations** Lydia Alpízar Durán, Noël D. Payne, Anahi Russo, 2013-07-18 The struggle for the advancement of women s rights and gender equality globally is

impossible without strong women's organizations and movements to provide leadership and momentum. But what does a strong women's organization look like? And what does it take to create effective and sustainable women's movements? This groundbreaking collection of essays by activists from all corners of the globe explores what it means to be an influential women's organization and what it takes to build the kinds of movements needed to transform women's lives. From how to build successful participatory democratic processes and implement shared leadership models to lessons on overcoming internal organizational divisions, the case studies in this collection focus not only on the what but also the how of movement building. Those concerned with how to effect sustainable change will find not only much food for thought but also an abundance of creative ideas and innovative strategies served up with a uniquely feminist twist. *Gender and Trade Action Guide* Catherine Atthill, Commonwealth Secretariat, 2007-06-01.
