The Panzerkampfwagen Iii 3 At War Armor At War Series 701:

Armor ,2009 *Air Classics* ,1968 *National Union Catalog* ,1973 Includes entries for maps and atlases *The New Encyclopaedia Britannica* ,1991 *Macworld* ,1991 *The Panzerkampfwagen III at War* Michael Jerchel,Waldemar Trojca,1997 **Panzer III** Thomas Anderson,2022-02-17 This highly illustrated title details the history of the Panzer III throughout World War II from its early development in the pre war years through its pivotal role in the Blitzkrieg campaigns in Poland and Western Europe to its eventual obsolescence on the Eastern Front The Panzer III was the mainstay of the German armoured forces in the early years of World War II and spearheaded the victories in Poland Western Europe and the Balkans Designed and developed in the mid 1930s it was originally equipped with a 3 7cm gun and with 30mm thick armour Early combat in Poland and France saw the need for this to be upgraded and later models were armed with a 5cm KwK L 42 gun and had the frontal armour reinforced to 60mm by adding extra plating This later version proved to be particularly effective during the campaigns in the Balkans and against British armour in the North African desert campaign However in the first months of Operation Barbarossa the German invasion of the Soviet Union it became obvious to battlefield commanders that the Panzer III had become obsolete as a main battle tank and it began to be replaced by the Panzer IV as the main front line battle tank The Panzer III was relegated to a secondary role but its chassis proved the basis for the Sturmgeschutz III which became the most widespread German armoured vehicle of World War II **Panzer III** Bob Carruthers,2013 **Panzerkampfwagen III** David Doyle,2020-05-28 Initially developed to combat armored vehicles in time the type evolved into an infantry support tank Although production of the Panzer III ended in 1943 the type remained in service through the end of the war Through over 160 photos this volume chronicles the design development and deployment of this ubiquitous German tank This material is arranged in nine chapters each focusing on a specific production model or Ausfr ng of the tank Comprehensive tables reveal the details of the performance and technical specifications of each variant Part of the Legends of Warfare series provided by publisher **The Panzer III** Anthony Tucker-Jones,2017-05-31 The Panzerkampfwagen III Panzer III was one of the German army s principal tanks of the Second World War yet its history is often overlooked in comparison to its more famous successors the Panzer IV Panther and Tiger Anthony Tucker Jones in this volume in the Images of War series provides a visual account of the tank in over 150 wartime photographs and describes in a concise text its development and operational history The Panzer III was designed as part of Hitler s re armament program in the mid 1930 s and played a key role in the German blitzkrieg offensives in Poland France and the Soviet Union Although it lacked adequate firepower and could not match more advanced Allied tanks like the T 34 it stayed in service in North Africa and on the Eastern Front and it was still encountered in action in Normandy towards the end of the war Its reliable chassis was also adapted for assault gun production In this form as the Sturmgeschutz III it took part in the defensive battles fought by the Wehrmacht as it retreated in Italy France and eastern Europe Anthony Tucker Jones s selection of photographs show

the Panzer III in every theater of the war and at every stage and his text gives an insight into the design history and fighting performance of this historic armored vehicle
